Nikolay Gavrilovich Chernyshevsky

What Is To Be Done By Nikolai Chernyshevsky:

What is to be Done? Nikolay Gavrilovich Chernyshevsky, 1961

What Is to Be Done? Nikolai Chernyshevsky, 1989

Almost from the moment of its publication in 1863 Nikolai Chernyshevsky's novel *What Is to Be Done* had a profound impact on the course of Russian literature and politics. The idealized image it offered of dedicated and self-sacrificing intellectuals transforming society by means of scientific knowledge served as a model of inspiration for What is to be Done? Nikolay Gavrilovich Chernyshevsky, 1986. A BCL3 choice. Michael R. Katz, Russian U of Texas Austin has translated the socialist classic and provided a long introduction with Wm G. Wagner's history and Russian Williams College. Wagner has provided annotations to allusions, references, intellectual sources and has done the critical bibliography. A necessary addition to every serious collection in fiction, feminism, socialist history. Cloth edition 39/95, not seen. Annotation copyrighted by Book News Inc, Portland, OR.

Chernyshevskii's *What is to be Done*? Andrew Michael Drozd, 2001. Chernyshevskii's 1863 novel *What is to be Done* has often been dismissed as sociopolitical propaganda. Dostoevsky reviled it while Lenin called it an inspiration. In this re-examination the author argues that the novel has been misread through a refusal to see the novel as a literary text.

Dostoevsky the Thinker James Patrick Scanlan, 2002. For all his distance from philosophy, Dostoevsky was one of the most philosophical of writers. Drawing on his novels, essays, letters, and notebooks, this volume examines Dostoevsky's philosophical thought.

Through the Russian Prism Joseph Frank, 1990. Essays probe the culture that spawned the great novels of Dostoevsky and explore the author's influence on world literature.

Written in Blood Lynn Ellen Patyk, 2017-06-20. A fundamentally new interpretation of the emergence of modern terrorism, arguing that it formed in the Russian literary imagination well before any shot was fired or bomb exploded.

Sexuality and the Body in Russian Culture Jane T. Costlow, Stephanie Sandler, Judith Vowles, 1993. Twelve groundbreaking essays show the varied and complex ways in which ideas about sexuality, gender, and the body have shaped and been influenced by Russian literature, history, art, and philosophy from the medieval period to the present day.

John Updike's Rabbit Tetralogy Marshall Boswell, 2001. Structure of the finished mega-novel echoes the work's thematic rationale. To help readers who are interested in a particular Rabbit novel, Boswell devotes a chapter to each individual section of the tetralogy. At the same time, he treats each novel as an integral part of the more comprehensive whole. Book Jacket.

To Understand What Is Happening. Essays on Historicity Jan-Ivar Lindén, 2021-07-19. History stands not only for a narrative or descriptive relation to the past but also for an ongoing process in which we are involved on several levels in ordinary life as well as in our epistemic endeavours. Natural science and technology included, historicity is thus not only an important question for historians but for everyone interested in understanding what all our civilisation is about. The present volume sheds some light on different aspects of this ontological dependence. The first part deals with the historicity of understanding. Françoise Dastur, Arbogast Schmitt, Samuel Weber, the second with the limits of making. Emil Angehrn, Nicholas Davey, Jan Ivar Lindén, and the third with the future of memory. Jayne

Svenungsson Christoph Trücke Bernhard Waldenfels **What is to be Done?** Jennifer J. Lindsay, 1993 *Britain, the Empire, and the World at the Great Exhibition of 1851* Jeffrey A. Auerbach, Peter H. Hoffenberg, 2008 This collection of essays discusses the significance of colonial and foreign participation at the Great Exhibition in 1851 including the exhibits publications officials and visitors before during and after the event in London's Crystal Palace These essays consider the ways that the Exhibition connected London England and many parts of the world suggesting strong imperial international and global connections and meanings In doing so the contributors consider the importance of the event for England and the participating colonies and nations as well as the ways by which that participation affected their relationship to Britain and how the British saw their place in the world Unlike other publications this one emphasizes both nationalism and internationalism domestic and foreign issues

The Politics of Unfree Labour in Russia Mary Buckley, 2018-01-11 Discusses human trafficking out of the Russian Federation since the collapse of the Soviet state and labour migration into and within Russia

Antigone's Daughters Marta L. Wilkinson, 2008 Antigone's Daughters presents various readings of the classical myth of Antigone as interpreted through modern feminist and psychoanalytic literary theories Topics such as femininity education and establishing selfhood amidst the restrictions of the patriarchal society presented by Sophocles provide the foundation for the modern novel This study serves as a model for the comparative interpretation of literary works of the nineteenth and twentieth centuries including the writings of George Sand Indiana Karolina Pavlova A Double Life Nikolai Chernyshevsky What Is to Be Done Emile Zola L Assommoir and Nana Mar a Luisa Bombal La amortajada and Isabel Allende The House of the Spirits Each chapter isolates an aspect of Antigone's struggle within both the public and domestic spheres as she negotiates her independence and asserts her voice A valuable tool for the study of modern literature the universality of Antigone presented in this study prompts the investigation of many classical motifs while providing a thorough study of various national literatures within their own contemporary contexts

New Myth, New World Bernice Glatzer Rosenthal, 2010-11-01 The Nazis use and misuse of Nietzsche is well known The Superman the will to power Nietzsche's equation of bourgeois democracy and decadence and his denigration of reason were staples of Nazi propaganda Communists also used and misused Nietzsche but that fact is largely unknown because Soviet propagandists invoked reason and labeled Nietzsche the philosopher of fascism even while covertly appropriating his ideas In this pioneering book Bernice Glatzer Rosenthal excavates the trail of long obscured Nietzschean ideas that took root in late Imperial Russia intertwining with other elements in the culture to become a vital ingredient of Bolshevism and Stalinism Nietzsche made a difference He furnished intellectual ammunition for a prolonged conflict about culture society and politics that began around the turn of the century His first Russian admirers were poets philosophers and political activists They responded to the changes transforming their society by espousing new values and seeking a new faith by which to live and work This response resulted in new aesthetic and political amalgams such as Symbolism Futurism Nietzschean Christianity and Nietzschean Marxism The

ensuing debates between and among their partisans reverberated throughout the wider culture and therefore also into Bolshevism becoming the subject of an uninterrupted polemic between Bolsheviks and non Bolsheviks and among Bolsheviks that continued into the 1930s In Stalin s time unacknowledged Nietzschean ideas were used to mobilize the masses for the great tasks of the first Five Year Plan and the Cultural Revolution which was intended to eradicate bourgeois values and attitudes from Soviet life and to construct a distinctly Socialist culture Nietzsche s belief that people need illusions to shield them from reality underlay Socialist Realism the official Soviet aesthetic from 1934 on In the aftermath of de Stalinization the government cast Nietzsche as the personification of bourgeois nihilism and bourgeois individualism Soviet intellectuals wishing to reappropriate their lost cultural heritage discovered the Nietzsche influenced intellectuals of late Imperial Russia and reopened discussion on the issues they had posed More than an exercise in historical rediscovery *New Myth New World* offers a new interpretation of modern Russian history By uncovering the buried influence of Nietzschean ideas on Soviet culture and politics Rosenthal opens new avenues for understanding Soviet ideology and its influence on the twentieth century

Enlightenment and Political Fiction Cecilia Miller, 2016-03-22 The easy accessibility of political fiction in the long eighteenth century made it possible for any reader or listener to enter into the intellectual debates of the time as much of the core of modern political and economic theory was to be found first in the fiction not the theory of this age Amusingly many of these abstract ideas were presented for the first time in stories featuring less than gifted central characters The five particular works of fiction examined here which this book takes as embodying the core of the Enlightenment focus more on the individual than on social group Nevertheless in these same works of fiction this individual has responsibilities as well as rights and these responsibilities and rights apply to every individual across the board regardless of social class financial status race age or gender Unlike studies of the Enlightenment which focus only on theory and nonfiction this study of fiction makes evident that there was a vibrant concern for the constructive as well as destructive aspects of emotion during the Enlightenment rather than an exclusive concern for rationality

The Invention of Terrorism in Europe, Russia, and the United States Carola Dietze, 2021-07-27 Terrorism s roots in Western Europe and the USA This book examines key cases of terrorist violence to show that the invention of terrorism was linked to the birth of modernity in Europe Russia and the United States rather than to Tsarist despotism in 19th century Russia or to Islam sects in Medieval Persia Combining a highly readable historical narrative with analysis of larger issues in social and political history the author argues that the dissemination of news about terrorist violence was at the core of a strategy that aimed for political impact on rulers as well as the general public Dietze s lucid account also reveals how the spread of knowledge about terrorist acts was from the outset a transatlantic process Two incidents form the book s centerpiece The first is the failed attempt to assassinate French Emperor Napoleon III by Felice Orsini in 1858 in an act intended to achieve Italian unity and democracy The second case study offers a new reading of John Brown s raid on the arsenal at Harpers Ferry in 1859 as a decisive moment in the

abolitionist struggle and occurrences leading to the American Civil War Three further examples from Germany Russia and the US are scrutinized to trace the development of the tactic by first imitators With their acts of violence the invention of terrorism was completed Terrorism has existed as a tactic since then and has essentially only been adapted through the use of new technologies and methods

Beyond the Monastery Walls Patrick Lally Michelson, 2017-07-11 As the cultural and ideological foundations of imperial Russia were threatened by forces of modernity an array of Orthodox churchmen theologians and lay thinkers turned to asceticism hoping to ensure the coming Kingdom of God promised to the Russian nation

On Nabokov, Ayn Rand and the Libertarian Mind Gene H. Bell-Villada, 2014-07-08 On Nabokov Ayn Rand and the Libertarian Mind not only conjoins two seemingly divergent authors but also takes on the larger picture of libertarian trends and ideologies These timely topics further intermingle with Bell Villada s own conflicted relationship personal cultural satirical literary to the odd pair and their ways of thinking The inclusion of Louis Begley s essay adds yet another dimension to this unique wide ranging meditation on art and politics history and memory

Education and the Limits of Reason Peter Roberts, Herne Saeverot, 2017-07-06 In recent decades a growing body of educational scholarship has called into question deeply embedded assumptions about the nature value and consequences of reason Education and the Limits of Reason extends this critical conversation arguing that in seeking to investigate the meaning and significance of reason in human lives sources other than non fiction educational or philosophical texts can be helpful Drawing on the work of Dostoevsky Tolstoy and Nabokov the authors demonstrate that literature can allow us to see how reason is understood and expressed contested and compromised by distinctive individuals under particular circumstances in complex and varied relations with others Novels plays and short stories can take us into the workings of a rational or irrational mind and show how the inner world of cognitive activity is shaped by external events Perhaps most importantly literature can prompt us to ask searching questions of ourselves it can unsettle and disturb and in so doing can make an important contribution to our educational formation An original and thought provoking work Education and the Limits of Reason offers a fresh perspective on classic texts by Dostoevsky Tolstoy and Nabokov and encourages readers to reconsider conventional views of teaching and learning This book will appeal to a wide range of academics researchers and postgraduate students in the fields of education literature and philosophy

What Is To Be Done By Nikolai Chernyshevsky Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever.
