A Journey John S. Campbell MD, 2006-06 All of us repeatedly grieve, heal and reinvent ourselves throughout our lives. Being aware of and active in this inherent aspect of our existence, I believe to be a less painful and more satisfying way of living than blindly struggling with or resisting these natural processes. John S. Campbell MD author of *A Journey: Creative Grieving and Healing*. We all die, he seems to be telling us. What is far more important is that we live a meaningful life before that time comes. We all need to dig deep to find our own wisdom so we may understand what John is telling us.

Mud Running
 Richard Allen, 2011-03-01 The Squaw Peak 50 mile trail run is a unique ultramarathon that climbs 12,000 vertical feet through the rugged Wasatch Mountains. This is the backdrop for Mud Running, an all-day race filled with both harsh ordeals and poignant memories. In the tradition of Nicholas Sparks' *Three Weeks With My Brother*, a unique travel adventure is the catalyst in recalling powerful childhood stories. Raised in a home with six diverse siblings, Allen relates tales of each character as he is reminded of them along the muddy trail. It is the story of individuals influenced by one another, sharing a common upbringing but markedly diverse in the outcome. As diverse as thick, snowy mud is from slick, warm puddles, Mud Running is also a story of running from a novice terrified by a 5K to a determined runner accomplishing 50 miles. This special novel will be enjoyed by runners and readers alike.

Play Among Books Miro Roman, Alice, 2021-12-06 How does coding change the way we think about architecture? This question opens up an important research perspective. In this book, Miro Roman and his AI, Alice, develop a playful scenario in which they propose coding as the new literacy of information. They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books. Focusing on the intersection of information technology and architectural formulation, the authors create an evolving intellectual reflection on digital architecture and computer science.
