Mary Butts and British Neo-Romanticism Andrew Radford,2014-08-28 Mary Butts was an important figure in inter war modernist circles and one who reviewed and associated with some of the major literary figures of the era from T S Eliot to Gertrude Stein Despite her importance and the varied nature of her writing she has been a neglected figure in modernist scholarship Providing a new analysis of the interwar literary period Mary Butts and British Neo Romanticism revisits her work vividly experimental writings spanning memoir poetry polemic and fiction through the lens of mid 20th century British neo Romanticism The book argues that behind Butts s eco feminist writings lies an intricate political and philosophical commentary *The Evangelical Magazine and Missionary Chronicle* ,1836 **1 & 2 Chronicles** Gwilym Henry Jones,1993 The readers of this new addition to the OT Guides series will see how and why these two books which for centuries attracted so little attention have in the last decades become the centre of vigorous and lively debate After surveying their three main sections the genealogies the united monarchy and the divided monarchy and indicating the main problems that arise the author concentrates on the main questions debated From where did the material originate and how has it been used by the writers Who were the writers and when did they write How is their work related to Ezra Nehemiah Why did they write such books Was it for historical reasons Were they engaged in a polemic Were they writing in support of Israelite institutions such as the Levitical priesthood or the dynasty To conclude the study there is an attempt to assess the theological contribution of the books of Chronicles As in the other volumes of this series full account is taken of recent trends in studies of Chronicles and there is a guidance to further reading The Characterization of an Empire Mary Katherine Yem Hing Hom,2018-07-06 Assyria the missing link in the superpower oppressor type in the Hebrew Bible Old Testament still suffers from modern scholarly neglect The Characterization of an Empire aims to alleviate this neglect while also elucidating the historical biblical books that convey characterizations of Assyrians The narratological insights gained throughout this study contribute to biblical literary studies at rigorous detailed sometimes deep and sometimes complex levels Thus this book offers to be not only a contribution to the general corpus of biblical literary studies but also an expansion of our paradigms regarding the detail depth and complexity at which narratological intention and artistry function in the biblical text The Levite Singers in Chronicles and Their Stabilising Role Ming Him Ko,2017-08-10 This study focuses on the Chronicler s special interest in Levite singers It takes into consideration the socio ideological milieu of the Jerusalem temple community in the Persian period and the Mesopotamian elite professional norms and practices that nourished the singers and their music It also explores the conception of the earthly temple as representative of its heavenly counterpart and looks at the way in which this shaped the Chronicler s theological frame of reference The work is divided into two parts Part I examines the Mesopotamian scribal musical background to which Ko attributes the rise of music in Chronicles Part II considers the Chronicler s ideological perspective the language of the temple and the educational scribal and liturgical services of Levite singers By

focusing on the characterisation of the Levite singers in the light of their Mesopotamian counterparts Ko shows how they sought to foster cosmic stability according to the terms of the Davidic covenant
