Historical Abstracts Eric H. Boehm, 1958 **Walker's Hibernian Magazine, Or, Compendium of Entertaining Knowledge**, 1808 [The Armenians and the Fall of the Ottoman Empire](#) Ari Şekeryan, 2023-01-19 The Armistice of Mudros was signed on 30 October 1918 and on the morning of 13 November 1918 a mighty fleet of battleships from Britain France Italy and Greece sailed to Istanbul and dropped anchor

without encountering resistance This day marked the beginning of the end of the Ottoman Empire a dissolution that would bring great suffering and chaos but also new opportunities for all Ottomans Muslim and non Muslim alike Drawing upon a previously untouched collection of Armenian and Ottoman Turkish primary sources Ari ekeryan considers these understudied post war years Examining the Armenian community as they emerged from the aftermath of war and genocide ekeryan outlines their shifting political position and the strategies they used to survive this turbulent period By focusing on the Ottoman Armistice 1918 1923 ekeryan illuminates an oft neglected period in history and develops a new case study for understanding the political reactions of ethnic groups to the fall of empires and nation states *Emancipating New York* David Nathaniel Gellman, 2006 David N Gellman has written the most complete study to date of the abolition of slavery in New York State Focusing on public opinion he shows New Yorkers engaged in vigorous debates and determined activism during the final decades of the eighteenth century as they grappled with the possibility of freeing the state s black population In 1799 gradual emancipation in New York began a profound event Gellman argues It helped move an entire region of the country toward a historically rare slaveless democracy creating a wedge in the United States that would ultimately lead to the Civil War Gellman presents a comprehensive examination of the reasons for and timing of New York s dismantling of slavery It was the northern state with the greatest number of slaves more than 20 000 in 1790 Newspapers pamphlets legislative journals and organizational records reveal how whites and blacks citizens and slaves activists and politicians responded to the changing ideologies and evolving political landscape of the early national period and concluded that slavery did not fit with their state s emerging identity Support for the institution atrophied and eventually the preponderance of New York s political leaders endorsed gradual abolition The first book on its subject *Emancipating New York* provides a fascinating narrative of citizenry addressing longstanding injustices central to some of the greatest traumas of American history The debate within the New York public sphere over abolition proved a pivotal contest in the unraveling of worldwide slavery Gellman shows and set the stage for intense political conflicts in the nineteenth century BOOK JACKET *Fighting for the Higher Law* Peter Wirzbicki, 2021-03-26 How important black abolitionists joined famous Transcendentalists to create a political philosophy to fight slavery In *Fighting for the Higher Law* Peter Wirzbicki explores how important black abolitionists joined famous Transcendentalists to create a political philosophy that fired the radical struggle against American slavery In the cauldron of the antislavery movement antislavery activists such as William C Nell Thomas Sidney and Charlotte Forten and Transcendentalist intellectuals including Ralph Waldo Emerson and Henry David Thoreau developed a Higher Law ethos a unique set of romantic political sensibilities marked by moral enthusiasms democratic idealism and a vision of the self that could judge political questions from higher standards of morality and reason The Transcendentalism that emerges here is not simply the dreamy philosophy of privileged white New Englanders but a more populist movement one that encouraged an uncompromising form of politics among a wide range of Northerners black as well as white working class

as well as wealthy. Invented to fight slavery it would influence later labor feminist civil rights and environmentalist activism. African American thinkers and activists have long engaged with American Transcendentalist ideas about double consciousness, nonconformity, and civil disobedience. When thinkers like Martin Luther King Jr. or W. E. B. Du Bois invoked Transcendentalist ideas, they were putting to use an intellectual movement that black radicals had participated in since the 1830s. **The Black Dwarf** Thomas Jonathan Wooler, 1818 *The Psychology of Personality* Bernardo J.

Carducci, 2009-03-09 This engaging comprehensive introduction to the field of personality psychology integrates discussion of personality theories, research, assessment techniques, and applications of specific theories. *The Psychology of Personality* introduces students to many important figures in the field and covers both classic and contemporary issues and research. The second edition reflects significant changes in the field but retains many of the special features that made it a textbook from which instructors found easy to teach and students found easy to learn. Bernardo Carducci's passion for the study of personality is evident on every page. *The Puritan Republic of the Massachusetts Bay in New England* Daniel Wait Howe, 1899 *AF Press Clips*, 1973
