

# Electronic condensate drains

Electronically controlled condensate drains isolate and remove condensate

The intelligent drain function monitors condensate build-up with liquid level sensors and evacuates the condensate only when necessary, thus avoiding waste of compressed air and giving considerable energy savings.

The EWD drain device offers security and confidence, enabling you to solve all condensate discharge problems even with heavily

contaminated systems.

A wide range of different EWD drains is available for oil, oil-free and other aggressive condensate applications.
