E-Book Peter Cameron, Mark Little, Biswadev Mitra, Conor Deasy, 2019-05-23 Since the first edition of Textbook of Adult Emergency Medicine was published twenty years ago there has been enormous change in the way emergency care is delivered. This has occurred both in countries where emergency medicine was originally developed and in those where its application was limited because of cost. Emergency medicine is now perceived as the cornerstone of response to acute illness regardless of resources. This fully revised Fifth Edition provides clear and consistent coverage of this constantly evolving specialty. Building on the success of previous editions it covers all the major topics relevant to the practice of emergency medicine. The book will prove invaluable to professionals working in this setting including nurse specialists and paramedics who require concise highly practical guidance incorporating the latest best practice and evidence based guidelines. This edition comes with an enhanced electronic version with video and self assessment content providing a richer learning experience and making rapid reference easier than ever before anytime anywhere. A comprehensive textbook of adult emergency medicine for trainee doctors covers all the problems likely to present to a trainee in the emergency department. Chapters are highly readable and concise boxes summarise chapter key points and highlight controversial areas of treatment. The content is highly practical clinically orientated and thoroughly updated in all the core subjects. There have been major updates in topics such as airway shock and sepsis where guidelines have changed rapidly. The imaging chapters have also evolved with changing practice and improved technology to be concordant with evidence on the importance of image interpretation by emergency clinicians. There are major sections on other skills and issues of key importance to today's advanced emergency medicine practitioner such as staffing overcrowding triage patient safety and quality measures. In addition difficult topics such as death and dying the challenging patient ethics giving evidence and domestic violence are covered. Governance training research and organisational subjects such as disaster planning and response humanitarian emergencies and refugee medicine are included to give the reader a framework to understand the complexity of managing major emergency systems of care.
