and clandestine diplomacy played a key role in Britain's Middle East policy this book examines new archival sources in order to demonstrate that despite World War II and the Cold War the traditional rivalry between Britain and France in the Middle East continued unabated assuming the form of a little known secret war This shadow war strongly influenced decolonization of the region as each Power sought to undermine the other Britain exploited France's defeat to evict it from its mandated territories in Syria and Lebanon and incorporate them in its own sphere of influence whilst France's successful use of intelligence enabled it to undermine Britain's position in Palestine Egypt Saudi Arabia and Iraq Shedding new light on the clandestine Franco Zionist collaboration against Britain in the Middle East and the role of the British secret services in the 1948 Arab Jewish war in Palestine this book which presents close to 400 secret Syrian and British documents obtained by the French intelligence is essential reading for scholars with an interest in the political history of the region inter Arab and international relations and intelligence studies

War and State Formation in Syria M. Talha Çiçek, 2014-02-24 During the First World War Cemal Pasha attempted to establish direct control over Syrian and thereby reaffirm Ottoman authority there through various policies of control including the abolishment of local intermediaries Elaborating on these Ottoman policies of control this book assesses Cemal Pasha's policies towards different political groups in Syrian society including Arabists Zionists Christian clergymen and Armenian immigrants The author then goes on to analyse Pasha's educational activities the conscription of Syrians both Muslim and Christian and the reconstruction of the major Syrian cities assessing how these policies contributed to his attempt to create ideal Ottoman citizens An important addition to existing literature on the social and political history of World War I and contributing a new understanding of Ottoman Syria and its transformation into a nation state this book will be of interest to students and scholars with an interest in state formation Politics and History

The Druze Community and the Lebanese State Yusri Hazran, 2014-07-11 One of the fundamental questions of Middle Eastern and Lebanese studies in particular is the history of the relationship between the Druze community and the state in modern Lebanon Arguing that the Druze community has been politically alienated from the Lebanese state this book explores the historical and political origins of this alienation The Druze Community and the Lebanese State contends that the origins of this alienation lie in the state's national ideology its political confessional system and the Druze's historical background during the medieval period Moreover this book examines the extent to which the Druze's attitude vis vis the Lebanese state has been influenced by their historical rivalry with the Maronites Particular emphasis is placed on the political and ideological practices adopted by the Druze leadership and intelligentsia as they dealt with the changes taking place in their community's political status following the political settlements of 1920 and 1943 the establishment of Greater Lebanon and the National Pact respectively A welcome addition to existing literature on Lebanon this book will be an essential reference tool for students and researchers with an interest in nationalism identity and Middle East Politics more broadly

Ending Empire in the Middle East Simon C. Smith, 2013-03-01 This book is a major and wide ranging re assessment of Anglo

American relations in the Middle Eastern context It analyses the process of ending of empire in the Middle East from 1945 to the Yom Kippur War of 1973 Based on original research into both British and American archival sources it covers all the key events of the period including the withdrawal from Palestine the Anglo American coup against the Musaddiq regime in Iran the Suez Crisis and its aftermath the Iraqi and Yemeni revolutions and the Arab Israeli conflicts It demonstrates that far from experiencing a loss of nerve or tamely acquiescing in a transfer of power to the United States British decision makers robustly defended their regional interests well into the 1960s and even beyond It also argues that concept of the special relationship impeded the smooth running of Anglo American relations in the region by obscuring differences stymieing clear communication and practising self deception on policy makers on both sides of the Atlantic who assumed a contiguity which all too often failed to exist With the Middle East at the top of the contemporary international policy agenda and recent Anglo American interventions fuelling interest in empire this is a timely book of importance to all those interested in the contemporary development of the region

British Somaliland Brock Millman, 2013-12-04 British Somaliland provides a history of the administration of the British Somaliland Protectorate from the time when Somaliland first became governable following the defeat of Abdullah Hassan to independence Describing the interplay between general imperial policies and greater realities and developments in Somaliland the focus of the book remains on the mechanism by which the Protectorate was operated The regime that developed was in the end a highly autocratic despotism generally benign but occasionally predatory Independence when it arrived was in retrospect a tragedy Somaliland was absorbed into Somalia and a governmental style which suited the conditions of the Protectorate was dissolved into something very different Since the collapse of Somalia re emergent Somaliland appears to be attempting to re connect to a past remembered as something of a golden age Highly topical as Somaliland is re emerging this book is an invaluable resource for students and scholars of African History Imperial History and British History

Histories of the Jews of Egypt argues that this Jewish diaspora should be viewed as an imagined bourgeoisie. It demonstrates how from the late nineteenth century up to the 1950s a resilient bourgeois imaginary developed and influenced the lives of Egyptian Jews both in the public arena in institutions such as the school and in the home. From the schools of the Alliance Israélite Universelle and the Cairo lycée français to Alexandrian marriage contracts and interwar Zionist newspapers, this book explains how this imaginary was characterised by a great capacity to adapt to the evolutions of late nineteenth and early twentieth century Egypt but later deteriorated alongside increasingly strong Arab nationalism and the political upheavals that the country experienced from the 1940s onwards. Offering a novel perspective on the history of modern Egypt and its Jews and unravelling too often forgotten episodes and personalities which contributed to the making of an incredibly diverse and lively Jewish diaspora at the crossroads of Europe and the Middle East, this book is of interest to scholars of Modern Egypt, Jewish History and of Mediterranean History.

The Origins of the Libyan Nation Anna Baldinetti, 2014-05-12 This book is concerned with the emergence and construction of the Libyan nation. It charts the rise of nationalism out of the colonial era and shows how nationalism developed through an external Libyan diaspora and the influence of Arab nationalism.

Educational Policies in Pakistan, Afghanistan, and Tajikistan Dilshad Ashraf, Sarfaroj Niyozov, Mir Afzal Tajik, 2016-12-19 In the mountains of the Northern Pakistan, Tajikistan and Afghanistan, school and schooling are both symbolic of wider ranging cultural and political battles over morals, modernity, development, gender and the rule of law. *Educational Policies in Pakistan, Afghanistan and Tajikistan: Contested Terrain in the Twenty First Century* is about both the normative battles over the purpose of education as well as about the structural impediments to providing instruction in those remote and challenging locations where it is attempted. The analytical frames in this collection come primarily from the social sciences and comparative education. Contributors examine education policy processes and structures in the broader socio-cultural, religious and economic context of three countries sharing somewhat similar colonial and post-colonial legacy and current uprising of extreme religious positions and a drive to social cohesion.

Dismantling Cultural Borders Through Social Media and Digital Communications Emmanuel K. Ngwainambi, 2022-02-18 This book explores how social media and its networked communities dismantles, builds and shapes identity. Social media has been instrumental, sometimes dangerously so, in binding together different communities with thirteen original chapters by leading academics in the field, the volume investigates how belonging, togetherness and loyalty is created in the digital sphere in a way that transcends and even dismantles ethnic and national borders around the world. In tandem, the volume analyses the further threats to identity presented by the ease with which fabricated news and information spreads on social media, resulting in many users becoming unable to distinguish credible data from junk data. Social media is both creative and destructive in its influence on identity and therefore the growing fake news crisis threatens the very stability of the world's communities. This book provides relevant theoretical frameworks and the latest empirical research findings in the area, including diverse case studies and
