**Self Assessment in Musculoskeletal Pathology X-rays** Karen Sakthivel-Wainford, 2011 Today many radiographers are trained to report on trauma radiographs Universities are also training student radiographers to comment on trauma radiographs It is useful in some cases essential that whilst we review the trauma radiograph we also recognise and note any appropriate pathology For instance a patient attends Accident and Emergency with pain in their knee for several weeks following trauma the

radiographs show no fracture but some signs of a malignant bony tumour which on further investigation is an osteo sarcoma As with the other books in the series this book starts with several chapters by different authors followed by a series of 100 cases Self assessment in Musculoskeletal Pathology X rays will appear to a variety of health professions and like others in the series is intended to accompany a reporting course and to be used alongside further research and reading

*Radiology Today* 4 Friedrich H. W. Heuck, Martin W. Donner, 2012-12-06 The biennial symposium Radiology Today continues its original mission to bring together European and American radiologists to discuss advances in the field This volume presents material by well known experts in cardiovascular and skeletal radiology Its aim is to provide an overview of each major topic trends in clinical development and current interests in research The future holds much promise for cardiovascular and skeletal radiology primarily because of new techniques and procedures but also because of the development of imaginative approaches to clinical problems Ideas are born on both sides of the Atlantic and we believe that it is important to ensure a rapid exchange of new information and to determine how it fits into today s medical care keeping in mind the quality of patients care their safety and comfort as well as cost The traditional role of radiologists as consultants has increased greatly over time with new responsibilities being continuously added We radiologists are challenged to determine the diagnostic pathway appropriate to each patient To arrive at the diagnosis quickly safely and at the lowest possible cost is as important as our participation in determining the patient s management Some therapeutic procedures are even carried out by diagnostic radiologists themselves employing ultrasound computed tomography or fluoroscopy and intracavitary catheters Abscesses can be drained and blood vessels dilated or blocked In diagnosis and therapy events are moving quickly and advances are made at a rapid pace
