Coddington, 2016-10-30 Explore the human side of the Civil War through archival images and biographical sketches of Confederate and Union sailors During the American Civil War more than one hundred thousand men fought on ships at sea or on one of America's great inland rivers There were no large scale fleet engagements yet the navies particularly the Union Navy did much to define the character of the war and affect its length The first hostile shots roared from rebel artillery at Charleston Harbor Along the Mississippi River and other inland waterways across the South Union gunboats were often the first to arrive in deadly enemy territory In the Gulf of Mexico and along the Atlantic seaboard blockaders in blue floated within earshot of gray garrisons that guarded vital ports And on the open seas rebel raiders wreaked havoc on civilian shipping In *Faces of the Civil War Navies* Civil War photograph collector Ronald S Coddington focuses his skills on the Union and Confederate navies Using identifiable cartes de visite of common sailors on both sides of

the war many of them never before published Coddington uncovers the personal histories of each individual These unique narratives are drawn from military and pension records letters diaries period newspapers and other primary sources In addition to presenting the personal stories of seventy seven intrepid volunteers Coddington also focuses on the momentous naval events that ushered in an era of ironclad ships and other technical innovations Taken collectively these snapshots show that the history of war is not merely a chronicle of campaigns won and lost it is the collective personal odysseys of thousands of individual men

Sinmiyangyo: The 1871 Conflict Between the United States and Korea Thomas Duvernay, 2020-06-18 In 1871 five ships of the United States Asiatic Fleet headed into Korean waters intent on establishing relations with Korea a country that had shunned the outside world for centuries However as the country had been in conflict with Western countries just five years earlier it was going to be no easy task but one full of dangers The Koreans who were steadfast and unwilling to compromise the safety of their country saw the people of the Flowery Flag Country as interlopers coming to cause trouble like those before them No matter what it took they would resist to the last man No quarter was expected and none would be given Sinmiyangyo The 1871 Conflict Between the United States and Korea is a historical account of what took place during the spring of 1871 between the forces of the United States and Korea It recounts the story from when the Americans first met curious villagers and then mysterious Korean government officials leading to the first big cultural misunderstanding between the two countries which led to a very hostile interaction that reverberates up to the present day Dr Thomas Duvernay who has researched the event for decades narrates this exciting story which includes not only the descriptions of the battles fought but also insights into the people weapons and strategies that shaped American Korean relations for generations There are others who have written about it but none have seen it as closely as Dr Duvernay
