Architecture of Great Expositions 1937-1959 Rika Devos,Alexander Ortenberg,2016-03-09 This book investigates architecture as a form of diplomacy in the context of the Second World War at six major European international and national expositions that took place between 1937 and 1959 The volume gives a fascinating account of architecture assuming the role of the carrier of war related messages some of them camouflaged while others quite frank The famous standoffs between the Stalinist Russia and the Nazi Germany in Paris 1937 or the juxtaposition of the USSR and USA pavilions in Brussels 1958 are examples of very explicit shows of force The book also discusses some less known and more subtle messages revealed through an examination of several additional pavilions in both Paris and Brussels of a series of expositions in Moscow of the Universal Exhibition in Rome that was planned to open in 1942 and of London's South Bank Exposition of 1951 all of them related in one way or another to either an anticipation of the global war or to its horrific aftermaths A brief discussion of three pre World War II American expositions that are reviewed in the Epilogue supports this point It indicates a significant difference in the attitude of American exposition commissioners who were less attuned to the looming war than their European counterparts The book provides a novel assessment of modern architecture's involvement with national representation Whether in the service of Fascist Italy or of Imperial Japan of Republican Spain or of the post war Franquista regime of the French Popular Front or of

socialist Yugoslavia of the arising FRG or of capitalist USA of Stalinist Russia or of post colonial Britain exposition architecture during the period in question was driven by a deep faith in its ability to represent ideology The book argues that this widespread confidence in architecture s ability to act as a propaganda tool was one of the reasons why Modernist architecture lent itself to the service of such different masters An Architectural Guidebook to Los Angeles Robert Winter,2009-09 Known as the bible to Los Angeles architecture scholars and enthusiasts Robert Winter and David Gebhard s groundbreaking guide to architecture in the greater Los Angeles area is updated and revised once again From Art Deco to Beaux Arts Spanish Colonial to Mission Revival Winter discusses an impressive variety of architectural styles in this popular guide that he co authored with the late David Gebhard New buildings and sites have been added along with all new photography Considered the most thorough L A architecture guide ever written this new edition features the best of the past and present from Charles and Henry Greene s Gamble House to Frank Gehry s Disney Philharmonic Hall This was and is again a must have guide to a diverse and architecturally rich area Robert Winter is a recognized architectural historian who lives in Los Angeles and has led architectural tours through the Los Angeles area since 1965 He is a professor at Occidental College in Los Angeles Buildings of the Bay Area John Marshall Woodbridge,Sally Byrne Woodbridge,2013-09 Maps Drawn By William Blackwell And Richard Shoen Additional Contributor Is William W Wurster **Pocket Rough Guide San Francisco (Travel Guide eBook)** Rough Guides,Stephen Keeling,2018-12-02 Discover this iconic city with the most incisive and entertaining travel guide on the market You can take this handy pocket sized book out with you anywhere any time Whether you plan to visit Alcatraz cycle across Golden Gate Bridge or go taco tasting in The Mission Pocket Rough Guide San Francisco will show you the ideal places to sleep eat drink shop and visit along the way Perfect for short trips compact and concise with all the practical info you ll need for a few days stay Free pull out map as well as full colour maps throughout navigate The Mission s backstreets or explore densely built Downtown without needing to get online Things not to miss Rough Guides rundown of San Francisco s unmissable sights and experiences Itineraries carefully planned days to help you organize your visit Independent trusted reviews written with Rough Guides trademark blend of humour honesty and insight with options to suit every budget Stunning images a rich collection of inspiring colour photography Detailed city coverage whether visiting the big sights or venturing off the tourist trail this travel guide has in depth practical advice for every step of the way Chapters cover each neighbourhood in depth with all the sights and the best of the nearby shops cafes restaurants bars and clubs Areas covered include Downtown Embarcadero Chinatown Fisherman s Wharf Pacific Heights Presidio North Beach South of Market Civic Center Haight Ashbury The Mission The Castro Golden Gate Park Oakland Berkeley Attractions include Alcatraz Coit Tower Lombard Street Golden Gate Bridge Pier 39 Cable Car Museum and Powerhouse San Francisco Museum of Modern Art Mission Dolores Asian Art Museum Exploratorium Day trips venture further afield to Marin Headlands Point Reyes National Seashore Sonoma and Napa Valley Accommodation our unbiased selection of the top places
