giant Wyman Booth Laboratories is teetering on the brink of foreclosure however there is potential for it to be saved with a highly lucrative research opportunity emerging in the vaporous rainforests of Ranomafana National Park Meanwhile Danish nurse Vicki Salling is dedicated to preserving the unique but fragile biodiversity of the region Newly assigned as manager of an environmental NGO she has grown fond of the charming Malagasy people who are as enigmatic as the natural surroundings they inhabit However reforestation is a Sisyphean task that is made all the more difficult by resistance from local farmers and the vested interests of the reckless local gemstone trade When Vicki meets Luc Legrand a debonair researcher at Wyman Booth with a murky history an international saga unfolds in which everyone is implicated From the executive boardrooms of Big Pharma to isolated outposts within the dense Madagascan jungle truths emerge that put innocent lives at risk But all amounts to nil when faced with the insurmountable force of the jungle the only true decider of fate It is the saviour and the barbarian the refuge and the ultimate destruction the void into which histories vanish and out of which legends are born Can Vicki and Luc find safety in obscurity from the global treachery that threatens them or will all be lost as a tropical storm gathers on the horizon

The Country of Lost Sons Jeffrey Thomson, 2004-02-08 Jeffrey Thomson's second collection of poems *The Country of Lost Sons* investigates the narrative environment of childhood especially the way violence is inscribed on children through myth culture and legend The poems trace the growth of the author's young son his vulnerability and equal potential for violence across a landscape of rewritten myth and narrative From the Trojan War bracketed as it is by the deaths of two children Iphigenia and Astyanax through the Biblical accounts of Job Jeremiah and Jephthah to the modern tragedies of the war in Kosovo AIDS and the contemporary culture of violence the poems build to a culmination of fear that is only tempered by love grace and the redemptive power of storytelling itself

How We See the Sky Thomas Hockey, 2024-05-31 Gazing up at the heavens from our backyards or a nearby field most of us see an undifferentiated mess of stars if that is we can see anything at all through the glow of light pollution Today's casual observer knows far less about the sky than did our ancestors who depended on the sun and the moon to tell them the time and on the stars to guide them through the seas Nowadays we don't need the sky which is good because we've made it far less accessible hiding it behind the skyscrapers and the excessive artificial light of our cities *How We See the Sky* gives us back our knowledge of the sky offering a fascinating overview of what can be seen there without the aid of a telescope Thomas Hockey begins by scanning the horizon explaining how the visible universe rotates through this horizon as night turns to day and season to season Subsequent chapters explore the sun's and moon's respective motions through the celestial globe as well as the appearance of solstices eclipses and planets and how these are accounted for in different kinds of calendars In every chapter Hockey introduces the common vocabulary of today's astronomers uses examples past and present to explain them and provides conceptual tools to help newcomers understand the topics he discusses Packed with illustrations and enlivened by historical anecdotes and literary references *How We See the Sky* reacquaints us with the wonders to be found in
