Initiatives in the Global South Jeronimo Delgado-Caicedo, 2022-07-28 During the first half of the twentieth century the international system was largely dominated by the USA and the colonial powers of western Europe After the two world wars the political and economic dominance of these states guaranteed them and their allies an almost complete control of world politics However as it is the norm in the international system power structures are not immutable After the end of the Cold

War rapid changes to the existing international hierarchies took place as new countries from the so called developing world began to emerge as crucial actors capable of questioning and altering the power dynamics of the world It is therefore unthinkable to ignore emerging countries such as Russia the People s Republic of China India Brazil or South Africa in the decision making process in today s world order In addition there is a group of smaller yet increasingly important countries that while acknowledging their inability radically to change the rules of the international system are still eager to shift power relations and enhance their influence in the world Argentina Colombia Egypt Indonesia Iran South Korea Mexico Nigeria Pakistan Saudi Arabia Turkey and Vietnam are generally recognised as part of this grouping of emerging powers from the Global South While there is a consensus amongst academics that emerging powers from the Global South must have a stabilising role within their own regions previous analyses have focused primarily on the impact that emerging powers have had in their own regions conflict resolution initiatives This volume instead aims to go beyond these analyses and provide new insights regarding the effect that this stabilising role has on the continental and global positioning of emerging powers In other words this book explores the relation between a country s involvement in conflict resolution initiatives and its positioning in the international system The volume will contribute to this approach using the perspective of academics and practitioners from countries of the Global South particularly from states that have strengthened or sometimes weakened their position in the international hierarchy of power through a leading role in regional conflict resolution initiatives

Sustainable Development and Intellectual Property Benedetta Ubertaini,2022-08-04 This book critically analyses the relationships between intangible cultural heritage ICH sustainable development and intellectual property rights IPRs The author argues that although the use of IPRs to safeguard ICH presents challenges and has impeded sustainable development in some cases the adoption of these rights on ICH also presents opportunities and fundamentally is not contrary to the spirit of the UNESCO Convention for the Safeguarding of the Intangible Cultural Heritage UNESCO 2003 Convention The adoption of IPRs on ICH can form an important part of the development of sustainable safeguarding plans capable of benefitting the communities groups and individuals CGIs that create maintain and transmit such heritage The book provides a nuanced

analysis of the relationship between intellectual property IP law and ICH as well as examining the role of IPRs in safeguarding ICH through the lens of sustainable development It analyses the relationship between IP law and ICH from environmental social and economic perspectives These perspectives allow a thorough evaluation of both the positive effects and potential pitfalls of adopting IPRs to safeguard ICH The book addresses deeper structural matters that refer back to the safeguarding of social and environmental processes underlying ICH *Survey of Economic and Social Developments in the Arab Region* United Nations Publications, 2016-04-25 In addition to conflicts and related security disruptions in the Arab region a significant fall in oil prices and their uncertain prospects have become a predominant economic concern with prices plunging by more than 50 per cent in the second half of 2014 Nevertheless member countries of the Gulf Cooperation Council GCC have continued to lead growth in the Arab region This edition of the Survey of Economic and Social Developments in the Arab Region looks at the continued expansion of the non oil sector as it maintains GCC economic growth Lower oil prices have not yet negatively affected the GCC economically although confidence has dropped with weakening stock markets and real estate transactions Furthermore lower oil prices have benefited oil importing Arab countries by easing their balance of payment and fiscal constraints With conflict and violence in the region one of the main channels for economic stabilization has been intraregional flows of capital and remittances from the GCC countries
