Ecologies of Imperialism in Algeria Brock Cutler, 2023-10 Between 1865 and 1872 widespread death and disease unfolded amid the most severe ecological disaster in modern North African history a plague of locusts destroyed crops during a disastrous drought that left many Algerians landless and starving The famine induced migration that concentrated vulnerable people in unsanitary camps where typhus and cholera ran rampant Before the rains returned and harvests normalized some eight hundred thousand Algerians had died In *Ecologies of Imperialism in Algeria* Brock Cutler explores how repeated ecosocial divisions across an expansive ecosystem produced modern imperialism in nineteenth century Algeria Massive ecological crises cultural as well as natural cleaved communities from their homes individuals from those communities and society from its typical ecological relations At the same time the relentless albeit slow moving crises of ongoing settler colonialism and extractive imperial capitalism cleaved Algeria to France in a new way Ecosocial divisions became apparent in performances of imperial power officials along the Algerian Tunisian border compulsively repeated narratives of transgression that over decades made the division real a case of poisoned bread tied settlers in Algiers to Paris Morocco Algeria border violence exposed the exceptional nature of imperial sovereignty a case of vagabondage in Oran evoked colonial gender binaries In each case factors in the broader ecosystem were implicated in performances of social division separating political entities from each other human from nature rational from irrational and women from men Although these performances take place in the nineteenth century Maghrib the process they describe goes beyond those spatial and temporal limits across the field of modern imperialism to the present day **Catalogue of Copyright Entries**

Policing Clive Emsley, 2021-02-25 The police are constantly under scrutiny They are criticized for failings praised for successes and hailed as heroes for their sacrifices Starting from the premise that every society has norms and ways of dealing with transgressors *A Short History of Police and Policing* traces the evolution of the multiple forms of policing that existed in the past It examines the historical development of the various bodies individuals and officials who carried these out

in different societies in Europe and European colonies but also with reference to countries such as ancient Egypt China and the USA By demonstrating that policing was never the exclusive dominion of the police and that the institution of the police as we know it today is a relatively recent creation Professor Emsley explores the idea and reality of policing and shows how an institution we now call the police came to be virtually universal in our modern world The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies Martin Thomas,Gareth Curless,2023-10-10 The lethality of conflicts between insurgent groups and counter insurgent security forces has risen markedly since the Second World War just as those of conventional or inter state wars have declined For several decades conflicts within states rather than between them have been the prevalent form of organised political violence worldwide Recent conflicts in Afghanistan Iraq and Syria have fired interest in colonial experiences of rebellion while current western interventions in sub Saharan Africa have prompted accusations of militarist humanitarianism Yet despite mounting interest in counter insurgency and empire comparative investigation of colonial responses to insurrection and civil disorder is sparse Some scholars have written of a golden age of counter insurgency which began with Britain s declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973 It is with this period if not with any presumed golden age that this volume is concerned This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires It attempts a systematic study of the global effects of organized anti colonial violence in Asia and Africa The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it Géographie de la France criminelle Alain Bauer,2006-04-21 En France le crime est sujet des pol miques permanentes Moins on en sait et plus on en parle fort Il tait donc temps de donner aux citoyens aux d cideurs et ceux qui agissent sur l opinion un outil de compr hension de la r alit criminelle en utilisant les moyens cartographiques modernes Plus qu une simple pr sentation des l ments connus ce livre fournit galement d importants outils de comparaison avec d autres indicateurs conomiques sociaux m dicaux etc permettant de sortir du flou et des pol miques d usage Fruit de cinq ann es de recherches illustr e par 500 cartes r alis es gr ce aux archives officielles souvent in dites du minist re de l Int rieur et d autres administrations cette G ographie de la France criminelle donne pour la premi re fois une vision panoramique de la criminalit en France et permet ainsi l analyse pr cise des ph nom nes criminels et de leurs volution Criminologue consultant et pr sident du Conseil d orientation de l Observatoire national de la d linquance Alain Bauer enseigne dans des universit s et grandes coles fran aises et trang res Il a d j publi de nombreux ouvrages sur les questions criminelles **Beyond the Refugee Experience** Lise-Hélène Trouilloud,2005 *Atlas du crime à Paris* Dominique Kalifa,Jean-Claude Farcy,2015-10-22 **Catálogo de la Biblioteca** Ateneu Barcelonès. Cistercian Architecture and Medieval Society Maximilian Sternberg, 2013-08-15 In Cistercian Architecture and Medieval Society Maximilian Sternberg offers an account of the social functions of the built environment in medieval monasticism Few medieval monuments hold so privileged a place in the modern imagination as Cistercian abbeys yet Sternberg suggests it is precisely our own peculiarly modern fascination with the idea of Cistercian aesthetics that has hindered a full view of the complex social meanings of their architecture This book draws attention instead to the practical and symbolic means by which architecture helped the Cistercians to negotiate the dense web of relations that in actuality bound them to other spheres of medieval society It explores the permeability of monastic boundaries and considers their effectiveness in reconciling a simultaneous need for interaction and distance between monastic communities and these other social spheres
