Praise for the Blue Moon Investigation series and Steve Higgs: Be prepared to struggle with getting anything else done as you will want to keep reading. Supernatural overtones with a hint of sexual tension interspersed with humor make this a fantastic book. Truly delightful tales of mystery and misadventure. Higgs is a wonderful author with great character development which includes an enticing cast of misfits. A

great crime comedy with a group of zany characters I really enjoyed the book and look forward to the next one Highly recommended Higgs makes everything and everyone come alive

Escaping Gravity Lori Garver, 2022-06-21. A former NASA deputy administrator recounts how she battled greed and corruption to revolutionize the agency and usher in a new space age. *Escaping Gravity* is former NASA Deputy Administrator Lori Garver's firsthand account of how a handful of revolutionaries overcame the political patronage and bureaucracy that threatened the space agency. The success of Elon Musk's SpaceX, Jeff Bezos's Blue Origin, Richard Branson's Virgin Galactic, and countless other commercial space efforts were preceded by decades of work by a group of people Garver calls space pirates. Their quest to transform NASA put Garver in the crosshairs of Congress, the aerospace industry, and hero astronauts trying to protect their own profits and mythology within a system that had held power since the 1950s. As the head of the NASA transition team for President-elect Barack Obama and second in command of the agency, Garver drove policies and funding that enabled commercial competition just as the capabilities and resources of the private sector began to mature. She was determined to deliver more valuable programs which required breaking the self-interested space industrial cycle that like the military preferred to spend billions of taxpayer dollars on programs aimed to sustain jobs.
