Steven B. Mertens, Micki M. Caskey, 2018-04-01 In 2015 16 the Middle Level Education Research Special Interest Group
MLER SIG an affiliate of the American Educational Research Association undertook a collaborative project the development
of a new middle grades education research agenda The purpose of the MLER SIG Research Agenda Mertens et al 2016 was
to develop a set of questions that would guide the direction of middle grades education research Ideally this Research
Agenda would serve to prompt discourse and generate research projects that could contribute to the middle grades
knowledge base Members of the MLER SIG identified eight research areas a young adolescent development b cultural
responsiveness c special populations d educator development e curriculum f social and emotional learning g digital
technologies and h school structures This volume contains the extensive literature reviews and subsequent research
questions for each of the research topics **Maximizing the Policy-Relevance of Research for School Improvement**

Angela M. Urick, David E. DeMatthews, Timothy G. Ford, 2021-01-01 Education policy and policy making is shaped through the
activities of a complex network of educators educational leaders researchers community members as well as government and
non government officials and organizations Educational researchers are a critical player in this complex network and their
investigations of various educational phenomena can answer questions relevant to the design and implementation of
education policy for school improvement Educational research however often has limited influence in larger policy
conversations and decisions Orland 2009 and this is due to many factors Educational researchers can provide an evidence
based starting place for discussions about school improvement with the complex network of stakeholders engaged in policy
development and implementation but they must be more intentionally and systematically thoughtful about the connections of
their work to policy and policy making Furthermore researchers can increase the relevance of their work for policy through
the careful design and framing of research in collaboration with end users and an awareness of its implications In so doing
researchers can spur the interest and dissemination of their findings to wider audiences This book offers resources for
education researchers faculty and advanced graduate students interested in maximizing the relevance of their research on
policy for school improvement In achieving this purpose the book is organized into three sections 1 A primer for education
policy making in the United States 2 Designing research to maximize education policy relevance and 3 Engaging users of
research to communicate its relevance to policymakers This book is primarily for education researchers faculty and advanced
graduate students seeking to improve the visibility and impact of their research on school improvement particularly in the
realm of educational policy and policy making While this book is a volume in the book series for the American Educational
Research Association Special Interest Group Leadership for School Improvement the importance and usefulness of the topics
covered span education research more broadly Further the content of this book serves as a comprehensive guide for how
education researchers in general can better situate their work to influence policy The book is intended to be utilized by

university scholars graduate students in research or policy courses post doctoral fellows as well as research associates or directors in various organizations relevant to education such as research consulting groups non profits which serve education causes teacher unions state agencies or state level educator organizations associations and think tanks Emerging or established researchers in any of these organizations who want to increase the relevance significance and dissemination of their work into education policy will hopefully find this book useful

Equity & Cultural Responsiveness in the Middle Grades Kathleen M. Brinegar, Lisa M. Harrison, Ellis Hurd, 2019-04-01 While developmental responsiveness is a deservedly key emphasis of middle grades education this emphasis has often been to the detriment of focusing on the cultural needs of young adolescents This Handbook volume explores research relating to equity and culturally responsive practices when working with young adolescents Middle school philosophy largely centers on young adolescents as a collective group This lack of focus has great implications for young adolescents of marginalized identities including but not limited to those with culturally and linguistically diverse backgrounds LGBTQ youth and those living in poverty If middle level educators claim to advocate for young adolescents we need to mainstream conversations about supporting all young adolescents of marginalized identities It empowers researchers educators and even young adolescents to critically examine and understand the intersectionality of identities that historically influenced and continue to affect young adolescents and why educators might perceive marginalized youth in certain ways It

is for these reasons that researchers teachers and other key constituents involved in the education of young adolescents must devote themselves to the critical examination and understanding of the historical and current socio cultural factors affecting all young adolescents The chapters in this volume serve as a means to open an intentional and explicit space for providing a critical lens on early adolescence a lens that understands that both developmental and cultural needs of young adolescents need to be emphasized to create a learning environment that supports every young adolescent learner

John H Clarke Professor Emeritus University of Vermont

Students at the Center Bena Kallick, Allison Zmuda, 2017-01-30 Educators most important work is to help students develop the intellectual and social strength of character necessary to live well in the world The way to do this argue authors Bena Kallick and Allison Zmuda is to increase the say students have in their own learning and prepare them to navigate complexities they face both inside and beyond school This means rethinking traditional teacher and student roles and re examining goal setting lesson planning

assessment and feedback practices It means establishing classrooms that prioritize Voice Involving students in the what and the how of learning and equipping them to be stewards of their own education Co creation Guiding students to identify the challenges and concepts they want to explore and outline the actions they will take Social construction Having students work with others to theorize pursue common goals build products and generate performances Self discovery Teaching students to reflect on their own developing skills and knowledge so that they will acquire new understandings of themselves and how they learn Based on their exciting work in the field Kallick and Zmuda map out a transformative model of personalization that puts students at the center and asks them to employ the set of dispositions for engagement and learning known as the Habits of Mind They share the perspectives of educators engaged in this work highlight the habits that empower students to pursue aspirations investigate problems design solutions chase curiosities and create performances and provide tools and recommendations for adjusting classroom practices to facilitate learning that is self directed dynamic sometimes messy and always meaningful

Young Adult Literature and the Digital World Jennifer S. Dail,Shelbie Witte,Steven T. Bickmore,2018-04-26 This book considers the practical intersection between digital media and young adult texts In these books teachers and teacher educators offer practical examples for engaging students with crafting critical responses to young adult literature through digital spaces It examines how teachers can use these spaces to help students encounter evaluate and engage in the world in which they live Young adult literature offers a vehicle through which students can discuss and explore the world in a more removed manner while digital media offers a paradigm for helping students craft multimodal responses that extend beyond the traditional literary essay This intersection asks teachers to consider how they are asking students to interact with the texts they read It asks them to invite students to enter and contribute to broader conversations through the production of their own texts This book illustrates pedagogical principles in practice showing what is possible in literature study in classrooms

Middle Grades Research Journal Larry G. Daniel,2017-06-01 Middle Grades Research Journal MGRJ is a refereed peer reviewed journal that publishes original studies providing both empirical and theoretical frameworks that focus on middle grades education A variety of articles are published quarterly in March June September and December of each volume year

Over-Tested and Under-Prepared Bob Sornson,2022-11-23 Pressured by standardized testing and rigid pacing guidelines many schools are forced to cover too much content too quickly without being able to meet the needs of individual students In this powerful book from acclaimed author and presenter Bob Sornson you ll learn how shifting from curriculum based instruction to competency based personalized learning can help students become more successful confident and engaged learners Each chapter is easy to digest and provides compelling research strategies and anecdotes to inspire conversation and action This second edition provides updated statistics and examples of schools successfully using competency based learning models to help you bring about meaningful change Teachers administrators and community leaders will all find practical resources and a clear rationale for transforming our current educational system into a new dynamic model of teaching and learning

The Impact of Innovative ICT Education and AI on the Pedagogical Paradigm Boris Aberšek,2019-04-25 To be a good teacher one must acquire a large set of different kinds of interdisciplinary knowledge Education for teachers and trainers consists in part of learning the language of education and the appropriate associated skills A deeper understanding of judgments and choices also requires a richer vocabulary than is available in everyday language On a systemic level the education system needs to consider the individual as the basic building block of society and further take into consideration the individual s consciousness related to their emotional intelligence Because a person s consciousness is something entirely

singular and inherent to the individual some kind of generalization will have to be constructed which will contribute enough in terms of novelty and progress to make it innovative enough for the purposes of teaching and learning This volume will serve to provoke cognitive dissonance and intellectual unease as it explores cognitive theories and inspires researchers and teachers to update and invigorate some of the theories that have been embedded in their minds since their own school years In order for this to happen the book provides readers with many valuable insights and introduces new experiences resulting from alternative teaching practices
