The Star as Icon Daniel Alan Herwitz, 2008 Princess Diana Jackie O Grace Kelly the star icon is the most talked about yet least understood persona The object of adoration fantasy and cult obsession the star icon is a celebrity yet she is also something more a dazzling figure at the center of a media pantomime that is at once voyeuristic and zealously guarded With skill and humor Daniel Herwitz pokes at the gears of the celebrity making machine recruiting a philosopher's interest in the media an eye for society and a love of popular culture to divine our yearning for these iconic figures and the role they play in our lives Herwitz portrays the star icon as caught between transcendence and trauma An effervescent being living on a distant exalted planet the star icon

is also a melodramatic heroine desperate to escape her life and the ever watchful eye of the media The public buoys her up and then eagerly watches her fall her collapse providing a satisfying conclusion to a story sensationally told while leaving the public yearning for a rebirth Herwitz locates this double life in the opposing tensions of film television religion and consumer culture offering fresh perspectives on these subjects while ingeniously mapping society's creation and destruction of these special aesthetic stars Herwitz has a soft spot for popular culture yet remains deeply skeptical of public illusion He worries that the media distances us from even minimal insight into those who are transfigured into star icons It also blinds us to the shaping of our political present
