The Blue Jackets' Manual Ridley McLean, 1940 Gregory Owen, 2006 Recalls the experiences of Karl Baumann who joined the German Merchant Marine as a cabin boy at the age of fourteen in 1939 Baumann enlisted in the German Navy or Kriegsmarine in 1941 and served as an anti aircraft gunner in the submarine service until his surrender to American forces in 1944 Describes Baumann's internment at the prisoner of war camp at Lyndhurst Virginia his repatriation to Germany and his subsequent emigration to Virginia in 1951 Naval Training Bulletin, 1942 **The Bluejackets' Manual**, 1917 **U.S. Naval Training Bulletin**, 1950 The Men Stephen Leal Jackson, 2010 Submarine duty during World War II was one of the most statistically deadly physically demanding and emotionally challenging assignments in the U S Navy The boats had few crew comforts and war patrols typically thirty to sixty days in length were so exhausting that the submarine sailors often got a month of rest after each patrol What would motivate men to volunteer for this unmistakably difficult and dangerous job This is the question that *The Men* will answer using the oral histories of enlisted submarine veterans a collection of letters of one sailor who did not return and other primary sources These volunteers from diverse locales and backgrounds ignored the danger accepted the privations and

exalted in the camaraderie Their excitement fear and humble heroism is captured in their own words the real story of the undersea war in the Pacific told by the men who fought it A veteran of the United States Navy Stephen Leal Jackson spent eight years in the submarine force serving on the USS Los Angeles SSN 688 and the USS Florida SSBN 728 Jackson s service included several Western Pacific cruises to the oceans lands and ports described in *The Men* A lifelong student of American history Jackson s ongoing research concentrates specifically on World Wars I and II Jackson received his Master of Arts in American History from Providence College and is currently in the Ph D program at Salve Regina University Jackson has served as the primary spokesperson for a major electrical utility on nuclear and environmental issues His unique perspective as a onetime navy enlisted submariner trained historian and skilled communicator allows Jackson to provide clear and easy access to the fascinating experiences of the men who fought the undersea battles during World War II

The War of Words Molly Gupthill Manning, 2023-09-26 From New York Times bestselling author Molly Gupthill Manning comes *The War of Words* the captivating story of how American troops in World War II wielded pens to tell their own stories as they made history At a time when civilian periodicals faced strict censorship US Army Chief of Staff George Marshall won the support of President Franklin Delano Roosevelt to create an expansive troop newspaper program Both Marshall and FDR recognized that there was a second struggle taking place outside the battlefields of World War II the war of words While Hitler inundated the globe with propaganda morale across the US Army dwindled As the Axis blurred the lines between truth and fiction the best defense was for American troops to bring the truth into focus by writing it down and disseminating it themselves By war s end over 4 600 unique GI publications had been printed around the world In newsprint troops made sense of their hardships losses and reasons for fighting These newspapers by and for the troops became the heart and soul of a unit From Normandy to the shores of Japan American soldiers exercised a level of free speech the military had never known nor would again It was an extraordinary chapter in American democracy and military history In the war for four freedoms it was remarkably fitting that troops fought not only with guns but with their pens This stunning volume includes fourteen pages of photographs and illustrations

Naval History, 2019

Two Navies Divided Brian Lavery, 2025-04-22 The title is derived from George Bernard Shaw s comment that England and America are two countries divided by a common language It is not intended to imply that the two navies were seriously at odds with one another but rather to suggest as in the case of language that common roots and usages varied significantly And the Second World War is a pertinent moment for comparison They fought on the same side against a common enemy for nearly four years but Britain fought the war for the survival of itself and its empire though in the long term it failed with the latter while the American government fought to maintain its influence through the balance of power its people fought for revenge for Pearl Harbor and out of a sense of justice In this new book Brian Lavery describes and analyzes the differences and similarities between the two navies and in doing so sheds

fascinating light on how the naval war was fought For example both navies had spectacular failures after entering the war the Royal Navy off Norway the USN at Pearl Harbor and Savo Island Paradoxically both commenced the war with quite amateur performances by professional navies and ended with highly skilled performances by largely amateur manned forces The training systems for regular officers had flaws in both countries In Britain entry was largely dependent on family income in America on political influence But American officers probably had a broader perspective by the time they entered active service The book covers ships and weapons systems for instance the British used too many gun types in the 4 to 6in range while the Americans concentrated on the well designed 5in And the author describes conditions onboard ships British vessels were awash with alcohol which had its attractions for Americans when alongside the Americans offered ice cream in return These examples represent only a tiny proportion of the subjects covered in this stimulating analysis Aviation the marines of both navies anti submarine and mine warfare uniforms propulsion systems shipbuilding and building programs commanders and national leaders ratings and officers ship design geographical environments naval bases hammocks and bunks the deployment of women these are among the myriad big and small themes that will open the eyes of naval historians and enthusiasts and show anyone with an interest in the Second World War how these two great allies came together to defeat the Axis forces

Mess Night Traditions Charles J. Gibowicz, 2007-09 This book is about the military Sea Service Mess Night the Sea Services consisting of the Navy Marines and Coast Guard Mess Nights are traditional time honored events going back to at least the 18th Century Formal military dining has historically been a way to communicate to celebrate special events and a way to promote unity and camaraderie The Mess Night although a military formation and a formal event is also a great deal of fun Some of today s protocol and script is not exactly matching the past Today s Mess Night is a bit more regimented and programmed but basically reflects all that was included in the old days and also reflects some of procedures used during the days of sail This book is written because there are no books on Mess Nights this is a first Like many Sea Service customs and traditions this custom has been handed down from generation to generation unwritten Scripts and instructions were not necessary as Mess dinners were common The British Navy can claim a continuous unbroken tradition and they are basically the providers of the American tradition They host Mess dinners much more frequently than the Americans do and the entire Navy traditionally celebrates the anniversary of the Battle of Trafalgar Americans have no set celebration and also have fewer Mess Nights Many officers are not even aware of Mess Nights This is because of several factors covered in the book Hopefully this book will stimulate greater interest in this important event As the alcohol rule for ships rule has been loosened it is particularly hopeful that shipboard Mess Nights can again become an event It would be most appropriate to celebrate the event for which the ship is named or to begin the tradition of celebrating Navy Day or other famous event such as those listed in this book

Purple Heart Recipient **A Blue Sea of Blood** Donald M. Kehn, 2009-01-15 On the morning of March 1 1942 the WWI era destroyer USS Edsall under orders to deliver some forty Army Air Force fighter crews to the beleaguered island of Java split off from the USS Whipple and the tanker Pecos and was never seen again by Allied forces Despite the later discovery of bodies identified as Edsall crew members near a remote airfield on the coast of Celebes what happened to the ship remains a matter of mystery and perhaps deliberate obfuscation This book explores the many puzzling facets of the Edsall s disappearance in order to finally tell the full story of the fate of the vessel and her crew Based on exhaustive research of the historical record including newly deciphered Japanese documents and previously unrevealed material from the crew s family members A Blue Sea of Blood offers a painstaking reconstruction of the ship s history The book investigates not only the Edsall s mysterious final action but also her wide ranging pre war career and the curious uses to which her story was put generally under false pretenses first by the pre war US Navy and then by the Japanese wartime propaganda machine And finally military historian Donald Kehn considers the circumstances surrounding the curious obscurity of the Edsall s heroic service and final battle in American histories Redressing six decades of official indifference Kehn s account recovers a significant chapter missing from the history of World War II and tells a long overdue story of courage and tragic loss
