*Honey and Vinegar* Richard N. Haass, Meghan L. O'Sullivan, 2001-09-19 Buttressed by input from scholars diplomats and observers with an intimate knowledge of U S foreign policy *Honey and Vinegar* examines engagement strategies that primarily involve the use of positive incentives The book contends that although engagement has received little scrutiny relative to other more punitive foreign policy approaches it has great potential as a tool for modifying the behavior of regimes with which the United States has significant disagreements Heightened awareness of the costs associated with the use of sanctions or military force has catalyzed a search for policy alternatives In this quest to find other appropriate policy options for pursuing foreign policy goals strategies of engagement warrant serious consideration As argued in these pages the use of incentives rather than penalties may be particularly well suited to the post Cold War world where globalization has made the economic isolation of any country difficult to achieve At the same time the collapse of the Soviet Union has meant that American carrots may be especially savory to many regimes once reliant on Soviet support Paradoxically engagement can be a good choice even when it fails in that it can open the door for other policy options For instance the two years in which America tried to engage Saddam Hussein before the Gulf War worked to the advantage of the United States later After Iraq's invasion of Kuwait in 1990 American efforts to build a military coalition to oppose Iraq were facilitated by the sense in the region that the United States had earlier pursued a conciliatory policy but to no avail Contributors to this volume have provided seven cases exploring episodes of engagement relations between the United States and China Europe's Critical Dialogue with Iran U S engagement with Iraq from 1988 to 1990 U S efforts to engage North Korea the combination of U S persuasion and coercion toward South Africa in the apartheid era the les *US Foreign Policy and the Rogue State Doctrine* Alex Miles, 2013 Concerns over Iran's nuclear programme North Korea's nuclear brinkmanship and in the past Iraq's apparent pursuit of WMD have captured the world's attention and dominated the agenda of the American foreign policy establishment But what led policymakers and the US military to emphasise the threat of rogue states at the end of the Cold War Going behind the vivid language of the axis of evil and portrayals of undeterrable and reckless rogue states this work demonstrates how the rogue state doctrine satisfied both domestic and international goals in the Clinton and George W Bush administrations underpinning efforts to maintain US leadership and hegemony It offers a clear picture of the policymaking process taking a broad historical approach that places the actions of US officials towards Iraq Iran North Korea Libya and Cuba in a wider context Through an understanding of the long standing influences on the US approach we are better able to appreciate why for instance regime change dominated the post 9 11 agenda and led to the overthrow of Saddam Hussein Explaining in detail how the tackling of rogue states became a central aim of US foreign policy Miles examines whether there was continuity between the Clinton and Bush approach He moves on to highlight the influence of Congress on the implementation of US policies and the difficulties the US faced in selling its approach to allies and adapting its hard line

strategies to reflect developments within the targeted states By considering the impulses and drivers behind the development of the rogue states approach this work will extend the scope of existing work in the field and will be of interest to scholars and policymakers alike *US Foreign Policy After the Cold War* Fraser Cameron, 2006-03-20 Since the success of the best selling first edition the world has remained fascinated with US foreign policy not least because of the far reaching consequences of the US led invasion of Iraq This fully updated textbook follows the events of the past two and a half years including the 2004 presidential campaign whilst still providing a comprehensive introduction to all aspects of American foreign policy Chapter headings include from colony to superpower the post Cold War decade the role of Congress the media and public opinion the US and terrorism Examining the administrations of George Bush Bill Clinton and George W Bush it explains the complex interaction between the institutions of power the key actors and the non governmental organizations to give a complete picture of foreign policy With a complete glossary of terms this textbook is ideal for those studying American politics or international relations Companion website available at [www.routledge.com/textbooks/0415358655](http://www.routledge.com/textbooks/0415358655)

**The Prevention and Intervention of Genocide** Samuel Totten, 2017-09-08 Over the last twenty years the world has witnessed four major genocides There was the genocide in Iraq 1988 in Rwanda 1994 in Srebrenica 1995 and in Darfur 2003 and continuing Most observers agree there is an urgent need to assess the international community s efforts to prevent genocide and to intervene once a genocide is under way in an effective and timely manner This volume the latest in a widely respected series on the subject of genocide provides an overview of a host of issues germane to this task The book begins with a cogent discussion of the issues of prevention and intervention during the Cold War years The second chapter discusses the abject failures and moderate though in some cases highly controversial successes at prevention and intervention carried out in the 1990s and early 2000s Further chapters examine latest efforts to develop an effective genocide early warning system and examine the complexity of and barriers to prevention The pros and cons of sanctions and the problems of enforcement and evaluation their effectiveness are then discussed Conflicts between state sovereignty and the protection of threatened populations are examined both in historical context and by incorporating the latest thinking Later chapters treat the issue of intervention why and how it has met with only limited success Concentrating on Rwanda and Srebrenica chapter 8 discusses various peace operations that were abject failures and those that were moderately successful The concept of an anti genocide regime is examined in terms of progress in developing such a regime as well as what the international community must do in order to implement it Chapters discuss key issues related to post genocidal periods those that need to be addressed in order to establish stability in a wounded land and populace as well as to prevent future genocides The final chapter asks whether bringing perpetrators to justice has any impact in breaking impunity ensuring deterrence and bringing about reconciliation The contributors to the volume are all noted scholars some of whom specialize in the study of genocide and others who specialize in such areas as early warning peacekeeping and sanctions

**Inside the Situation Room** Hillary Rodham Clinton, Keren Yarhi-Milo, 2025-09-15 Combining decades of diplomacy and world renowned scholarship Inside the Situation Room bridges the gap between politics and academia to illuminate how world leaders make decisions in times of crisis For decades people have sought to understand how and why decisions are made in times of crisis but very few get the opportunity to witness leaders decision making process The result has been a persistent disconnect between the theory and the practice of decision making Now a former US Secretary of State has joined forces with a world renowned scholar to bridge that gap first in their ground breaking class at Columbia University s School of International and Public Affairs and now in the pages of this book In Inside the Situation Room Secretary Hillary Rodham Clinton and Dr Keren Yarhi Milo bring together insights from more than a dozen leading policymakers and scholars so readers can experience a masterclass in global policy and crisis decision making The book includes everything from the psychology and mechanics of threat assessment the role of advisors the effects of group think and trust real life stories of diplomatic efforts and covert operations how women have shaped decisions over peace and security and the impact of public opinion Inside the Situation Room offers an insider look at how decisions are actually made what theoretical insights might be useful to current and future generations of leaders and where research still needs to be done This book will serve as the first step toward a new standard engagement more active iterative collaboration among two communities scholars and practitioners who have a great deal to contribute and learn from one another **North Korean Nuclear Operationality** Gregory J. Moore, 2014-01-01 What are the consequences of a successful nuclear program in North Korea Despite near

universal opposition to North Korea's moves to acquire nuclear weapons. Pyongyang is determined to succeed. It is only a matter of time before the North Koreans are able to combine their extant nuclear weapons capabilities with a viable delivery system. The threat multiplies in light of the North Koreans having already demonstrated the willingness and ability to sell nuclear technology materials and know-how to other nuclear aspirants. In *North Korean Nuclear Operationality*, Gregory J. Moore asks leading experts in Asian and security studies to consider the international consequences of a North Korea with operational nuclear weapons. How will South Korea, China, Japan, and Russia react, and does it mean an arms race in the region is inevitable? How should the United States handle the situation both diplomatically and strategically? North Korea has already destabilized the nuclear nonproliferation regime by being the only country ever to withdraw from the Nuclear Non-Proliferation Treaty and then openly test nuclear weapons. What are the repercussions for the nonproliferation regime of a successful North Korean move to nuclear weapons operationality? Given the importance of these issues and the lack of transparency surrounding North Korean politics, *North Korean Nuclear Operationality* offers critical and timely insight. A foreword by Graham T. Allison, founding dean of the John F. Kennedy School of Government at Harvard University, sets the stage for a rigorous look at the threats North Korea poses to regional security and the nuclear nonproliferation regime.

**China's Coercion of States in the Asia-Pacific Region** Maximilian Ernst, 2025-02-11 This book explains why China chooses to coerce Asia-Pacific regional states despite the risk of such actions creating a backlash and complicating its strategic calculus. China's coercion of neighboring states often a variation of heavy informal economic sanctions combined with diplomatic pressure and gray zone coercive measures has been increasingly observable in the past decade. It has become an important tool in China's foreign policy toolbox and is frequently used by Beijing to shape the security-political environment of the Asia-Pacific. The book begins with an appreciation of China's complicated geopolitical exposition and an understanding that such coercion creates backlash since the target state will likely be alienated and pushed into closer security cooperation with the United States, China's main geopolitical rival. Through two in-depth case studies of Chinese coercion targeting the Philippines and South Korea respectively, the book demonstrates that first, the reason China coerces is that the secondary state engages in actions that fundamentally threaten China's security interests, and second, it will coerce these states only if other policy options geared to change the secondary state's course of action have not worked. Employing balance of power theory and particularly wedge strategies, the book solves a pertinent research question and improves our knowledge of contemporary security politics in the Asia-Pacific. This book will be of interest to students, scholars, and practitioners of Asia-Pacific security, Chinese foreign policy, and international relations.

**Engaging Extremists** I. William Zartman, Guy Olivier Faure, 2011 *Engaging Extremists* concerns negotiation with political terrorist organizations, separating terrorist groups that can be engaged from those that for the moment cannot.

**European-American Relations and the Middle East** Victor Mauer, Daniel Möckli, 2010-10-18 This book examines the evolution of European-American relations with

the Middle East since 1945 Placing the current transatlantic debates on the Middle East into a broader context this work analyses how why and to what extent European and US roles interests threat perceptions and policy attitudes in the region have changed relating to both the region as a whole and the two main issues analysed Gulf Security and the Arab Israeli Conflict The contributors then go on to discuss the implications of these developments for Western policymaking The volume makes four key contributions First it examines the subject matter from a truly transatlantic perspective with all chapters adopting a bi or multilateral approach taking into account the views from both the US and individual European countries or the EC EU collectively Second the book takes a long term view covering a series of crises and developments over the past six decades Third it has a systematic structure with the predominantly chronological order of the chapters being geared towards depicting trends and evolutions with regard to the key themes of the book Finally the book builds bridges between historians and political scientists analysts as well as between experts of transatlantic relations and Middle East scholars This book will be of great interest to students of transatlantic relations the Middle East US foreign policy European politics international history and IR in general Daniel M ckli is a Senior Researcher at the Center for Security Studies CSS ETH Zurich He is also the editor of CSS Analyses in Security Policy Victor Mauer is Deputy Director and Head of Research of the Center for Security Studies CSS ETH Zurich and Lecturer in the Department of Social Sciences and Humanities at ETH Zurich

**South Korean Engagement Policies and North Korea** Key-young Son, 2006-11-22 A fresh historical and theoretical exploration of the much debated but still elusive question of the Korean divide In contrast to much of the literature on the divide which deals with state building on the two sides of the Demilitarized Zone this book sheds light on the slow but steady process of homogenization between the two estranged peoples as accelerated after the end of the Cold War and especially after the inauguration of President Kim Dae jung in 1998 Providing immense empirical detail as well as theoretical debate on the ideas in policy shaping in South Korea the book presents a rich history of enemies and covers issues including an overview of the structural shift and the rise and fall of identity groups in South Korea history of enemy making and peace building North Korea s external relations with the US Japan and Europe Hyundai s groundbreaking cross border tourism and other economic cooperation projects the lingering nuclear weapons crises By focusing on the question of identities the book presents a new approach on one of the most important legacies of the Cold War and threat to peace in the contemporary world the divided Korean peninsula As such it fills a major gap in the literature utilizing new theoretical and empirical frameworks to deal with the Korean division and its future implications in East Asia *Sanctions for Nuclear Disarmament and Non-Proliferation* Armend Bekaj, Peter Wallensteen, 2024-09-02 This book examines the interplay between sanctions and nuclear disarmament and non proliferation The volume aims to tackle three separate but closely intertwined issues It aims to revisit the debate on and deconstruct the concept of sanctions to provide a working theoretical framework to differentiate between positive sanctions or incentives or carrots and negative sanctions to identify the actors who may initiate sanctions i

e states regional and or international organizations to ascertain the legality and legitimacy of such sanctions taking place to problematize and discuss the utility of sanctions and so on It aims to disentangle the concepts of nuclear disarmament and non proliferation particularly in light of the most recent geopolitical global shifts on nuclear powers interplay taking place in the background of the war in Ukraine and rising tensions in Southeast Asia and so on Finally it aims to conjoin the cause and effect cases between the application of sanctions on the one hand and the decision by states to pursue nuclear disarmament and non proliferation on the other By doing so the volume helps to update and stimulate the academic and policy debate on the inter relation between sanctions and nuclear disarmament and non proliferation This book will be of much interest to students of nuclear non proliferation economic sanctions security studies and International Relations **Special**

Pillar,2001-01-01 In this critical study a career CIA officer provides a guide to constructing and executing counter terrorist policy urging that it be formulated as an integral part of broader US foreign policy *China's Gambit* Ketian Zhang,2023-12-14 Emerging from an award winning article in International Security China s Gambit examines when why and how China attempts to coerce states over perceived threats to its national security Since 1990 China has used coercion for territorial disputes and issues related to Taiwan and Tibet yet China is curiously selective in the timing target and tools of coercion This book offers a new and generalizable cost balancing theory to explain states coercion decisions It demonstrates that China does not coerce frequently and uses military coercion less when it becomes stronger resorting primarily to non militarized tools Leveraging rich empirical evidence including primary Chinese documents and interviews with Chinese and foreign officials this book explains how contemporary rising powers translate their power into influence and offers a new framework for explaining states coercion decisions in an era of economic interdependence particularly how contemporary global economic interdependence affects rising powers foreign security policies **International Cooperation** I. William Zartman,Saadia Touval,2010-06-03 Considers multilateralism and other approaches to international cooperation identifying further areas for research into the issues of international relations International Interests in the Gulf Region The Emirates Center for Strategic Studies and Research,2004-03-11 Major powers have long pursued their interests across the Arabian Gulf region particularly since the discovery of oil By virtue of their power and influence in world affairs and in international forums the interests of Russia France Germany the United States and Britain are especially notable in the region This publication seeks to consider the various interests of these states in terms of Arabian Gulf s security energy social development commerce and trade as well as the region s role in the war against international terrorism Undoubtedly the strategic importance of the region lies in its vast capacity to fulfill global energy requirements by supplying oil at lower prices than any other oil producing region This invokes the adage that when it comes to foreign policy states have no true allies only interests The present day dynamics of the Gulf region clearly demonstrate this dictum Moreover international interest in the region has increased substantially in the wake of the

cataclysmic events of September 11 2001 and the subsequent terrorist attacks attributed to the al Qaeda organization and its affiliates which in large degree stem from the Middle East This fact has brought an unwanted focus on the internal dynamics of several states throughout the region Regional security for oil production and supply on the one hand and political transformation and human development on the other are the driving forces behind the involvement of influential international players in the region The vehicle to achieve these goals has increasingly been seen by the five principle powers as the promotion of internal political reform in several of the region s oil producing states The future stability and development of the Gulf region is of the utmost concern to the United States Britain Russia Germany and France As the contributing authors relate the region is important for a variety of reasons and not one of the five powers adopted a laissez faire approach For each the need for energy security and the reduction of the threat of terrorism emanating from the region cannot be underscored whether set in the context of direct national interests or in the context of international economic political and security relations
