Religion Out Loud Isaac Weiner, 2023-11-21 For six months in 2004 controversy raged in Hamtramck Michigan as residents debated a proposed amendment that would exempt the adhan or Islamic call to prayer from the city's anti noise ordinance The call to prayer functioned as a flashpoint in disputes about the integration of Muslims into this historically Polish Catholic community No one openly contested Muslims' right to worship in their mosques but many neighbors framed their resistance around what they regarded as the inappropriate public pronouncement of Islamic presence

an announcement that audibly intruded upon their public space Throughout U S history complaints about religion as noise have proven useful both for restraining religious dissent and for circumscribing religion s boundaries more generally At the same time religious individuals and groups rarely have kept quiet They have insisted on their right to practice religion out loud implicitly advancing alternative understandings of religion and its place in the modern world In *Religion Out Loud* Isaac Weiner takes such sonic disputes seriously Weaving the story of religious noise through multiple historical eras and diverse religious communities he convincingly demonstrates that religious pluralism has never been solely a matter of competing values truth claims or moral doctrines but of different styles of public practice of fundamentally different ways of using body and space and that these differences ultimately have expressed very different conceptions of religion itself Weiner s innovative work encourages scholars to pay much greater attention to the publicly contested sensory cultures of American religious life

An Architecture of Immanence Mark A. Torgerson, 2007-01-22 Torgerson begins by discussing God s transcendence and immanence and showing how church architecture has traditionally interpreted these key concepts He then traces the theological roots of immanence s priority from liberal theology and liturgical innovation to modern architecture Next Torgerson illustrates this new architecture of immanence through particular practitioners focusing especially on the work of theologically savvy architect Edward Anders S vik Finally he addresses the future of church architecture as congregations are buffeted by the twin forces of liturgical change and postmodernism

Honoring Ancestors in Sacred Space Grace Turner, 2023-10-10 The Anglican Church established St Matthew's Parish on the eastern side of Nassau to accommodate a population increase after British Loyalists migrated to the Bahamas in the 1780s The parish had three separate cemeteries the churchyard cemetery and Centre Burial Ground were for whites but the Northern Burial Ground was officially consecrated for nonwhites in 1826 by the Bishop of Jamaica In *Honoring Ancestors in Sacred Space* Grace Turner posits that the African Bahamian community intentionally established this separate cemetery in order to observe non European burial customs Analyzing the landscape and artifacts found at the site Turner shows how the community used this space to maintain a sense of social and cultural belonging despite the power of white planters and the colonial government Although the Northern Burial Ground was covered by storm surges in the 1920s and later a sidewalk was built through the site Turner's fieldwork reveals a wealth of material culture She points to the cemetery's location near water trees planted at the heads of graves personal items left with the dead and remnants of food offerings as evidence of mortuary practices originating in West and Central Africa According to Turner these African influenced ways of memorializing the dead illustrate W E B Du Bois's idea of double consciousness the experience of existing in two irreconcilable cultures at the same time Comparing the burial ground with others in Great Britain and the American colonies Turner demonstrates how Africans in the Atlantic diaspora did not always

adopt European customs but often created a separate parallel world for themselves A volume in the Florida Museum of Natural History Ripley P Bullen Series A Richer Heritage Robert E. Stipe,2003 Surveying the past present and future of historic preservation in America this text features 15 essays by some of the most eminent voices in the field essays which highlight the principle ideas and events that have shaped and continue to shape the movement *Sacred Space for the Missional Church* William R. McAlpine,2011-02-14 Sacred Space for the Missional Church examines the strong link between the theology and mission of the Church and the spaces in which and from which that theology and mission are lived out The author demonstrates that the built environment is not incidental or even subservient to mission Rather it is a key player in the fulfillment and the communication of that mission The book begins with a working definition of the missional church underscoring the connection between God s mission missio Dei and the Church s mission The reader is presented with historical and theological frameworks for sacred space and reminded of the pivotal role of the built environment in the fulfillment of the mission of the Church The design and construction of sacred spaces are shown to be fundamentally a theological exercise and not solely a matter of function pragmatics and fiscal astuteness The author questions the uncritical application of blanket statements such form must follow function and challenges the conviction that it does not matter where worship occurs only that it occurs The book addresses genuine concerns such as legitimizing the cost of church buildings and concludes with practical suggestions and essential questions that must be considered in posturing the built environment within the missional praxis of the Church **Beaches Environmental Assessment, Closure, and Health Act of 1990** United States.
