JOURNEY TO THE END OF THE NIGHT

By
LOUIS-FERDINAND CÉLINE

This is not so much a book as an explosion. It has been more praised and more damned than anything since "Ulysses." It was not given the Prix Goncourt—and L'Académie Goncourt was nearly disrupted as a result. It was given the Prix Renaudot, and the sober-minded critics writhed in agony. The author has been compared to Rabelais, Montaigne, Flaubert, Zola, Anatole France, Steinberg, Huxley, Joyce, Hemingway, Dos Passos. The novel has been labelled "an insult to the reader" and called "the great literary discovery of the year." This literary furore took place in France, but the echoes reached all over Europe, and even made a noise in literary circles in America. Few foreign novels have been so well heralded before their publication in English.

It is the story of an underdog, of all underdogs, of the millions who go through life without hope, without raising their eyes, let alone, without hurling into the air and escaping from it, as a hospital for the mentally deranged, suffering from fear and revolt. He is cured, sent to Africa to a hospital, and ends up in a hospital where great black and white doctors attend him. He comes to America, a lonely, hunted man, and finally returns to France to complete his medical studies and open a practice among the poor of a Paris suburb. But the story is the last part of this book. In spite of French critics, it is a book with beauty, beauty, which is rare.

The Illusion of History *Illusion of History* Andrew R. Russ, 2013 European radical political thought represented by Jean Jacques Rousseau Karl Marx and Michel Foucault has deeply impacted the Western intellectual tradition and political life These thinkers sought to transform Western societies by critiquing institutions that they felt led to oppression of groups They saw societies and institutions as part of a history that constantly develops and has no objective timeless purpose or principles They understood the history of things people do and of events that happen in a primarily evolutionary way As a result these radical political thinkers have often been thought to have a strong historical consciousness Andrew Russ argues in this book that a closer look at their philosophical underpinnings finds that Rousseau Marx and Foucault are much less historical in their methodology than is widely believed Instead they share a more timeless view one indebted to principles ordinarily seen as timeless or transcendent Russ finds that these thinkers are actually quite dependent on the philosopher who concluded the Enlightenment Immanuel Kant Russ's study shows how Kant's view of human freedom and subjectivity as timeless actually informs the work of the radical political position
