In Search of Ancient Gods Erich Von Daniken,Outlet,1988-12-01 *In Search of Ancient Gods* Erich von Däniken,1978

In search of ancient gods Erich von Däniken,1974 **In Search of Ancient Gods** Erich von Däniken (is pseud.),1975

In Search of Ancient Gods Erich von Däniken,1973 Further word from the author on his theory of an Era of the Gods on earth The Search for Extra Terrestrial Intelligence David Lamb,2005-07-26 Looks at SETI s validity as a research programme and examines recent attempts to contact other intelligent life forms Also assesses theories on the origin of life on Earth discoveries of former solar planets and proposals for space colonies ,1988 **Bogowie: A Study of Eastern Europe's Ancient Gods** T.D. Kokoszka,2023-08-25 T D Kokoszka grew up in Texas with a Jewish mother and a Polish American father While he was aware of roots going back to Eastern Europe from both families he found it hard to learn very much about them He knew that Polish people would whack one another with palm leaves around Easter and he knew that his great grandmother purportedly believed in forest spirits known as borowy However it wasn t until he was in his teens that he became vaguely aware of an ancient people known as the Slavs who gave rise to the Polish Ukrainian Russian Serbian Bulgarian Slovakian Slovene and Czech languages It quickly became clear to him that this was a family of cultures currently under represented in popular culture and even in western scholarship Not simply a regurgitation of scholarship from the Soviet period and presenting new analyses by using previously neglected resources *Bogowie A Study of Eastern Europe s Ancient Gods* offers one of the most painstaking scholarly reconstructions of Slavic paganism These new resources include not only an overview of folklore from many different Slavic countries but also comparisons with Ossetian culture and Mordvin culture as well as a series of Slavic folktales that Kokoszka analyzes in depth often making the case that the narratives involved are mythological and shockingly ancient Readers will recognize many European folktale types and possibly learn to look at these folktales differently after reading this book Cargo Cults and Millenarian Movements G. W. Trompf,2012-10-25 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series **Runes: The Sacred Language of the Ancient Gods** Alina Rubi,2025-05-26 This book is a complete and experiential guide to the runes the ancient sacred alphabet that acts as an oracle magical symbol and path of inner transformation Through its history meaning practical uses and interpreted spreads you will discover how each rune holds a profound teaching an active energy and a voice of its own that can help you make decisions protect your energy and understand the cycles of life More than a

Docufictions Gary D. Rhodes, John Parris Springer, 2014-10-01 Through most of the 20th century the distinction between the fictional narrative film and the documentary was vigorously maintained The documentary tradition developed side by side with but in the shadow of the more commercially successful feature film In the latter part of the century however the two forms merged on occasion and mockumentaries fictional works in a documentary format and docudramas reality based works in a fictional format became part of the film and television landscape The 18 essays here examine the relationships between narrative fiction films and documentary filmmaking focusing on how each influenced the other and how the two were merged in such diverse films and shows as Citizen Kane M A S H This Is Spinal Tap and Destination Moon Topics include the docudrama in early cinema the industrial film as faux documentary the fear evoked in 1950s science fiction films the selling of reality in mockumentaries and reality television and documentary forms The essays provide a foundation for significant rethinking of film history and criticism offering the first significant discussion of two emerging and increasingly important genres Instructors considering this book for use in a course may request an examination copy here
