Afterwar Veterans From A World In Conflict:

Afterwar Lori Grinker, 2004 This book is the result of 15 years spent photographing and interviewing men women and children who have been on the frontlines of every major conflict of the past century It is a portrait documenting the deep physical and psychological effects on the veterans whose bodies and minds are changed forever It is not the politics of a particular war that the people in this work represent but rather a portrayal of our culture of warring and the aftermath of war in human terms **Fight to Live, Live to Fight Veteran Activism after War** Benjamin Schrader, 2019-07-01

Examines US foreign and domestic policy through the narratives of post 9 11 US military veterans and the activism they are engaged in While veterans are often cast as a problem for society Fight to Live Live to Fight challenges this view by focusing on the progressive positive and productive activism that veterans engage in Benjamin Schrader weaves his own experiences as a former member of the American military and then as a member of the activist community with the stories of other veteran activists he has encountered across the United States An accessible blend of political theory international relations and American politics this book critically examines US foreign and domestic policy through the narratives of post 9 11 military veterans who have turned to activism after having exited the military Veterans are involved in a wide array of activism including but not limited to antiwar economic justice sexual violence prevention immigration issues and veteran healing through art This is an accessible captivating and engaging work that may be read and appreciated not just by scholars but also students and the wider public There is currently no book on the market that does what this book does and could do and I welcome it There are books on veterans of course but there are none that focus in particular on veterans activism written by a veteran activist and academic The book is in many ways a testament to our time and a kind of generational story that I am sure many veterans will relate to Synne L Dyvik University of Sussex *Trauma Rehabilitation After War and Conflict* Erin Martz, 2010-04-15 As foreign assistance flows into post conflict regions to rebuild economies roads and schools it is important that development professionals retain a focus on the purely human element of rebuilding lives and societies This book provides perspective on just how to begin that process so that the trauma people suffered is not passed on to future generations long after the violence has stopped Amy T Wilson Ph D Gallaudet University Washington DC This ground breaking text provides the reader with an excellent and comprehensive overview of the existing field of trauma rehabilitation It also masterfully navigates the intricate relationships among theory research and practice leaving the reader with immense appreciation for its subject matter Hanoch Livneh Hanoch Livneh Ph D LPC CRC Portland State University Fear terror helplessness rage for soldier and civilian alike the psychological costs of war are staggering And for those traumatized by chronic armed conflict healing recovery and closure can seem like impossible goals Demonstrating wide ranging knowledge of the vulnerabilities and resilience of war survivors the collaborators on Trauma Rehabilitation after War and Conflict analyze successful rehabilitative processes and intervention programs in conflict affected areas of the world Its

dual focus on individual and community healing builds on the concept of the protective trauma membrane a component crucial to coping and healing to humanitarian efforts though one which is often passed over in favor of rebuilding infrastructure and to promoting and sustaining peace The book s multiple perspectives including public health community based systems and trauma focused approaches reflect the complex psychological social and emotional stresses faced by survivors to provide authoritative information on salient topics such as Psychological rehabilitation of U S veterans non Western ex combatants and civilians Forgiveness and social reconciliation after armed conflict Psychosocial adjustment in the post war setting Helping individuals heal from war related rape The psychological impact on prisoners of war Rehabilitating the child soldier Rehabilitation after War and Conflict lucidly sets out the terms for the next stage of humanitarian work making it essential reading for researchers and professionals in psychology social work rehabilitation counseling and public health

Afterwar ,2004 After War documents the physical and psychological wounds that remain for the men women and children who served on the frontlines of the major wars from World War I to the most recent in Iraq Fifteen years in the making After War spans 25 conflicts in 30 countries and reflects the entire spectrum of warfare It represents the full span of war s combatants those who enlist as well as those compelled guerillas draftees mercenaries patriots and rebels

The Body at Risk Carol Squiers,2005 The Body at Risk Photography of Disorder Illness and Healing is the first book to explore the ways that photojournalists and social documentarians have conceptualized the human subject as a site of both good and ill health The volume looks at photographs depicting child laborers Depression era health programs general medical care in the southern United States at mid century people with HIV AIDS and polio along with their caretakers and the health workers who advocate for them environmental pollution physical and psychological injuries received during warfare domestic violence and emergency care in the modern urban hospital It brings together ten significant bodies of photographs made over the past one hundred years to show how human health topics have been represented for the general public and how the emphasis on health has shifted how photography has been used to present and promote certain points of view about health and the social circumstances that affect it both positively and negatively and how photography has helped shape public knowledge of and opinion about health care and some of the events and circumstances that engender it

After War Zoë H. Wool,2015-11-05 In After War Zo H Wool explores how the American soldiers most severely injured in the Iraq and Afghanistan wars struggle to build some kind of ordinary life while recovering at Walter Reed Army Medical Center from grievous injuries like lost limbs and traumatic brain injury Between 2007 and 2008 Wool spent time with many of these mostly male soldiers and their families and loved ones in an effort to understand what it s like to be blown up and then pulled toward an ideal and ordinary civilian life in a place where the possibilities of such a life are called into question Contextualizing these soldiers within a broader political and moral framework Wool considers the soldier body as a historically politically and morally laden national icon of normative masculinity She shows how injury

disability and the reality of soldiers experiences and lives unsettle this icon and disrupt the all too common narrative of the heroic wounded veteran as the embodiment of patriotic self sacrifice For these soldiers the uncanny ordinariness of seemingly extraordinary everyday circumstances and practices at Walter Reed create a reality that will never be normal

After War, Is Faith Possible? Geoffrey A. Studdert Kennedy, 2008-05-01 There are no words foul and filthy enough to describe war So declared Geoffrey Woodbine Willie Studdert Kennedy 1883 1929 a decorated frontline chaplain whose battlefield experiences in World War I transformed him into his generation s most eloquent defender of Christian pacifism Studdert Kennedy was also a tireless champion of the social gospel who wrote a dozen books scores of articles hundreds of poems and preached countless sermons in both the UK and the US promoting economic justice Studdert Kennedy s writing and preaching influenced an entire generation William Temple Archbishop of Canterbury described him as a true prophet Even though he s fallen into obscurity with the passage of years Studdert Kennedy s message still inspires the likes of Desmond Tutu and Jurgen Moltmann This collection of Studdert Kennedy s work the first in sixty years seeks to introduce this most relevant of thinkers to our troubled times The book pulls together Studdert Kennedy s most important writings on war and peace poverty the problem of evil the church s role in the world sin and atonement the suffering God love versus force as world powers and the beloved community Editor Kerry Walters introduces the texts with a biographical and thematic essay

Writing after War John Limon, 1994-07-07 In *Writing After War* John Limon develops a theory of the relationship of war in general to literature in general in order to make sense of American literary history in particular Applying the work of war theorists Carl von Clausewitz and Elaine Scarry John Limon argues that *The Iliad* inaugurates Western literature on the failure of war to be duel like to have a beautiful form War s failure is literature s justification American literary history is demarcated by wars as if literary epochs like the history of literature itself required bloodshed to commence But in chapters on periods of literary history from realism generally taken to be a product of the Civil War through modernism usually assumed to be a prediction or result of the Great War up to postmodernism which followed World War II and spanned Vietnam Limon argues that despite the looming presence of war in American history the techniques that define these periods are essentially ways of not writing war From James and Twain through Fitzgerald Faulkner and even Hemingway to Pynchon our national literary history is not hopelessly masculinist Limon argues Instead it arrives naturally at Bobbie Ann Mason and Maxine Hong Kingston Kingston brings the discussion full circle *The Woman Warrior* like *The Iliad* appears to condemn the fall from duel to war that is literature s endless opening

Men After War Stephen McVeigh, Nicola Cooper, 2013-03-05 This book is an innovative collection of original research which analyzes the many varieties of post conflict masculinity Exploring topics such as physical disability and psychological trauma and masculinity and sexuality in relation to the feminizing contexts of wounding and desertion this volume draws together leading academics in the fields of gender history literature and disability studies in an inter and multi disciplinary exploration of the conditions and circumstances that men

face in the aftermath of war

Nurses After War Mary Ellen Doherty, Elizabeth Scannell-Desch, 2016-07-05 Based on candid interviews with 35 nurses who were deployed for the wars in Iraq and Afghanistan this is the first book to reveal the stresses and moral dilemmas they experienced as they transitioned back into everyday life The nurses share their difficulties with family separation clinical reassignments post traumatic stress disorder the perceived stigma of seeking mental health counseling and compassion fatigue They describe how doing nursing in a war zone changed them personally and expanded their nursing skills and how reintegration was more difficult than they had anticipated In addition to serving as a personal account of the experiences both individual and collective of these military nurses the book will serve researchers as a compelling example of qualitative phenomenological and descriptive research Interviewees describe in vivid detail their homecoming family adjustments renegotiation of spousal and parenting roles domestic and workplace challenges and many other dilemmas posed by the reintegration process They provide insights and thoughtful recommendations for changes to current military debriefing to improve the experiences of future wartime nurses Encompassing all three branches of the military the book also examines the differences between active duty services and reserve unit services issues of substance abuse the Veterans Administration the burden of multiple deployments and other common threads among nurses who served in Iraq and Afghanistan

KEY FEATURES Provides vivid narrative accounts of nurses reintegration experiences Delivers the first research study of nursing reintegration which includes Army Navy and Air

Force Nurse Corps officers following deployment in the Iraqi and Afghani Conflicts Demonstrates how a comprehensive qualitative nursing research study can be crafted into a highly accessible compelling account Explores the personal and professional paths of 35 nurses returning from war Addresses the reintegration differences between active duty versus reserve status A Morning After War K. J. Gilchrist,2005 A Morning After War fills a critical gap in C S Lewis biographies with unprecedented detail by tracing Lewis s wartime service relationships and earliest publications Probing war s traumatic destruction upon Lewis s romantic expectations of tranquil life this book surpasses literary analyses of Lewis s work by asserting a comprehensive definition of war literature Equally scholars and students of World War I war literature trauma studies and C S Lewis will find this work an invaluable reassessment of central assumptions in their fields Not least here finally is the young C S Lewis preceding his usual and often idolized personas **Journal of the House of Representatives of the United States** United States. Congress. House,1967 Some vols include supplemental journals of such proceedings of the sessions as during the time they were depending were ordered to be kept secret and respecting which the injunction of secrecy was afterwards taken off by the order of the House Supplement to the Code of Federal Regulations of the United States of America ,1946 **The Code of Federal Regulations of the United States of America Having General Applicability and Legal Effect in Force June 1, 1938** ,1939 The Code of federal regulations is the codification of the general and permanent rules published in the Federal register by the executive departments and agencies of the federal government Peacebuilding and Ex-Combatants Johanna Söderström,2014-12-17 The book examines how ex combatants in post war and peacebuilding settings engage in politics as seen in the case of Liberia The political mobilization of former combatants after war is often perceived as a threat ultimately undermining the security and stability of the state This book questions this simplified view and argues that understanding the political voice of former combatants is imperative Their post war role is not black and white they are not just bad or good citizens but rather engage in multiple political roles spoilers victims disengaged beneficiaries as well as motivated and active citizens By looking at the political attitudes and values of former combatants and their understanding of how politics functions the book sheds new light on the political reintegration of ex combatants It argues that political reintegration needs to be given serious attention at the micro level but also needs to be scrutinized in two ways first through the level of political involvement which reflects the extent and width of the ex combatants voice Second in order to make sense of political reintegration we also need to uncover what values and norms inform their political involvement The content of their political voice is captured through a comparison with democratic ideals Based on interviews with over 100 Liberian ex combatants the book highlights that their relationship with politics overall should be characterized as an expression of a politics of affection This book will be of much interest to students of peacebuilding African politics democratization political sociology conflict resolution and IR Security Studies in general **Living politics after war** Johanna Söderström,2020-12-15 Life after war is intrinsically political for

former combatants As wars end societies and former combatants face a period of transition This book explores the experience of coming home for former combatants capturing the challenges and opportunities for political mobilization among former combatants as they return from three very different wars South West Africa People s Organization combatants who participated in the Namibian War of Independence 1966 90 guerrillas from Movimiento 19 de Abril who joined the ongoing guerilla warfare conducted against the Colombian state 1974 90 and combatants from the United States who participated in the Vietnam War 1955 75 Offering an insightful perspective on peace as a process through the long term study of the lives of fifty former combatants S derstr m demonstrates how the process of coming home shapes their political commitment and identity Combining detailed scholarship with interviews with former combatants this volume serves as a powerful reminder of the legacies of war in the lives of former combatants

Family Mourning After War and Disaster in Twentieth-Century Britain Ann-Marie Foster, 2024-08-12 Across the twentieth century the families of people who died in war and disaster were left to make sense of their sudden loss and navigate newfound grief This book focuses the families of people who died in the First World War and in mining disasters in the early twentieth century These bereaved families were often denied access to bodies and choice over burial rights all while dealing with the increased bureaucracy of death Families created domestic memorials which took on additional meaning because of this lack of memorial agency elsewhere Although the ways that these families were bereaved each took place in different circumstances the ways that families grieved were recognizable to one another they drew on common memorial practices augmented to take on special meaning after sudden death This memorial material provided a vehicle for families to navigate their loss but also to communicate the memory of the dead both externally through donation to museums and linearly through ancestral lines Drawing on a nuanced reading of a wide range of sources from ephemera to administrative museum paperwork this book explores family reactions to mass death events in early twentieth century Britain The result is a comparative and domestic perspective on mourning at the turn of the century that makes important contributions to the growing field of death studies and will be of interest to those working on the First World War interwar Britain the history of work the social history of the family and the history of memorialization 6 b w illustrations
