**The American Express Pocket Guide to Florence and Tuscany** Sheila Hale, Mitchell Beazley, 1990. **Building the Cold War** Annabel Jane Wharton, 2001. In postwar Europe and the Middle East, Hilton hotels were quite literally little Americas. For American businessmen and tourists, a Hilton Hotel with the comfortable familiarity of an English-speaking staff, a restaurant that served cheeseburgers and milkshakes, transatlantic telephone lines and most important, air conditioned modernity offered a respite from the disturbingly alien. For impoverished local populations, these same features lent the Hilton a utopian aura. The Hilton was a space of luxury and desire, a space that realized permanently and prominently the new and powerful presence of the United States. *Building the Cold War* examines the architectural means by which the Hilton was written into the urban topographies of the major cities of Europe and the Middle East as an effective representation of the United States. Between 1953 and 1966, Hilton International built sixteen luxury hotels abroad. Often the Hilton was the first significant modern structure in the host city as well as its finest hotel. The Hiltons introduced a striking visual contrast to the traditional architectural forms of such cities as Istanbul, Cairo, Athens and Jerusalem, where the impact of its new architecture was amplified by the hotel's unprecedented siting and scale. Even in cities familiar with the Modern, the new Hilton often dominated the urban landscape with its height changing the look of the city. The London Hilton on Park Lane, for example, was the first structure in London that was higher than St Paul's cathedral. In his autobiography, Conrad N. Hilton claimed that these hotels were constructed for profit and for political impact: an integral part of my dream was to show the countries most exposed to Communism the other side of the coin, the fruits of the free world. Exploring everything the carefully drafted contracts for the buildings to the remarkable visual and social impact on their host cities, Wharton offers a theoretically sophisticated critique of one of the Cold War's first international businesses and demonstrates that the Hilton's role in the struggle against Communism was as Conrad Hilton declared significant though in ways that he could not have imagined.

Many of these postwar Hiltons still flourish Those who stay in them will learn a great deal about their experience from this new assessment of hotel space      **Italy** Lucio Sponza, Diego Zancani, 1995 Italy has transformed itself in the last fifty years changing from a rural society into one of the seven wealthiest nations in the world This is despite the fact that Italy has had to cope with many apparent contradictions such as the twin influences of the Roman Catholic Church and the most powerful Communist Party in the West      **The Traveler's Handbook** Miranda Haines, Sarah Thorowgood, 1997 Containing a voluminous and detailed directory of useful information as well as informative and engaging essays on traveling in the 90s this book is the quintessential traveler's companion and the ultimate resource for what you need to know to go anywhere
