a Living Trading Foreign Exchange      How to become a Self-Directed Day Trader Joe Soldi, I like to write my books for brand new investors and traders who have zero market knowledge and need the best beginner information they can get and have it all in one place at one time so they do not have to do a bunch of searching around and waste a lot of time doing it This book is for beginners who are looking for edge building reality based concepts that you won't find in the book store courses or in a trading forum and it is all in one place at one time in this book and can put you on the fast track to making money right away as a self directed trading beginner The information in this book will give you what you need to be successful in making money by investing and trading in any of today's financial markets if you do it the right way from the start Every new day in this business gives you the chance to make money every single trading day of your life no matter where you are in the world As long as there is Wi Fi or internet there you can make as much money as you want I honestly do not know of any other business which offers you the chance to make an unlimited income and be able to do it from anywhere you chose to be do you The beginner information in this book is some of the most important information you will ever read in your life about trading and investing so I encourage you to read it slow and take notes if you can or if you bought the paperback of this book you can just high lite the sections you want to go back and read them again If you are a beginner and have zero experience and are looking for your first basic information as to how to get started and what to study first and foremost to become a self directed trader this book is for you The information in this book is worth its weight in gold and you are basically getting it all in one place at one time It would take someone years to figure out all of this information and then put it all together into a workable plan to make money in the live financial markets using their hard earned real money All the information you need is in this book you just need to learn it and then use it      How to become a Self-Directed Investor & Trader Joseph Penningar, In How to become a Self Directed Investor and Trader you'll find out the truth of what happens in real life in real time and in real money in the live markets every day There are no short cuts and you must do the time if you want to drive your own money train I try to keep the explanations clear concise simple and uncomplicated How to become a Self Directed Investor and Trader gives you substantial value and is going to be the foundation of your pre education as a self directed beginner As a brand new investor and trader with zero knowledge of the business you are at a loss as to what information you actually do and do not need Much of what the current trading education industry is putting out is not only giving you information that is all backwards it is very unrealistic to do in the live markets and can get you and your account into a lot of trouble Why would you want to learn something that could potentially cause you to lose money right away in your new trading business The trading education industry is not regulated so beware of that Anyone can put out a YouTube video of anything and brand new traders who are watching these types of things thinking that what they are viewing are the right things to do Brand new traders all make the same mistakes over and over because they don't know any better now by reading this entire book you do They do what everyone else is doing and study what everyone else is studying thus they have the same results and failures as

everyone else Don't be that trader If you can just take the time to read the information in How to become a Self Directed Investor and Trader let it sink in and then continue on your educational journey you will have done yourself a huge favor and also begun to give yourself the needed edge to succeed in this business This business isn't really an H P type of business what is H P you might be asking hoping and praying You don't need a rosary you need an edge I'm not going to sugar coat it this business is an ugly place for an untrained and underfunded beginner There are very bad people in the live market who are looking to take all of your money from you and they will should you not be prepared properly to go to work in the live markets Again don't say I haven't tried to warn you There are only two groups of people who are doing business in the markets the professionals and the retail investors and traders Each day the wealth from self directed retail investors and traders accounts is transferred from those without an edge into the accounts of those who have developed a razor sharp winning edge Which one do you want to be When you are done reading How to become a Self Directed Investor and Trader you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education The information in How to become a Self Directed Investor and Trader will put you on the fast track to becoming a successful self directed investor and trader with very little money invested other than the cost of this book learning it Harvard or Columbia business school would cost one hundred thousand dollars or more You don't need a big fancy MBA to work in the live market and even a 12 year can do it How old are you right now [Trading FullCircle](#) Jea Yu,2012-10-15 How to take total control of your trading and pull down the big payouts you want and deserve Profitable trading requires a judicious combination of strategy analysis psychology and determination and until now it took years to find the perfect balance of all those factors Written by the charismatic Jea Yu founder of UndergroundTrader.com this book reveals how that trading superstar did it and how you can too Offering rare insight into the mind of a true market wizard it shares his first hand knowledge of the markets acquired through thousands of hours of successful and unsuccessful trading Never before has a master outlined in such detail the evolution of his system nor provided such a wealth of practical guidance on how to adapt it to your trading style Includes master Jea Yu's personal playbook of techniques for using his preferred tools to trade successfully in every market environment Covers all dimensions of trading including the psychological physical and technical necessary for success Arms you with the mindset and skills to identify fertile trading environments target big plays throughout the day identify vital time and price points avoid common traps and much more From harmonic trading to triggers filters for profitable E mini Trading to never before seen Rifle Charts this book is packed with actionable trading tools tips and techniques Uses numerous charts and real life examples to illustrate how to combine the best chart patterns with candlesticks Bollinger bands stochastics and other powerful techniques **Trading Psychology For Dummies** Roland Ullrich,2022-08-16 Keep your head in the game Make smarter confident trades in global markets Trading is 80% psychology and 20% methodology Trading Psychology For Dummies helps you develop the mindset you need to respond correctly in any
