**Wild Games** Dennis Ray Cutchins, Eric Alden Eliason, 2009 Humans understand at least some of what it means to be human both literally and figuratively in reference to wild animals Our relationships with wildlife have traditionally been expressed in terms of hunting more recently these relationships have also been manifest as efforts to prevent hunting Hunting and fishing traditions are in fact under fire by critics at the same time that they are receding of their own accord perhaps becoming even more endangered than any of the pursued animals These traditions form the major focus of Wild Games a new collection of essays that looks at the folklore and culture of various hunting and fishing practices documenting the central importance of hunting to many rural societies even in modern times Editors Dennis Cutchins and Eric Eliason contend that hunters often don't perceive of themselves as separate from the wild but rather identify strongly with a natural order integrated with rather than standing apart from the fluctuation of ecosystems And they frequently don't see wild animals as set apart but understand them as food sources competitors friendly rivals and even equals Featuring contributions from a variety of distinguished scholars and writers including an essay by the noted folklorist Simon Bronner on the culture of the deer camp a fascinating account of coyote tracking by Eric Eliason and an examination of the role of gender in outdoor life by Diane Humphrey Lueck this book shows how the traditions of hunting and fishing tend to bind hunter and prey into ancient patterns that often defy contemporary culture Book Jacket

This new edition brings together the latest developments and research in gun politics, policy, law, history, and criminology to provide a comprehensive and accessible source widely used by scholars, journalists, and in classrooms. In this era of polarized politics, this book provides a unique window into how and why that polarization drives our politics. New to the Ninth Edition: Examines current gun control legislation at both state and federal levels, particularly the circumstances that lead to the passage of the Bipartisan Safer Communities Act in 2022. Introduces the new constitutional standards for gun control legislation set by the controversial pro Second Amendment Supreme Court ruling in *New York State Rifle Pistol Association v. Bruen* (2022). Provides expanded and updated consideration on related issues, including the rise of gun carry movements on college campuses, attempts to regulate ghost guns, bump stocks, and guns with high capacity magazines, 50-caliber sniper rifles, and the impacts of the COVID-19 pandemic, the January 6 Capitol Attack, and the Black Lives Matter movement on contemporary gun control debates. Tracks the financial, political, and legal crises that threaten the dominance of the National Rifle Association and examines the rise of new gun rights groups, such as the National Association for Gun Rights. Presents new and updated statistical research on gun ownership in America, gun-related fatalities, public opinion, support of red flag laws, and other gun control measures. Incorporates new pedagogical features, including chapter summaries and discussion questions, into each chapter.
