The Nature of War Jim Stempel, 2014-11-26 For over 12 000 years human beings have warred slaughtering each other with persistence and brutality From spear point to thermonuclear ordnance human ingenuity has had a serious downside In the 20th century alone wars claimed more than 90 million lives Yet war s origins meaning and evolution over the millennium remain to this day a mystery Why is warfare almost as old as man himself How is it that a creature capable of producing great art architecture literature medicine and wondrous acts of compassion is simultaneously capable of such cruel and wanton slaughter To answer these and other questions this thoughtful study journeys across time and disciplines to examine and sensibly explain human warfare clarify its source and driving energy and thoughtfully develop the prospect of a true and lasting peace

Un-Civilizing America William Bonner, 2023-04-26 Discover what sets a fair and just economy apart from the rest In Un Civilizing America How Win Win Deals Made Us Rich bestselling author William Bonner delivers an incisive and engrossing

account of the American economy the four simple steps to earning money the honest way and why many choose the dishonest way instead He also discusses the shadow groups that influence America behind the scenes and how their power grew so large they lost the need to remain hidden and what really drives the government's phony wars including the War on Drugs and the US China trade war In the book you'll learn why the best kinds of economies run on win-win deals and how companies and individuals use market set prices to maximize their utility You'll also discover Why the Sermon on the Mount was the best economic and social advice ever given How civilization developed and the one thing that sets it apart from barbarity How win-lose deals inevitably force one side or the other to accept the terms of the agreement Why allowing only one side to profit in an arrangement is a recipe for disaster in the long run Why capitalism favors win-win deals while socialism prefers the win-lose variety A can't miss resource for anyone interested in American or global economics and finance *Un-Civilizing America* will also earn a place on the bookshelves of business leaders entrepreneurs policy and lawmakers and regulators

It Is Done Richard Modee, 2019-11-05 The Second Coming of Jesus Christ will be announced by the most unimaginably powerful earthquake never known by man splitting the Mount of Olives in two and changing the earth worldwide There are at least seventeen earthquakes revealed in the Bible nine of them in the New Testament Every earthquake reveals God's presence and His power Some reveal God's warning and wrath against sin God placed every earthquake fault on the earth at the creation and He knows where they are when He will release them for whatever purpose He chooses The Bible describes five distinct conditions of the earth First it was formless lifeless and enshrouded in darkness After the six days of creation the earth was transformed into the second condition pristine free of sin beautiful and peaceful for man The sinful third condition occurred when Satan entered the garden introduced sin and began to assault man God cleansed the earth once again with the Great Flood but man quickly reintroduced sin into the world creating the fourth condition we are living in today It is a world that is in serious moral decline due to greed pride immorality disobedience love for each other gone cold and the increasing rejection of our Lord and Savior Jesus Christ God will finally change this fourth condition with devastating events during the seven years of tribulation releasing four worldwide earthquakes and finally an unimaginable final earthquake to purge the earth of sin and create the peaceful sin-free and pristine fifth condition for 1,000 years The earthly kingdom and the heavenly kingdom will become one and Jesus will reign until the final judgement of sinners God will bring the New Jerusalem down from heaven where we will be in the presence of God and Jesus for all eternity

Rapprochement Between Fathers and Sons Louis Rothschild, 2023-11-23 Following Freud's rather cold conception of fathers and a relative neglect of their role in psychoanalytic theory is a challenge to continue more recent efforts to develop a psychoanalytically affirmative portrait of fatherhood. Here fathers are attuned to relational mutuality and intimacy as a source of flourishing. Rapprochement is understood as a sub phase of child development marked by a dramatic expression of conflict such as "Hear me see me give me space don't give me space." In addition, rapprochement is considered to characterize conflicts between autonomy and dependency across the lifespan. An often muted and subtle tension between holding and letting go persists. Working with what is felt entails entering a never fully completed negotiation marked by misreadings, bias, and illusion. Father is understood to be a name pointing to a parenting function. With material that includes the grief of failed reunion, particular stories are mediated through thinking alongside philosophy and psychoanalytic theory in order to further explore the difficulty of integrating nurturing capacities into conceptions of masculinity. As a critique of gendered rigidity, a case is made for a social surround that declares mutual vulnerability to exist in a state of permanent inquiry and relational curiosity. Such openness can function to aid parents, clinicians, and respective community members to privilege the development of increased frustration tolerance. By extension, a good enough father is one who recognizes breakdown, a need for refueling, and possesses and practices a willingness to encounter uneven rhythms in human dimensions. This thoughtful work brings fresh insight into the role of the father and masculinity and is essential reading for mental health professionals.

The History of al-Ṭabarī Vol. 15, 2015-06-16 Before the caliphate of the Uthmān ibn Affān, the Muslim community had grown from strength to strength in spite of a series of major crises: the Hijrah, the death of the Prophet, the Riddah wars, the assassination of Umar by a Persian slave. But Uthmān's reign ended in catastrophe. His inability to manage the social and political conflicts that were now emerging among various factions within the community led to his death at the hands of Muslim rebels. The consequences of this tragic event were bitter: not only a century of civil war but also political and religious schisms of such depth that they have not been entirely healed even now. Most medieval Muslim historians told this story in an overtly partisan manner, but al-Ṭabarī demands more of his readers. First of all, they must decide for themselves on the basis of highly ambiguous evidence whether Uthmān's death was tyrannicide or murder. But more than that, they must ask how such a thing could have happened at all: what had the Muslims done to bring about the near destruction of their community? Al-Ṭabarī presents this challenge within a broad framework. For even while the internal crisis that issued in Uthmān's death was coming to a head, the wars against Byzantium and Persia continued. The first expeditions into North Africa, the conquest of Cyprus, the momentary destruction of the Byzantine fleet at the Battle of the Masts, the

bloody campaigns in Armenia the Caucasus and Khurasan are all here in narratives that shift constantly between hard reporting and pious legend Muslim forces retain the offensive but there are no more easy victories henceforth suffering and endurance will be the hallmarks of the hero Most evocative in the light of Uthman's fate is the moving account of the murder of the last Sassanid king Yazdagird III a man betrayed by his nobles and subjects but most of all by his own character **The**

The Loom of Time Robert D. Kaplan, 2025-01-14 A stunning exploration of the Greater Middle East where lasting stability has often seemed just out of reach but may hold the key to the shifting world order of the twenty first century Engaging Even those who resist Kaplan's tragic sensibility have much to learn from his look at the emerging Middle East and its recent history National Review FINALIST FOR THE OVERSEAS PRESS CLUB'S CORNELIUS RYAN AWARD The Greater Middle East which Robert D Kaplan defines as the vast region between the Mediterranean and China encompassing much of the Arab world parts of northern Africa and Asia existed for millennia as the crossroads of empire Macedonian Roman Persian Mongol Ottoman British Soviet American But with the dissolution of empires in the twentieth century postcolonial states have endeavored to maintain stability in the face of power struggles between factions leadership vacuums and the arbitrary borders drawn by exiting imperial rulers with little regard for geography or political groups on the ground In the Loom of Time Kaplan explores this broad fraught space through reporting and travel writing to reveal deeper truths about the impacts of history on the present and how the requirements of stability over anarchy are often in conflict with the ideals of democratic governance In The Loom of Time Kaplan makes the case for realism as an approach to the Greater Middle East Just as Western attempts at democracy promotion across the Middle East have failed a new form of economic imperialism is

emerging today as China's ambitions fall squarely within the region as the key link between Europe and East Asia. As in the past, the Greater Middle East will be a register of future great power struggles across the globe. And like in the past, thousands of years of imperial rule will continue to cast a long shadow on politics as it is practiced today. To piece together the history of this remarkable place and what it suggests for the future, Kaplan weaves together classic texts, immersive travel writing, and a great variety of voices from every country that all compel the reader to look closely at the realities on the ground and to prioritize these facts over ideals on paper. *The Loom of Time* is a challenging, clear-eyed book that promises to reframe our vision of the global twenty-first century. *Poets & Writers*, 1987

Johnny Spencer, 2018-09-24 If you don't wish to be left in the dark and base your admiration and acceptance of the religion of Islam on what is less than true, assuming it is just as every other religion in the world, then you must read *Foretold Kingdoms of the Islamic Anti-Christ* to learn of Islam's true origin and true destiny from the Holy Bible that most Muslim scholars are totally unaware about their own religion. Discover why the religion of Islam has survived through fourteen centuries of cultural and theocratic evolution until today and explore the Bible's true prophetic purpose of Islam's existence—whether it is to bring peace on earth and goodwill toward man or for a more sinister purpose for the world. This bold new revelation on the end of Islam and its coded presence in Bible prophecy is openly expressed for all to see in this gripping unveiling of true

ancient Islam **Covenant and Commandment** C. W. Christian, 2004 Covenant and Commandment at first seeks to establish that the heart of Hebrew faith and thought is a vision of God as one who makes covenants with Israel with all humankind and indeed with the whole creation As a covenant maker God binds himself through his promises It is Israel's conviction that God is the kind of God who makes promises and keeps them This conviction as Christian contends has given creative power and shape to the whole of Hebrew and Christian history As the book continues C W Christian contends that the Hebrew law especially that expression called the Ten Commandments can best be understood as a joyful response to God's covenant grace a response that embraces every aspect of our being community with God with each other and with God's world Each of the commandments is then examined to discover how it may provide guidance in living unto God and in human community Covenant and Commandment is ideal for either personal or group study on the nature and use of the Ten Commandments A study guide with relevant questions is provided for reflection and discussion
