role institutions played in determining a Spartiate's standing and to what extent Sparta was as ancient accounts would suggest significantly more institutionalized than other Greek societies. Placing Sparta in the context of the renewed interest in institutions and their social significance represented across multiple disciplines by the New Institutional turn, he presents a more dynamic understanding of the internal life of the Spartiate community with a nuanced appreciation of the dimensions and limits of Sparta's exceptionality.

Sparta Stephen Hodkinson, Anton Powell, 2008-12-31. This is the 7th volume from the International Sparta Seminar in the series begun in 1989 by Anton Powell with Stephen Hodkinson. The volume is both thematic and eclectic. Ephraim David and Yoann Le Tallec treat respectively the politics of nudity at Sparta and the role of athletes in forming the Spartan state. Nicolas Richer examines the significance of animals depicted in Lakonian art. Andrew Scott asks what Lakonian figured pottery reveals of local consumerism. Nino Luraghi and Paul Christesen deal respectively with the way in which Sparta was viewed by Messenians and by Ephorus. Jean Ducat treats the ghost of the Lakedaimonian state, a major study of formal relations between Spartiate and perioikic communities. Thomas Figueira considers how Spartan women policed masculine behaviour. Anton Powell traces the development of Spartan reactions to political divination in the classical period.

Greek Warfare beyond the Polis David A. Blome, 2020-04-15. Greek Warfare beyond the Polis assesses the nature and broader significance of warfare in the mountains of classical Greece. Based on detailed reconstructions of four unconventional military encounters, David A. Blome argues that the upland Greeks of the classical mainland developed defensive strategies to guard against external aggression. These strategies enabled wide scale sophisticated actions in response to invasions but they did not require the direction of a central federal government. Blome brings these strategies to the forefront by driving ancient Greek military history and ancient Greek scholarship beyond the polis into dialogue with each other. As he contends, beyond the polis scholarship has done much to expand and refine our understanding of the ancient Greek world but it has overemphasized the importance of political institutions in emergent federal states and has yet to treat warfare involving upland Greeks systematically or in depth. In contrast, Greek Warfare beyond the Polis scrutinizes the sociopolitical roots of warfare from beyond the polis, which

are often neglected in military histories of the Greek city state By focusing on the significance of warfare vis vis the sociopolitical development of upland polities Blome shows that although the more powerful states of the classical Greek world were dismissive or ignorant of the military capabilities of upland Greeks the reverse was not the case The Phocians Aetolians Acarnanians and Arcadians in circa 490 362 BCE were well aware of the arrogant attitudes of their aggressive neighbors and as highly efficient political entities they exploited these attitudes to great effect
