British Romanticism and the Archive David Kerler, 2022-06-06 Taking its cue from Jacques Derrida's concept of *le mal d'archive* this study explores the interrelations between the experience of loss melancholia archives and their self destructive tendencies surfacing in different forms of spectrality in selected poetry of British Romanticism It argues that the British Romantics were highly influenced by the period's archival fever manifesting itself in various historical material technological and cultural aspects and implicitly reflected and engaged with these discourses and materialities medialities in their works This is scrutinized by focusing on two basal closely related facets the subject's feverish desire to archive and the archive's self destructive tendencies which may also surface in an ambivalent melancholic relishing in the archived object's presence within its absence Through this new theoretical perspective details and coherence previously gone unnoticed shall be laid bare ultimately contributing to a new and more profound understanding of British Romanticism's It will be shown that the various discursive and material manifestations of archives and archival practices not only echo the period's technological cultural and historical developments along with its incisive experiencing of loss but also fundamentally determine Romantic subjectivity and aesthetics

Transforming Ethos Rosanne Carlo, 2020-09-01 In *Transforming Ethos* Rosanne Carlo synthesizes philosophy rhetorical theory and composition theory to clarify the role of ethos and its potential for identification and pedagogy for writing studies Carlo renews focus on the ethos appeal and highlights its connection to materiality and place as a powerful instrument for writing and its teaching one that insists on the relational and multimodal aspects of writing and makes prominent its inherent ethical considerations and possibilities Through case studies of professional and student writings as well as narrative reflections *Transforming Ethos* imagines the ethos appeal as not only connected to style and voice but also a process of habituation related to practices of everyday interaction in places and with things Carlo addresses

how ethos aids in creating identification transcending divisions between the self and other She shows that when writers tell their experiences they create and reveal the ethos appeal and this type of narrative multimodal writing is central to scholarship in rhetoric and composition as well as the teaching of writing In addition Carlo considers how composition is becoming compromised by professionalization particularly through the idea of transfer which is overtaking the critical work of self development with others that a writing classroom should encourage in college students Transforming Ethos cements ethos as an essential term for the modern practice and teaching of rhetoric and places it at the heart of writing studies This book will be significant for students and scholars in rhetoric and composition as well as those interested in higher education more broadly

[Composition and Rhetoric \(Classic Reprint\)](#) Charles Swain Thomas,2015-07-16 Excerpt from *Composition and Rhetoric* The purpose of this book is to help the young student to write more clearly and more forcefully Our aim is not to train writers in the finer graces Of language That accomplishment depends upon the individual student and lies beyond our power We shall be content if those who come to our book may receive a fresh desire to use with greater precision the simple English speech which is our priceless heritage We have tried to keep this book free from the technical word and phrase because we are persuaded that good Writing depends upon the simple essentials Therefore the main stress has been placed upon the word sentence and paragraph Remembering then that the plastic mind of the young student is before us with experiences and likings peculiar to him we have tried to furnish that mind with clear and simple directions with examples chosen from good writers and exercises which will test the student s understanding of the principles of writing

A Modern Composition and Rhetoric Lewis Worthington Smith, 2017-12-21 Excerpt from *A Modern Composition and Rhetoric Brief Course Containing the Principles of Correct English for Schools* Nearly two thousand years ago Quintilian defined rhetoric as the art of speaking well Had he lived in the present age he would undoubtedly have said the art of speaking and of writing well No better phrase can be found to describe the true function of rhetoric to day Previous to the last decade it was regarded as an ornamental study abounding in theory and subtle distinctions of diction and style With the development of the study of English in the schools came an awakening to the true value of rhetoric and its relation to the study of literature and composition To day rhetoric and composition are inseparably associated in teaching the methods of simple direct and accurate expression the principle of one being supplemented by the abundant practice of the other About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Olson, 2002 In response to those who insist that rhetoric and composition should remain only a service discipline editor Gary A Olson's *Rhetoric and Composition as Intellectual Work* demonstrates that it already is an intellectual discipline that for at least a quarter of a century the field has developed an impressive tradition of intellectual work in a remarkable assortment of subject areas *Rhetoric and Composition as Intellectual Work* suggests the diversity of intellectual projects that have and will continue to make rhetoric and composition more than a service to the university more

than a field devoted solely to improving writing pedagogy and more than a preliminary to literary studies This collection of nineteen essays by some of the most distinguished scholars in the discipline illustrates that rhetoric and composition has much to contribute to the intellectual milieu of the contemporary university as the field continues to push its disciplinary borders and discover new sites of investigation Publisher s description **Elements of Rhetoric and English**
