Against Equality Queer Revolution Not Mere Inclusion:

Against Equality: Queer Revolution Not Mere Inclusion Ryan Conrad, 2014 The Wiley Blackwell Companion to Cultural and Social Geography Ishan Ashutosh, Jamie Winders, 2025-04-28

Addresses both social and cultural geography in a single volume authored and edited by leading authorities in the fields. The Companion to Social and Cultural Geography provides reliable and up to date coverage of both foundational topics and emerging themes within two vibrant and increasingly interconnected subdisciplines of geography. Building upon the Companion to Cultural Geography first published in 2013, editors Ishan Ashutosh and Jamie Winders offer an expertly curated collection of original essays with special emphasis on early career scholars, geographers of color, and geographers from the Global South. Organized thematically, the Companion opens with a series of Global Dispatches from cultural and social geographers working in different disciplines and locations, followed by explorations of key concepts in social and cultural geography such as identity, belonging, solidarity, inequalities, and intersectional geographies. Subsequent chapters examine a wide range of cultural and social geographies including creativity, technologies, science, nature, memory, tourism, migration, labor, and religion. Throughout the Companion, authors share fresh insights into the racial reckonings of late ongoing issues related to climate change, the consequences of COVID-19, and more. Across its 46 chapters, the Companion to Social and Cultural Geography examines how approaches to human environment dynamics in social and cultural geography help shed light on current challenges. Covers critical topics such as justice, protest, borders, public health, urban planning, indigeneity, genders, class, race, and sexualities. Emphasizes the value of a geographic perspective to understanding social and cultural dynamics. Discusses how geography has confronted its deep connections to colonialism, imperialism, and white supremacy. Addresses a range of emerging and established themes including queer and transgender geographies, Black geographies, animal geographies, and cultural geographies of states. Incorporates a diversity of writing styles, narratives, and analyses such as interviews, conversations, short essays, autobiography, and autoethnography. Accessible, authoritative, and highly relevant to today's students, the Companion to Social and Cultural Geography is an essential textbook for undergraduate or graduate courses on social or cultural geography, cultural studies, cultural sociology, and ethnic studies.

Abolish the Family Sophie Lewis, 2022-10-04

What if we could do better than the family? We need to talk about the family. For those who are lucky, families can be filled with love and care, but for many, they are sites of pain from abandonment and neglect to abuse and violence. Nobody is more likely to harm you than your family. Even in so-called happy families, the unpaid, unacknowledged work that it takes to raise children and care for each other is endless and exhausting. It could be otherwise in this urgent, incisive polemic leading feminist critic Sophie Lewis makes the case for family abolition. *Abolish the Family* traces the history of family abolitionist demands beginning with nineteenth-century utopian socialist and sex radical Charles Fourier, the Communist Manifesto, and early twentieth-century Russian family abolitionist Alexandra Kollontai. Turning her attention to the 1960s, Lewis reminds us of the anti-family politics

of radical feminists like Shulamith Firestone and the gay liberationists a tradition she traces to the queer marxists bringing family abolition to the twenty first century This exhilarating essay looks at historic rightwing panic about Black families and the violent imposition of the family on indigenous communities and insists only by thinking beyond the family can we begin to imagine what might come after

Queer Encounters with International Law Tamsin Phillipa Paige, Claerwen O'Hara, 2024-10-07 This book focuses on queer people and their encounters with international law Traversing a wide range of topics from trans discrimination and conversion therapy to sadomasochism and abolitionism this book asks questions about the impossibility of freedom and equality for queer

communities in the world and the role that different areas of international law have to play in such a pursuit. It considers how queer lives and bodies are rendered legible or illegible to the law through how we define concepts such as gender identity or private life. It also reflects on whether legal activism focused on LGBTIQ rights can ever reflect the insights of queer theory. The book engages with new issues in international law such as recent contestation over the meaning of gender in international human rights law and international criminal law. It also showcases the diversity of approaches to queering international law that are emerging. While some chapters offer a critique of international law's violent and exclusionary tendencies, others re-invest in international law as a tool in the struggle for queer liberation by seeking to re-imagine it in queer directions. The questions addressed in this book are wide-ranging and approached differently by the authors. However, all centre on the complex relationship between international law, queer theory and queer lives, and what the future holds for these encounters going forward. This collection of queer encounters with international law will be invaluable to scholars of international law, human rights and international relations with an interest in critical approaches to these areas, as well as to researchers, activists and practitioners working in cultural, gender and sexuality studies.

Guerrilla Kindness & Other Acts of Creative Resistance Sayraphim Lothian, 2018-05-31. Full of ways to show your support for a cause through homemade items, a great book for anyone who wants to grow their skills as a maker. Nerdy Girl Express Craftivism is a non-threatening form of activism that gives people a voice when they feel voiceless and power where they feel powerless. It is an international movement for our time, and artist, scholar, activist and YouTube art teacher Sayraphim Lothian has put together the first ever tutorial book on craftivism. This master craftivist shows you how to make and use various crafts for political and protest purposes, including Embroidery, Cross stitch, Knitting, Stenciling, Decoupage, Stamping and much more. Craftivism is a growing worldwide movement in which handcrafted works are being used to highlight political issues, creatively engage in activism and encourage change in the world. Craftivists employ their works to open a space for people to be introduced to issues and to broaden the discussion surrounding them. While it might seem that this most colorful movement began recently, creative resistance has been with us for centuries around the globe, and craftivism and makers stating their mind through the medium of art is here to stay. Whether capturing the stories in crochet or creating spontaneous interventions of crafted kindness, Sayraphim Lothian's projects show that the new resistance can be artistic, clever and kind. Whether using street art or baking embroidery or soft sculpture, she demonstrates that craftivism is at its very best, a medium devoted to connecting humans together, one creative act at a time.
