Alternative Visions of Post-War Reconstruction John Pendlebury, Erdem Erten, Larkham J Peter, 2014-08-19 The history of post Second World War reconstruction has recently become an important field of research around the world Alternative Visions of Post War Reconstruction is a provocative work that questions the orthodoxies of twentieth century design history This book provides a key critical statement on mid twentieth century urban design and city planning focused principally upon the period between the start of the Second World War to the mid sixties The various figures and currents covered here represent a largely overlooked field within the history of 20th century urbanism In this period while certain modernist
