unravels the secrets of her father's experience in the Pacific Theater in this graceful understated World War II memoir for fans of *The Things They Carried* The New York Times Book Review Louise Steinman's American childhood in the fifties was bound by one unequivocal condition Never mention the war to your father That silence sustained itself until the fateful day Steinman opened an old ammunition box left behind after her parents' death In it she discovered nearly 500 letters her father had written to her mother during his service in the Pacific War and a Japanese flag mysteriously inscribed to Yoshio Shimizu Setting out to determine the identity of Yoshio Shimizu and the origins of the silken flag Steinman discovered the unexpected a hidden side of her father the green soldier who achingly left his pregnant wife to fight for his life in a brutal 165 day campaign that changed him forever Her journey to return the souvenir to its owner not only takes Steinman on a passage to Japan and the Philippines but also returns her to the age of her father's innocence where she learned of the tender and expressive man she'd never known Steinman writes with the same poignant immediacy her father did in his letters Together their stories in *The Souvenir* create an evocative testament to the ways in which war changes one generation and shapes another **Heritage**, 1994 *The Columbia Guide to Asian American Literature Since 1945* Guiyou Huang, 2006-08-08 *The Columbia Guide to Asian American Literature Since 1945* Amerasia Journal, 1995 **(In)visible America** Mary Caroline Cummins, 2008 **Speaking the Past** Alicia Otano, 2004 Child perspective is a symbolic narrative strategy that designs multilayered possibilities for meaning in ethnic writing This book positions Asian American bildungsromane in the context of American writing about children reading them through the lens of their narrators the oftentimes dual child/adult perspective to examine how narrative point of view nuances and shapes issues of personal ethnic and national positioning This approach privileges the author's narrative choices and engagement with genre revealing how these critical writerly decisions construct texts that signify on multiple levels and dialogue productively with other texts Their interpretation and creative negotiation of the key elements of narrative perspective lead us to uncover aspects which are constitutive of the successful manipulation of narrative voice The texts analyzed in this study demonstrate the flexibility of this narrative technique and its usefulness as a critical tool through which important thematic issues family race culture war assimilation and language may be deployed Reading the way Asian American texts manipulate child perspective positions these texts within developing critical paradigms and allows the reader to examine the manner in which they influence the development of American literature and the theory that reads it
