Handbook of Refugee Health Miriam Orcutt, Clare Shortall, Sarah Walpole, Aula Abbara, Sylvia Garry, Rita Issa, Alimuddin Zumla, Ibrahim Abubakar, 2021-12-17. This book helps to recognize the rights of refugees and provides a framework to identify and approach health needs from basic elements like service mapping and initial interventions to more complex elements of ongoing healthcare and support and broader topics such as migration, public health, migration policy, and health systems. Beyond biomedical frameworks, it draws on socio-ecological models to inform assessments and integrated models of care to improve health and health equity. Set out in three comprehensive sections: public health theory, Part 1; applied public health, Part 2; and clinical approaches, Part 3, this book draws on multiple disciplines and insights from humanitarians, academics, policy experts, and clinicians from diverse contexts with expertise in forced migration to create an accessible reference tool to inform healthcare professionals' interactions with forcibly displaced individuals and populations in all contexts for both high and low resource countries. Apart from providing information across the spectrum of health issues, clinical specialties, and global contexts, it discusses associated areas including human rights and law, public health, medical anthropology, and cultural awareness. Key Features: Bridges the gap between existing academic literature on refugee health and guidelines for health management in humanitarian emergencies. Helps to develop an integrated approach to healthcare provision, allowing healthcare professionals and humanitarians to adapt their specialist knowledge for use in forced migration contexts and with refugees. Recognizes the complex and interconnected needs in displacement scenarios and identifies holistic and systems-based approaches. Covers public health theory, applied public health, and clinical aspects of forced migration.

Handbook of Research on Critical Issues and Global Trends in International Education Barker, Megel R., Hansen, Robyn Conrad, Hammer, Liam, 2023-11-24 The Handbook of Research on Critical Issues and Global Trends in International Education addresses the

growing complexity and diversity of international schools by examining the critical issues and global trends faced by practitioners in this field. With a lack of research on the experiences and actions of school practitioners in these isolated workplaces, this book aims to provide practical and evidence-based solutions. The book covers a wide range of topics including equity and access, diversity, teacher retention, legal frameworks, school typology, governance, cultural competence, third culture kids, leadership, and practice technology and parent engagement. Written by educational professionals, researchers, and anthropologists, it offers a unique collection of voices from those with lived experiences in this field, making it an invaluable resource for anyone interested in gaining a deeper understanding of the international school sector. Whether you are an educator, researcher, policymaker, school leader, lecturer, or anthropologist, the *Handbook of Research on Critical Issues and Global Trends in International Education* is a must-read, comprehensive guide to the complexities and challenges of international education, providing practical solutions for improving the quality of education in this rapidly evolving field. If you are looking to gain a nuanced understanding of the critical issues facing international schools and evidence-based approaches for addressing these challenges, this book is the perfect resource for you. Concepts in Surgical Critical Care

Bryan Boling, Kevin Hatton, Tonja Hartjes, 2020-06-11. With more complex surgical patients requiring special perioperative care in an intensive care unit (ICU), there is an increased demand for Advanced Practice Providers (APPs) who are equipped to care for them. However, APPs such as Physician Assistants (PAs) or Nurse Practitioners (NPs) have limited specialized training and exposure to the unique needs of the perioperative, critically ill population. That's where this book can help. *Concepts in Surgical Critical Care* is an indispensable resource for the APP, non-surgical intensivist, or non-intensivist surgeon who regularly provides critical care for surgical patients. It features a user-friendly organization designed for quick reference while at bedside with patients or in an office. It starts with foundational critical care topics across all surgical specialties, followed by the specifics within 12, including gastrointestinal surgery, cardiac surgery, neurosurgery, obstetrics, and more.

Common Problems in Acute Care Surgery Laura J. Moore, S. Rob Todd, 2016-12-07. This text provides a comprehensive evidence-based review of the most common clinical problems encountered by acute care surgeons. Focusing on the clinical care of the patient, this volume explores the general principles of acute care surgery and the specific disease states that are commonly encountered by acute care surgeons. The work also touches upon the ethical issues and systems development behind acute care surgery, including practical considerations for establishing an acute care surgery program, ethical considerations in acute care surgery, and the role of palliative care. The second edition of the textbook includes updates to all of the chapters from the first edition. New topics addressed include management of intra-abdominal infections, management of the open abdomen, and hemodynamic monitoring of the critically ill surgical patient. Each chapter addresses a specific topic in acute care surgery. All chapters are written by experts in the field of Acute Care Surgery. Each chapter includes a brief overview of the epidemiology of the clinical problem, the clinical presentation and diagnosis of the problems, and a

discussion of the treatment options and potential complications that may arise Common Problems in Acute Care Surgery
Second Edition will be of great value to surgical residents fellows and practicing acute care surgeons
