Regional Integration and Migration in Africa Vusi Gumede, Samuel Ojo Oloruntoba, Serges Djoyou Kamga, 2020-06-02 This comparative book debates migration and regional integration in the two regional economic blocs namely the Southern African Development Community SADC and the Economic Community of West African States ECOWAS The book takes a historical and nuanced citizenship approach to integration by analysing regional integration from the perspective of non state actors and how they negotiate various structures and institutions in their pursuit for life and livelihood in a contemporary context marked by mobility and economic fragmentation

Indo-Mozambicans in Maputo, 1947-1992 Nafeesah Allen, 2022-11-01 This book explores the experiences of Indo Mozambicans citizens and residents of Mozambique who can trace their origins to the Indian subcontinent a region affected by competing colonialisms during the twentieth century Drawing from ethnographic interviews the author illustrates why migration developed as both an identity marker and a survival tool for Indo Mozambicans living in Maputo in response to the series of independence movements and prolonged period of geo political uncertainty that extended from 1947 to 1992 A unique examination of post colonialism the book argues that four pivotal moments in history forced migratory patterns and ethnic identity formations to emerge among Indo Mozambicans namely the end of the British empire in India and the subsequent partition of India and Pakistan in 1947 the end of the Portuguese empire in India with the annexation of Goa Daman and Diu in 1961 the independence of Mozambique from Portugal in 1975 and the civil war of Mozambique from 1977 to 1992 Framing these historical markers as trigger points for shifts in migration and identity formation this book demonstrates the layered experiences of people subject to Portuguese colonialism and highlights the important perspective of those left behind in migration studies

Writing the History of the African Diaspora Toyin Falola, 2024-06-06 This Element is an analysis of the African Diaspora It will define the African Diaspora and how the concepts behind the term came to be socially and historically engineered The African diaspora is then placed into a broader historical context where the diverse global and overlapping histories of Africa s ancient ongoing diasporas will be explored In particular themes of injustice agency resistance and diversity regarding people diasporas and experiences will feature heavily Through this exploration this Element will interrogate dominating narratives regarding African diaspora related discourse seeking to address prevailing ideas that inadequately capture the true complexity and nuance of the subject It does so to construct a more comprehensive understanding of the subject matter while lining out a more holistic approach to thinking about the very
