Bloomington Interview:

Missed by the Recovery United States. Congress. Senate. Special Committee on Aging, 2012 Barbara Morgan Curtis L. Carter, Barbara Brooks Morgan, 1988 *Wisecracker* William J. Mann, 1998 Here for the first time the stories of Hollywood's gay stars are seen in context with their times and with one another revealing a pattern of intimidation by the studios and ultimately the establishment of the Hollywood closet Alone among his contemporaries Ramon Novarro Cary Grant Tyrone Power Haines refused to play the game and so was booted out Couture & Commerce Alexandra Palmer, Royal Ontario Museum, 2001 The 1950s were the golden years of haute couture captured by iconic images of glamorous models wearing dramatic clothes Yet the real women who wore these clothes adapted them to suit their own tastes altered them to extend their life and often could not bear to part with them long after the dresses had outlived their use This gorgeously illustrated book demonstrates why so many of these designs are still in existence and why we are fascinated by them fifty years later Couture and Commerce investigates how and why postwar couture fashion was important in its own day The Paris couture houses survived due to the enthusiasm of the North American fashion press and commercial buyers Alexandra Palmer traces the European haute couture trade with North America by following actual surviving couture dresses from the design house sketch through the model used in New York fashion shows and as a template for copies and knock offs and finally to the consumer Couture and Commerce is a remarkable mixture of accessible text color photographs of the original garments design house sketches and photographs retailers advertisements and society page images Weaving together analysis of the clothes and interviews with those who traded sold and wore couture Alexandra Palmer vividly recreates the 1950s fashion world **Basics Fashion Design 01: Research and Design** Simon Seivewright, 2012-02-09 Research is fundamental to the success of any fashion related project and in Research and Design you explore what research is and where to find inspiration Rupert Murdoch William Shawcross, 1992 Rupert Murdoch's News Corporation empire ended the 80s with a debt the size of Ecuador's and on the verge of catastrophe Houdini like Murdoch survived buying time merging Sky with BSB advancing into the 90s as one of the most powerful media barons the world has ever known **The New York Supplement**, 1899 Cases argued and determined in the Court of Appeals Supreme and lower courts of record of New York State with key number annotations varies The Warhol Economy Elizabeth Currid-Halkett, 2020-05-05 Which is more important to New York City's economy the gleaming corporate office or the grungy rock club that launches the best new bands If you said office think again In *The Warhol Economy* Elizabeth Currid argues that creative industries like fashion art and music drive the economy of New York as much as if not more than finance real estate and law And these creative industries are fueled by the social life that whirls around the clubs galleries music venues and fashion shows where creative people meet network exchange ideas pass judgments and set the trends that shape popular culture The implications of Currid's argument are far reaching and not just for New York Urban policymakers she suggests have not only seriously

underestimated the importance of the cultural economy but they have failed to recognize that it depends on a vibrant creative social scene They haven't understood in other words the social cultural and economic mix that Currid calls the Warhol economy With vivid first person reporting about New York's creative scene Currid takes the reader into the city spaces where the social and economic lives of creativity merge The book has fascinating original interviews with many of New York's important creative figures including fashion designers Zac Posen and Diane von Furstenberg artists Ryan McGinness and Futura and members of the band Clap Your Hands Say Yeah The economics of art and culture in New York and other cities has been greatly misunderstood and underrated The Warhol Economy explains how the cultural economy works and why it is vital to all great cities

Life in the White House Robert P. Watson, 2012-02-01 This unique perspective on the White House one of the most readily identifiable structures in the world brings together the views of librarians journalists political advisers attorneys researchers and professors Filled with anecdotes little known facts and scholarly analysis the book shows how The People's House has been shaped and molded both architecturally and philosophically by the different administrations over the past 200 years Erudite and entertaining Life in the White House looks at the social history of the first family the creation of the president's home and efforts by first families to carve out a space for the important business of family while preserving the history of their famous residence This public museum and private residence which began as the result of a 500 Jefferson era architectural design contest now symbolizes one of the world's great superpowers
