**Afghanistan from the Cold War Through the War on Terror** Barnett R. Rubin, 2015-03-25 A collection of articles written from 1989 to 2009 updated for this volume      **Afghanistan in the Post-Cold War Era** Barnett R.

Rubin, 2013-05-09 A collection of articles written from 1989 to 2009 updated for this volume      *Reconciliation and Social Healing in Afghanistan* Heela Najibullah, 2017-01-11 Heela Najibullah analyzes the Afghan reconciliation processes through the lenses of transnational peace philosophy and Elicitive Conflict Transformation The research highlights two Afghan governments reconciliation processes in 1986 and 2010 and underlines the political events that shaped the 1986 National Reconciliation Policy drawing lessons for future processes The author points out the historical and geopolitical patterns indicating regional and global stakeholders involvement in Afghan politics Social healing through a middle out approach is the missing and yet crucial component to achieve sustainable reconciliation in Afghanistan      *The Terrorism Trap* Harrison

Akins, 2023-06-20 After two decades and trillions of dollars the United States fight against terrorism has achieved mixed results Despite the vast resources and attention expended since 9 11 terrorism has increased in many societies that have been caught up in the war on terror Why have U S policies been unable to stem the tide of violence Harrison Akins reveals how the war on terror has had the unintended consequence of increasing domestic terrorism in U S partner states He examines the results of U S backed counterterrorism operations that targeted al Qaeda in peripheral regions of partner states over which their central governments held little control These operations often provoked a violent backlash from local terrorist groups leading to a spike in retaliatory attacks against partner states Senior U S officials frequently failed to grasp the implications of the historical conflict between central governments and the targeted peripheries Instead they exerted greater pressure on partner states to expand their counterterrorism efforts This exacerbated the underlying conditions that drove the escalating attacks trapping these governments in a deadly cycle of tit for tat violence with local terrorist groups This process Akins demonstrates accounts for the lion s share of the al Qaeda network s global terrorist activity since 2001 Drawing on extensive primary sources including newly declassified documents dozens of in depth interviews with leading government officials in the United States and abroad and statistical analysis *The Terrorism Trap* is a groundbreaking analysis of why counterterrorism has backfired      **Killer High** Peter Andreas, 2022-01-17 In *Killer High* Peter Andreas tells the story

of war from antiquity to the modern age through the lens of six psychoactive drugs alcohol tobacco caffeine opium amphetamines and cocaine Armed conflict has become progressively more drugged with the global spread of these mind altering substances From ancient brews and battles to meth and modern warfare drugs and war have grown up together and become addicted to each other By looking back not just years and decades but centuries Andreas reveals that the drugs conflict nexus is actually an old story and that powerful states have been its biggest beneficiaries      *Fighting the Forever War* Lisa M. Munday, 2022-02-21 During two decades of fighting in Afghanistan U S service members confronted numerous

challenges in their mission to secure the country from the threat of al Qaeda and the Taliban and assist in rebuilding efforts. Because the wars in Iraq and Afghanistan occurred simultaneously much of the American public conflated them or failed to notice the Afghanistan War and most of the war's archival material remains classified and closed to civilian researchers. Drawing on interviews and letters home this book relates the Afghanistan War through the experiences of American troops with firsthand accounts of both combat and humanitarian operations the environment living conditions and interactions with the locals.

**Talibanland - Paradise Under the Shadow of Sabers in Afghanistan** Georgi Asatryan, 2025-04-30 This book analyses the Taliban's rise to power and its rule in Afghanistan from various perspectives. Analyzing the ideology and evolution of the radical movement sociocultural aspects of Afghanistan in relation to the group's rise to power as well as personal interviews with Taliban leaders Asatryan sketches out a multifaceted picture of the domestic scene for further analysis of the regime's role in international security and affairs. In so doing the author examines Afghanistan's political state from different geopolitical positions and discusses the international relations and policy strategies employed by major world powers and regional actors in relation to Taliban rule. The research is interdisciplinary. The book is a social study of Afghan societies and the Taliban. On the other hand the monograph presents an analysis of the evolution of the political strategies of various powers regarding Afghanistan.

**Afghanistan War** Ryan Wadle, 2018-10-01 Providing an invaluable introductory resource for students investigating the war in Afghanistan this book highlights the evolution of the conflict through the documents that helped to shape it. This carefully curated primary source collection includes more than 80 documents from the national and international participants in nearly four decades of conflict that led to the Afghanistan War. Readers will gain an understanding of the macro and micro costs of the war on the participants and the political social economic and military factors that have allowed the fighting to persist. Authored by a former member of the Afghanistan Study Team at the U.S. Army's Combat Studies Institute readers will gain special insight into the military dynamics of the war in Afghanistan and how the war has changed those who have fought in it. The book is divided into four chapters that cover the primary phases of the war in Afghanistan: The Soviet Invasion and Civil War 1979-2001 Operation ENDURING FREEDOM and Reconstruction Begins 2001-2003 The Taliban Return 2003-2009 and The Surge Drawdown and an Uncertain Future 2009-2017. This structure enables readers to clearly understand how the war evolved and the most significant developments that shaped each period.

**Joint Force Quarterly**, 2008

**Afghanistan** Barnett R. Rubin, 2020-07-01 In *Afghanistan What Everyone Needs to Know* Barnett Rubin a leading scholar of Afghanistan and former advisor to both the UN and the US State Department distills decades of research in a concise yet rich overview of this complicated nation.

**Ending War** Chiara De Franco, Anders Engberg-Pedersen, Martin Mennecke, 2021-11-29 *Ending War A Dialogue across Disciplines* examines how wars end from a multidisciplinary perspective and includes enquiries into the politics of war the laws of war and the military and intellectual history of war. In recent years the changes in the character of contemporary warfare have created

uncertainties across different disciplines about how to identify and conceptualise the end of war A whole constellation of questions arises from such uncertainties How do philosophers define ethical responsibilities in bello and post bellum if the boundary between war and peace is ever so blurred How do strategists define their objectives if the teleology of action becomes uncertain How do historians bracket the known endings of war and delve into the arguments that preceded them Which answers can international law provide for the ending of wars and which challenges remain or have recently arisen This volume addresses these questions and enables both an understanding of how the end as a concept informs the understanding of war in international relations in international law and in history as well as a reconsideration of the nature of scientific method in the field of war studies as such The chapters in this book were originally published as a special issue of The Journal of Strategic Studies

Transitional Justice in Peacebuilding Djeyhoun Ostowar, 2020-11-22 This book explores the role of actors in determining transitional justice in peacebuilding contexts In recent decades transitional justice mechanisms and processes have been introduced to a variety of settings becoming widely regarded as essential elements in the peacebuilding toolbox While it has increasingly been suggested that transitional justice is imposed by neo imperial actors with little regard for the needs and cultures of local populations evidence suggests that dismissing these policies as neo imperial or neo liberal impositions would result in grossly overlooking their dynamics which involve a whole range of relevant actors operating at multiple levels This book interrogates this theme through empirical analysis of three sites of peacebuilding that have seen extensive international involvement Kosovo East Timor and Afghanistan It proposes a novel framework for analysing and approaching transitional justice in peacebuilding that disaggregates three broad sets of actors operating at different levels in relevant processes external actors international and regional levels transitional justice promoters local national international and transnational levels and transitional regimes national and local levels The book argues that transitional justice in peacebuilding must be conceived of as actor contingent and malleable due to the significance of agency and inter actions of key categories of actors throughout peacebuilding transition This book will be of interest to students and practitioners of transitional justice peacebuilding law and International Relations

**The War on Terror** Ninan Koshy, 2003 The terrorist attacks on September 11 2001 were used by the Bush administration to usher in a war without borders a war against many enemies in many different parts of the world a war without end This is America's War on Terror Yet this War on Terror is in reality an imperialist war that seeks to make the world secure for global economic and strategic interests of the United States This war seeks to reorder the world through imperialist expansion The military occupation of Iraq in March 2003 signals only a stage in this ongoing war It signals also the application of the new doctrines that the Bush administration has championed Ninan Koshy makes a meticulous scrutiny of official documents and statements and shows how the military might of the US is actually used to buttress globalization that is the sway of multinational capital He also demonstrates how military occupation is intrinsic to the expansion of the American empire Koshy makes the point

that the main theatre of the War on Terror is Asia from West to North East and includes Central South and South East Asia He also puts forward a sharp critique of the policy followed by New Delhi which involves the calculated dismantling of the entire rationale of non alignment and the edifice of an independent foreign policy as well as the subjugation of India s national interests to US war plans What we are witnessing today is the demise of the world order that emerged after the Second World War A new world order is taking its place This lucidly argued book explains the architecture and nature of this new world order      **American Foreign Policy Since World War II, 17th Edition** Steven W Hook,J. Spanier,2006-07-15 Presents an examination of the conduct of American foreign policy in the second half of the twentieth century looking at Cold War developments the post Cold War period the war on terrorism and the problems facing the U S in the early 2000s
