Preisendanz, 2018. This volume explores aspects of yoga over a period of about 2500 years. In its first part, it investigates facets of the South Asian and Tibetan traditions of yoga, such as the evolution of posture practice, the relationship between yoga and sex yoga in the theistic context, the influence of Buddhism on early yoga, and the encounter of Islam with classical yoga. The second part addresses aspects of modern globalised yoga and its historical formation, as for example the emergence of yoga in Viennese occultism, the integration of yoga and nature cure in modern India, the eventisation of yoga in a global setting, and the development of Patanjali's iconography. In keeping with the current trend in yoga studies, the emphasis of the volume is on the practice of yoga and its theoretical underpinnings.

A More Beautiful and Terrible History Jeanne Theoharis, 2018-01-30. Praised by The New York Times, O The Oprah Magazine, Bitch Magazine, Slate, Publishers Weekly, and more, this is a bracing corrective to a national mythology. New York Times around the civil rights movement. The civil rights movement has become national legend, lauded by presidents from Reagan to Obama to Trump as proof of the power of American democracy. This fable featuring dreamy heroes and accidental heroines has shuttered the movement firmly in the past, whitewashed the forces that stood in its way, and diminished its scope. And it is used perniciously in our own times to chastise present-day movements and obscure contemporary injustice. In *A More Beautiful and Terrible History*, award-winning

historian Jeanne Theoharis dissects this national myth making teasing apart the accepted stories to show them in a strikingly different light We see Rosa Parks not simply as a bus lady but a lifelong criminal justice activist and radical Martin Luther King Jr as not only challenging Southern sheriffs but Northern liberals too and Coretta Scott King not only as a helpmate but a lifelong economic justice and peace activist who pushed her husband s activism in these directions Moving from the histories we get to the histories we need Theoharis challenges nine key aspects of the fable to reveal the diversity of people especially women and young people who led the movement the work and disruption it took the role of the media and polite racism in maintaining injustice and the immense barriers and repression activists faced Theoharis makes us reckon with the fact that far from being acceptable passive or unified the civil rights movement was unpopular disruptive and courageously persevering Activists embraced an expansive vision of justice which a majority of Americans opposed and which the federal government feared By showing us the complex reality of the movement the power of its organizing and the beauty and scope of the vision Theoharis proves that there was nothing natural or inevitable about the progress that occurred A More Beautiful and Terrible History will change our historical frame revealing the richness of our civil rights legacy the uncomfortable mirror it holds to the nation and the crucial work that remains to be done Winner of the 2018 Brooklyn Public Library Literary Prize in Nonfiction

of contemporary issues in world politics **Economic Woman** Frances Raday, 2019-05-14 The author introduces the concept of economic woman and makes her visible in duality with and opposition to the exclusive model of economic man. Economic man has epitomized neo liberal capitalism which embraces competition and maximization of profit resulting in a steep increase in economic inequality. The book demonstrates that women's inequality is a crucial factor in economic inequality which cannot be fully understood without relating to women's situation and that economic woman cannot thrive in the conditions of economic inequality created under global neo liberalism. Emphasising the international human rights guarantees of women's right to equality in all fields of life the author documents woman's increased participation in political public financial and corporate institutions employment and entrepreneurship with some women reaching high profile positions. Nevertheless using global data she reveals that economic woman lags behind with a severe economic power deficit an unfulfilled promise of equal employment opportunity a gendered impact of poverty and barriers to gender equality in the family. The book analyses the trap of women's increased burden of breadwinning in the context of discriminatory laws and practices infrastructural failures and policy gaps which preempt achievement of gender equality in economic life. The book is intended for the general reader academics students policy makers and NGOs. It shows economic woman at a global crossroads between a universal paradigm of gender equality and pervasive barriers to equal economic opportunity. The author demonstrates that tackling gender inequality restoring welfare priorities and reducing economic inequality are inextricably linked. Human rights and governments have a vital role to play in addressing them all to create a sustainable economic infrastructure for the lives of women and men **Yearbook of International Organizations 2014-2015 (Volume 4)** Union Of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available. Dubois, 2021-07-08 **Migrants, Refugees and Asylum Seekers' Integration in European Labour Markets** Veronica Federico, Simone Baglioni, 2021-04-21 This open access book discusses how and to what extent the legal and institutional regimes and the socio cultural environments of a range of European countries the Czech Republic Denmark Finland Greece

Italy Switzerland and the UK in the framework of EU laws and policies have a beneficial or negative impact on the effective capacity of these countries to integrate migrants refugees and asylum seekers into their labour markets The analysis builds on the understanding of socio cultural institutional and legal factors as barriers or enablers elements that may facilitate or obstruct the integration processes The book examines the two dimensions of integration being access to the labour market which translated into a rights language means the right to work with its corollaries recognition of qualifications vocational training etc and non discriminatory working conditions which translated into a rights language means right to both formal and substantial equality and its corollaries of benefits and duties deriving from joining the labour market It thereby offers a novel approach to labour market integration and migration asylum issues given its focus on legal aspects which includes most recent policy changes and legal decisions including litigation cases The robust evidence based and comparative research illustrated in the book provides academics and students but also practitioners and policy makers with up to date knowledge that will likely impact positively on policy changes needed to better address integration conundrums

Beyond Control James F. Barnett Jr., 2017-03-16 Beyond Control reveals the Mississippi as a waterway of change unnaturally confined by ever larger levees and control structures During the great flood of 1973 the current scoured a hole beneath the main structure near Baton Rouge and enlarged a pre existing football field size crater That night the Mississippi River nearly changed its course for a shorter and steeper path to the sea Such a map changing reconfiguration of the country's largest river would bear national significance as well as disastrous consequences for New Orleans and towns like Morgan City at the mouth of the Atchafalaya River Since 1973 the US Army Corps of Engineers Control Complex at Old River has kept the Mississippi from jumping out of its historic channel and plunging through the Atchafalaya Basin to the Gulf of Mexico Beyond Control traces the history of this phenomenon beginning with a major channel shift around 3 000 years ago By the time European colonists began to explore the Lower Mississippi Valley a unique confluence of waterways had formed where the Red River joined the Mississippi and the Atchafalaya River flowed out into the Atchafalaya Basin A series of human

alterations to this potentially volatile web of rivers starting with a bend cutoff in 1831 by Captain Henry Miller Shreve set the forces in motion for the Mississippi's move into the Atchafalaya Basin. Told against the backdrop of the Lower Mississippi River's impending diversion, the book's chapters chronicle historic floods, rising flood crests, a changing strategy for flood protection, and competing interests in the management of the Old River outlet. Beyond Control is both a history and a close look at an inexorable living process happening now in the twenty-first century.
