Archaeological Essays James Young Simpson, 2018-07-11 Archaeological Essays Vol 1 by James Young Simpson The late Sir James Simpson in the midst of his anxious professional labours was wont to seek for refreshment in the pursuit of subjects of a historical and archaeological character and to publish the results in the Transactions of different Societies and in scientific journals Some of these papers are now scarce and difficult of access and a desire having been expressed in various quarters for their appearance in a collected and permanent form I was consulted on the subject by Sir Walter Simpson who put into my hands copies of the various essays with notes on some of them by his father which seemed to indicate that he himself had contemplated their republication Having for a long time been acquainted with their merits I did not hesitate to express a strong opinion in favour of their publication and I accepted with pleasure the duty of editing them which Sir Walter requested me to perform The papers in question were the fruit of inquiries begun indeed as a relief from weightier cares but as it was not in their author's nature to rest satisfied with desultory and superficial results in his treatment of any subject so his archaeological papers more resemble the exhaustive treatises of a leisurely student than the occasional efforts of one overwhelmed in professional occupations In the present work will be found all the more important archaeological papers of Sir James Simpson collected from the various sources indicated in the Table of Contents The subjects to the antiquities of which Sir James first directed his attention were connected with his own profession but as time went on his interest in historical pursuits deepened and expanded and the questions discussed by him became more varied It has been thought best to arrange the papers of a general historical scope in the first volume and those connected with professional antiquities in the second but readers who may wish to trace the order in which they were written by the author will find their various dates in the Table We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience *Archaeological Essays, Vol. 1 (Classic Reprint)* James Young Simpson, 2018-02-07

the region's population and examines in detail specific cities and villages finding ample indications of Jewish inhabitants and virtually none for gentiles.
