performance from the perspective of the theatre my previous books² have attempted to illustrate the connection between work and the world of drama and dramatic texts Here now the emphasis is on performance at work borrowing in many instances as we shall see from the theatre for the sake of satisfying an audience comprised of our stakeholders That we are all performing at any moment is a noted idea With the increasing presence of surveillance cameras in many towns and cities today we are indeed almost continually in the spotlight That said personal performance in this book relates to our intentional actions as opposed to activities merely performed as habits or reactions to stimuli deriving from external sources Focusing on performance potential and the workplace certain ideas were originally produced as material for my personal blog³ over the period June 2013 June 2014 Excerpted from the Introduction **The Emotion Behind Money** Julie Murphy, 2020-11 The

Emotion Behind Money is laced throughout with engaging and relatable anecdotes from the author's personal experiences from childhood to present and from the examples of others. Nonjudgmental and empathetic Ms. Murphy Casserly's voice is warm and engaging. Genuinely interested in the reader's financial well-being, she clearly has the gift of natural insight and can read people and their monetary situations instantly. In the intake or discovery process, she explains you have to lead people to uncover the emotional numbers first and then get to the tactical or financial numbers. Once you have clarity about your personal mission, vision, values, and goals and what emotions are triggered underneath, you can begin to get into the hard-core financial planning details that involve your core assets and liabilities and use these as a launching pad to create a vibrant new relationship to money that will take you where you want and need to go for the rest of your life. When Descendants Become Ancestors David A. Kendall, PhD, 2014-09-05 An Excerpt from When Descendants Become Ancestors. Congratulations, you're going to be an ancestor someday. You cannot escape it. Nor can I. Nor can anyone else. That's not necessarily a bad thing, depending on your beliefs about an afterlife, but each body ultimately ceases to exist. We all know that. From the moment of birth, each of us begins a journey that must ultimately conclude with our entrance into ancestry. As we research our own ancestors and mourn the lack of information available to us, we forget that we are the future ancestors of our descendants. And if we don't leave to them the kinds of information about our lives that we crave to know about our own forefathers, then we are merely perpetuating the problem. How often have you regretted your failure to engage the elder generations of your family for information about their lives and memories? How many times have you wanted just one more hour with a deceased relative who could answer that one burning question that you suddenly thought about and that no one else can answer? Perhaps you remember a time when an older acquaintance wanted to share with you some stories about the good old days but you couldn't be bothered. Most of us have had regrets like these, as will our descendants, unless we seek to record and preserve some

stories for their use Whether our stories are short and simple or long and complex matters not but these stories will become part of their heritage and can certainly influence their lives Though our contributions may not be recognized for decades our lives matter to future generations and our stories should be told The rest is up to each of us The Miracle of Health Uche Odiatu, Kary Odiatu, 2009-03-18 The Miracle of Health is for everyone who wants to live better and longer Dr John Ratey MD author of Spark Clinical Associate Professor of Psychiatry Harvard Medical School Everyone has heard the hows and the whys when it comes to health and fitness so why don't we all look and feel the way we truly desire Good question Our answer Because knowledge alone does not inspire change In The Miracle of Health we will show you how to uncover your own private powerful reasons to take action You will learn the secrets to lifelong health and how to start looking and feeling better immediately The Miracle of Health applies the psychology of success to fitness Learn how to create joy on your journey to fitness find meditation in movement and see for yourself how one positive choice for greater health will create a ripple effect across every area of your life Simple strategies will show you how you really can end your struggle with weight low self esteem lack of energy and poor health start by choosing just one action step Our book is packed with sound nutritional strategies that show how you can enjoy eating out and traveling without the usual guilt and worry about weight gain New topics like mindful eating de junking your house and our Top Foods Nutrition Plan will give you all the tools you need for lifelong success but more importantly after reading The Miracle of Health you will WANT to take action today
