
Uses of dialogue systems

- Phone-based applications: timetable info or flight-booking
 - Personal assistant: understand user needs and tasks
 - Intelligent tutoring: student engagement
 - Embodied conversational agents
 - Engagement via realistic and affective physical and facial gestures
 - Intelligent environments: home or car
 - Understanding user situation and activity
-

Affective Dialogue Systems Affective Dialogue Systems

Kristiina Jokinen, Graham Wilcock

Affective Dialogue Systems Affective Dialogue Systems:

Affective Dialogue Systems Elisabeth André, Laila Dybkjaer, Wolfgang Minker, Paul Heisterkamp, 2004-05-14 Human conversational partners are able at least to a certain extent to detect the speaker's or listener's emotional state and may attempt to respond to it accordingly. When instead one of the interlocutors is a computer a number of questions arise such as the following: To what extent are dialogue systems able to simulate such behaviors? Can we learn the mechanisms of emotional behaviors from observing and analyzing the behavior of human speakers? How can emotions be automatically recognized from a user's mimics, gestures and speech? What possibilities does a dialogue system have to express emotions itself? And very importantly: would emotional system behavior be desirable at all? Given the state of ongoing research into incorporating emotions in dialogue systems we found it timely to organize a Tutorial and Research Workshop on Affective Dialogue Systems ADS2004 at Kloster Irsee in Germany during June 14-16 2004. After two successful ISCA Tutorial and Research Workshops on Multimodal Dialogue Systems at the same location in 1999 and 2002 we felt that a workshop focusing on the role of affect in dialogue would be a valuable continuation of the workshop series. Due to its interdisciplinary nature the workshop attracted submissions from researchers with very different backgrounds and from many different research areas working on for example dialogue processing, speech recognition, speech synthesis, embodied conversational agents, computer graphics, animation, user modelling, tutoring systems, cognitive systems and human computer interaction.

Affective Dialogue Systems Elisabeth André, Laila Dybkjaer, Wolfgang Minker, Paul Heisterkamp, 2004-06-08 Human conversational partners are able at least to a certain extent to detect the speaker's or listener's emotional state and may attempt to respond to it accordingly. When instead one of the interlocutors is a computer a number of questions arise such as the following: To what extent are dialogue systems able to simulate such behaviors? Can we learn the mechanisms of emotional behaviors from observing and analyzing the behavior of human speakers? How can emotions be automatically recognized from a user's mimics, gestures and speech? What possibilities does a dialogue system have to express emotions itself? And very importantly: would emotional system behavior be desirable at all? Given the state of ongoing research into incorporating emotions in dialogue systems we found it timely to organize a Tutorial and Research Workshop on Affective Dialogue Systems ADS2004 at Kloster Irsee in Germany during June 14-16 2004. After two successful ISCA Tutorial and Research Workshops on Multimodal Dialogue Systems at the same location in 1999 and 2002 we felt that a workshop focusing on the role of affect in dialogue would be a valuable continuation of the workshop series. Due to its interdisciplinary nature the workshop attracted submissions from researchers with very different backgrounds and from many different research areas working on for example dialogue processing, speech recognition, speech synthesis, embodied conversational agents, computer graphics, animation, user modelling, tutoring systems, cognitive systems and human computer interaction.

Spoken, Multilingual and Multimodal Dialogue Systems Ramon Lopez Cozar Delgado, Masahiro Araki, 2007-01-11

Dialogue systems are a very appealing technology with an extraordinary future. Spoken Multilingual and Multimodal Dialogues Systems Development and Assessment addresses the great demand for information about the development of advanced dialogue systems combining speech with other modalities under a multilingual framework. It aims to give a systematic overview of dialogue systems and recent advances in the practical application of spoken dialogue systems. Spoken Dialogue Systems are computer based systems developed to provide information and carry out simple tasks using speech as the interaction mode. Examples include travel information and reservation weather forecast information directory information and product order. Multimodal Dialogue Systems aim to overcome the limitations of spoken dialogue systems which use speech as the only communication means while Multilingual Systems allow interaction with users that speak different languages. Presents a clear snapshot of the structure of a standard dialogue system by addressing its key components in the context of multilingual and multimodal interaction and the assessment of spoken multilingual and multimodal systems. In addition to the fundamentals of the technologies employed the development and evaluation of these systems are described. Highlights recent advances in the practical application of spoken dialogue systems. This comprehensive overview is a must for graduate students and academics in the fields of speech recognition speech synthesis speech processing language and human computer interaction technology. It will also prove to be a valuable resource to system developers working in these areas.

Affective Computing and Intelligent Interaction Jianhua Tao, Tieniu Tan, 2005-10-27 This book constitutes the refereed proceedings of the First International Conference on Affective Computing and Intelligent Interaction ACII 2005 held in Beijing China in October 2005 as an associated event of ICCV 2005 the International Conference on Computer Vision. The 45 revised full papers and 81 revised poster papers presented were carefully reviewed and selected from 198 submissions. They cover a wide range of topics such as facial expression recognition face animation emotional speech synthesis intelligent agent and virtual reality. The papers are organized in topical sections on affective face and gesture processing affective speech processing evaluation of affective expressivity affective database annotation and tools psychology and cognition of affect and affective interaction and systems and applications.

Affective Computing and Intelligent Interaction Sidney D'Mello, Arthur Graesser, Bjoern Schuller, Jean-Claude Martin, 2011-09-23 This volume constitutes the refereed proceedings of the Fourth International Conference on Affective Computing and Intelligent Interaction ACII 2011 held in Memphis TN USA in October 2011.

Interactive Collaborative Information Systems Robert Babuška, Frans C.A. Groen, 2010-03-22 The increasing complexity of our world demands new perspectives on the role of technology in decision making. Human decision making has its limitations in terms of information processing capacity. We need new technology to cope with the increasingly complex and information rich nature of our modern society. This is particularly true for critical environments such as crisis management and traffic management where humans need to engage in close collaborations with artificial systems to observe and understand the situation and respond in a sensible way. We believe that close collaborations between humans and arti

cial systems will become essential and that the importance of research into Interactive Collaborative Information Systems ICIS is self evident Developments in information and communication technology have radically changed our working environments The vast amount of information available nowadays and the wirelessly networked nature of our modern society open up new opportunities to handle difficult decision making situations such as computer supported situation assessment and distributed decision making To make good use of these new possibilities we need to update our traditional views on the role and capabilities of information systems The aim of the Interactive Collaborative Information Systems project is to develop techniques that support humans in complex information environments and that facilitate distributed decision making capabilities ICIS emphasizes the importance of building actor agent communities close collaborations between human and artificial actors that highlight their complementary capabilities and in which task distribution is flexible and adaptive

Affective Information Processing Jianhua Tao, Tieniu Tan, 2008-12-02 Affective information processing assigns computers the human like capabilities of observation interpretation and generation of affect features It is an important topic for harmonious human computer interaction by increasing the quality of human computer communication and improving the intelligence of the computer Discussing state of art of the research in affective information processing this book summarises key technologies researched such as facial expression recognition face animation emotional speech synthesis intelligent agent and virtual reality The detailed discussion covers a wide range of topics including hot topics which look to challenge and improve current research work Written to provide an opportunity for scientists engineers and graduate students to learn problems solutions and technologies in the topic area this book will provide insight and prove a valuable reference tool

Persuasive Technology Thomas Ploug, Per Hasle, Harri Oinas-Kukkonen, 2010-06-01 This book constitutes the proceedings of the 5th International Conference on Persuasive Technology PERSUASIVE 2010 held in Copenhagen Denmark in June 2010 The 25 papers presented were carefully reviewed and selected from 80 submissions In addition three keynote papers are included in this volume The topics covered are emotions and user experience ambient persuasive systems persuasive design persuasion profiles designing for health psychology of persuasion embodied and conversational agents economic incentives and future directions for persuasive technology

Language and Emotion. Volume 3 Gesine Lenore Schiewer, Jeanette Altarriba, Bee Chin Ng, 2023-05-08 The Handbook consists of four major sections Each section is introduced by a main article Theories of Emotion General Aspects Perspectives in Communication Theory Semiotics and Linguistics Perspectives on Language and Emotion in Cultural Studies Interdisciplinary and Applied Perspectives The first section presents interdisciplinary emotion theories relevant for the field of language and communication research including the history of emotion research The second section focuses on the full range of emotion related aspects in linguistics semiotics and communication theories The next section focuses on cultural studies and language and emotion emotions in arts and literature as well as research on emotion in literary studies and media and emotion The final section covers different domains social practices and applications such as

society policy diplomacy economics and business communication religion and emotional language the domain of affective computing in human machine interaction and language and emotion research for language education Overall this Handbook represents a comprehensive overview in a rich diverse compendium never before published in this particular domain

Affective Computing and Intelligent Interaction Ana Paiva, 2007-08-30 This book constitutes the refereed proceedings of the Second International Conference on Affective Computing and Intelligent Interaction ACII 2007 held in Lisbon Portugal in September 2007 The 57 revised full papers and 4 revised short papers presented together with the extended abstracts of 33 poster papers were carefully reviewed and selected from 151 submissions The papers are organized in topical sections on affective facial expression and recognition affective body expression and recognition affective speech processing affective text and dialogue processing recognising affect using physiological measures computational models of emotion and theoretical foundations affective databases annotations tools and languages affective sound and music processing affective interactions systems and applications as well as evaluating affective systems

Human-Computer Interaction. Advanced Interaction, Modalities, and Techniques Masaaki Kurosu, 2014-06-07 The 3 volume set LNCS 8510 8511 and 8512 constitutes the refereed proceedings of the 16th International Conference on Human Computer Interaction HCII 2014 held in Heraklion Crete Greece in June 2014 The total of 1476 papers and 220 posters presented at the HCII 2014 conferences was carefully reviewed and selected from 4766 submissions These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems The papers thoroughly cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of application areas

SmartKom: Foundations of Multimodal Dialogue Systems Wolfgang Wahlster, 2006-09-05 With contributions by leading scientists in the field this book gives the first comprehensive overview of the results of the seminal SmartKom project one of the most advanced multimodal dialogue systems worldwide

Emotion-Oriented Systems Paolo Petta, Catherine Pelachaud, Roddy Cowie, 2011-02-04 Emotion pervades human life in general and human communication in particular and this sets information technology a challenge Traditionally IT has focused on allowing people to accomplish practical tasks efficiently setting emotion to one side That was acceptable when technology was a small part of life but as technology and life become increasingly interwoven we can no longer ask people to suspend their emotional nature and habits when they interact with technology The European Commission funded a series of related research projects on emotion and computing culminating in the HUMAINE project which brought together leading academic researchers from the many related disciplines This book grew out of that project and its chapters are arranged according to its working areas theories and models signals to signs data and databases emotion in interaction emotion in cognition and action persuasion and communication usability and ethics and good practice The fundamental aim of the book is to offer researchers an overview of the related areas sufficient for them to do credible work on affective or emotion oriented computing The book

serves as an academically sound introduction to the range of disciplines involved technical empirical and conceptual and will be of value to researchers in the areas of artificial intelligence psychology cognition and user machine interaction

Handling Emotions in Human-Computer Dialogues Johannes Pittermann, Angela Pittermann, Wolfgang Minker, 2009-10-28 In this book a novel approach that combines speech based emotion recognition with adaptive human computer dialogue modeling is described With the robust recognition of emotions from speech signals as their goal the authors analyze the effectiveness of using a plain emotion recognizer a speech emotion recognizer combining speech and emotion recognition and multiple speech emotion recognizers at the same time The semi stochastic dialogue model employed relates user emotion management to the corresponding dialogue interaction history and allows the device to adapt itself to the context including altering the stylistic realization of its speech This comprehensive volume begins by introducing spoken language dialogue systems and providing an overview of human emotions theories categorization and emotional speech It moves on to cover the adaptive semi stochastic dialogue model and the basic concepts of speech emotion recognition Finally the authors show how speech emotion recognizers can be optimized and how an adaptive dialogue manager can be implemented The book with its novel methods to perform robust speech based emotion recognition at low complexity will be of interest to a variety of readers involved in human computer interaction

Proceedings of the Paralinguistic Information and its Integration in Spoken Dialogue Systems Workshop Ramón López-Cózar Delgado, Tetsunori Kobayashi, 2011-08-27 This volume includes proceedings articles presented at the Workshop on Paralinguistic Information and its Integration in Spoken Dialogue Systems held in Granada Spain The material focuses on the three broad areas of spoken dialogue systems for robotics emotions and spoken dialogue systems and Spoken dialogue systems for real world applications The workshop proceedings are part of the 3rd Annual International Workshop on Spoken Dialogue Systems which brings together researchers from all over the world working in the field of spoken dialogue systems It provides an international forum for the presentation of research and applications and for lively discussions among researchers as well as industrialists

Conversational AI for Natural Human-Centric Interaction Svetlana Stoyanchev, Stefan Ultes, Haizhou Li, 2022-10-31 This book includes peer reviewed articles from the 12th International Workshop on Spoken Dialogue System Technology IWSDS 2021 Singapore Nowadays dialogue systems or conversational agents have become one of the most important mechanisms for human computer or human robot interaction that has been widely adopted as new paradigm for many applications companies and final users On the other hand recent advances in natural language processing understanding and generation as well as a continuous increasing computational power and large number of resources and data have brought important and consistent improvements to the capabilities of dialogue systems enabling users to have more productive and enjoyable interactions However on the threshold of a new decade the current state of the art shows important areas where improvements are needed such as incorporation of ground based knowledge personality emotions and

adaptability as well as automatic mechanisms for objective robust and fast evaluations especially in the context of developing social and e health applications In this 12th edition of the International Workshop on Spoken Dialogue Systems IWSDS Conversational AI for natural human centric interaction compiles and presents a synopsis on current global research efforts to push forward the state of the art in dialogue technologies including advances to the classical problems of dialogue management language generation and understanding personalisation and generation spokena and multimodal interaction dialogue evaluation dialogue modelling and applications as well as topics related to chatbots and conversational agent technologies

Autonomic Nervous System Dynamics for Mood and Emotional-State Recognition Gaetano Valenza, Enzo Pasquale Scilingo, 2013-10-29 This monograph reports on advances in the measurement and study of autonomic nervous system ANS dynamics as a source of reliable and effective markers for mood state recognition and assessment of emotional responses Its primary impact will be in affective computing and the application of emotion recognition systems Applicative studies of biosignals such as electrocardiograms electrodermal responses respiration activity gaze points and pupil size variation are covered in detail and experimental results explain how to characterize the elicited affective levels and mood states pragmatically and accurately using the information thus extracted from the ANS Nonlinear signal processing techniques play a crucial role in understanding the ANS physiology underlying superficially noticeable changes and provide important quantifiers of cardiovascular control dynamics These have prognostic value in both healthy subjects and patients with mood disorders Moreover Autonomic Nervous System Dynamics for Mood and Emotional State Recognition proposes a novel probabilistic approach based on the point process theory in order to model and characterize the instantaneous ANS nonlinear dynamics providing a foundation from which machine understanding of emotional response can be enhanced Using mathematics and signal processing this work also contributes to pragmatic issues such as emotional and mood state modeling elicitation and non invasive ANS monitoring Throughout the text a critical review on the current state of the art is reported leading to the description of dedicated experimental protocols novel and reliable mood models and novel wearable systems able to perform ANS monitoring in a naturalistic environment Biomedical engineers will find this book of interest especially those concerned with nonlinear analysis as will researchers and industrial technicians developing wearable systems and sensors for ANS monitoring

Dialogues with Social Robots Kristiina Jokinen, Graham Wilcock, 2016-12-23 This book explores novel aspects of social robotics spoken dialogue systems human robot interaction spoken language understanding multimodal communication and system evaluation It offers a variety of perspectives on and solutions to the most important questions about advanced techniques for social robots and chat systems Chapters by leading researchers address key research and development topics in the field of spoken dialogue systems focusing in particular on three special themes dialogue state tracking evaluation of human robot dialogue in social robotics and socio cognitive language processing The book offers a valuable resource for researchers and practitioners in both academia and industry whose work involves

advanced interaction technology and who are seeking an up to date overview of the key topics It also provides supplementary educational material for courses on state of the art dialogue system technologies social robotics and related research fields

Advances in Information Retrieval Gabriella Pasi,Benjamin Piwowarski,Leif Azzopardi,Allan Hanbury,2018-03-20 This book constitutes the refereed proceedings of the 40th European Conference on IR Research ECIR 2018 held in Grenoble France in March 2018 The 39 full papers and 39 short papers presented together with 6 demos 5 workshops and 3 tutorials were carefully reviewed and selected from 303 submissions Accepted papers cover the state of the art in information retrieval including topics such as topic modeling deep learning evaluation user behavior document representation recommendation systems retrieval methods learning and classification and micro blogs Recent Trends in Discourse and Dialogue Laila Dybkjær,Wolfgang Minker,2008-02-13 The eleven chapters of this book represent an original contribution to the field of multimodal spoken dialogue systems The material includes highly relevant topics such as dialogue modeling in research systems versus industrial systems The book contains detailed application studies including speech controlled MP3 players in a car environment negotiation training with a virtual human in a military context and the application of spoken dialogue to question answering systems

Ignite the flame of optimism with is motivational masterpiece, **Affective Dialogue Systems Affective Dialogue Systems** . In a downloadable PDF format (PDF Size: *), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.

Affective Dialogue Systems Affective Dialogue Systems Introduction

Affective Dialogue Systems Affective Dialogue Systems Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Affective Dialogue Systems Affective Dialogue Systems Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Affective Dialogue Systems Affective Dialogue Systems : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Affective Dialogue Systems Affective Dialogue Systems : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Affective Dialogue Systems Affective Dialogue Systems Offers a diverse range of free eBooks across various genres. Affective Dialogue Systems Affective Dialogue Systems Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Affective Dialogue Systems Affective Dialogue Systems Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Affective Dialogue Systems Affective Dialogue Systems, especially related to Affective Dialogue Systems Affective Dialogue Systems, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Affective Dialogue Systems Affective Dialogue Systems, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Affective Dialogue Systems Affective Dialogue Systems books or magazines might include. Look for these in online stores or libraries. Remember that while Affective Dialogue Systems Affective Dialogue Systems, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Affective Dialogue Systems Affective Dialogue Systems eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Affective Dialogue Systems Affective Dialogue Systems full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Affective Dialogue Systems Affective Dialogue Systems eBooks, including some popular titles.

FAQs About Affective Dialogue Systems Affective Dialogue Systems Books

What is a Affective Dialogue Systems Affective Dialogue Systems PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Affective Dialogue Systems Affective Dialogue Systems PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Affective Dialogue Systems Affective Dialogue Systems PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Affective Dialogue Systems Affective Dialogue Systems PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Affective Dialogue Systems Affective Dialogue Systems PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
