Shields,Jeannie M. Wayne,Donald R. Kelley,2004-01-01 In 2002 a distinguished interdisciplinary group of scholars gathered at the Diane D Blair Center of Southern Politics and Society at the University of Arkansas to provide a critical evaluation of the Clinton Gore administration Their groundbreaking assessment of the most controversial president in modern times treats such crucial topics as race women and minorities the character issue foreign policy and the media This book provides a unique vantage point on the Clinton riddle that all future studies will need to consider The Routledge Concise History of Science Fiction Mark Bould,Sherryl Vint,2011-02-23 The Routledge Concise History of Science Fiction provides students with an accessible overview of the genre that explores how it emerged through competing multifarious versions and the struggle

to define its limits. Discussing the place of key works and looking forward to the future of the genre, this book is the ideal starting point for students and all those seeking a better understanding of science fiction. *Race in American Science Fiction* Isiah Lavender, 2011-02-08. A critical examination of Blackness and race in the predominantly White genre. Noting that science fiction is characterized by an investment in the proliferation of racial difference, Isiah Lavender III argues that racial alterity is fundamental to the genre's narrative strategy. *Race in American Science Fiction* offers a systematic classification of ways that race appears and how it is silenced in science fiction while developing a critical vocabulary designed to focus attention on often overlooked racial implications. These focused readings of science fiction contextualize race within the genre's better-known master narratives and agendas. Authors discussed include Isaac Asimov, Ray Bradbury, Philip K. Dick, and Ursula K. Le Guin among many others. Critically ambitious, Isiah Lavender spurs a direct conversation about race and racism in science fiction. De Witt Douglas Kilgore, author of *Astrofuturism: Science, Race, and Visions of Utopia in Space*. **A Concise History Of American Painting And Sculpture** Matthew Baigell, 2018-02-23. This clear, thorough, and reliable survey of American painting and sculpture from colonial times to the present day covers all the major artists and their works, outlines the social and cultural backgrounds of each period, and includes 409 illustrations integrated with the text. Although some determining factors in American art are considered, Matthew Baigell views the rich and diverse achievements of American art as the result of the efforts and talents of a pluralistic society rather than as fitting into a particular mold. This edition includes corrections and revisions to the text, an updated bibliography, and 13 new illustrations. **Dave Brubeck and the Performance of Whiteness** Kelsey Klotz, 2023. In *Dave Brubeck and the Performance of Whiteness*, author Kelsey Klotz considers how Dave Brubeck, a pivotal jazz musician and public figure, represents manifestations of whiteness in mid-century America. **Barack Obama and the Idea of a Postracial Society** Zoe Lowery, 2015-07-15. In 2008, the United States witnessed a milestone: Barack Obama, a first-term senator from Illinois, became the first African American to be nominated for the presidency by a major political party. His subsequent election suggested that American society had finally surpassed some of the racial divisions that had plagued the country. But racial inequality persists, and issues such as financial disparities between African Americans and other groups, and protracted prejudice and discrimination still need to be confronted. This volume also celebrates the indelible marks made by African Americans on culture, speech, art, music, dance, literature, politics, law, athletics, and more. *Bounds of Blackness* Christopher Tounsel, 2024-06-15. *Bounds of Blackness* explores the history of Black America's intellectual and cultural engagement with the modern state of Sudan. Ancient Sudan occupies a central place in the Black American imaginary as an exemplar of Black glory, pride, and civilization, while contemporary Sudan, often categorized as part of Arab Africa rather than Black Africa, is often sidelined and overlooked. In this pathbreaking book, Christopher Tounsel unpacks the vacillating approaches of Black Americans to the Sudanese state and its multiethnic populace through periods defined by colonialism, postcolonial civil wars, genocide in Darfur, and South

Sudanese independence By exploring the work of African American intellectuals diplomats organizations and media outlets Tounsel shows how this transnational relationship reflects the robust yet capricious terms of racial consciousness in the African Diaspora
