Although the word karma is Sanskrit and is associated with Eastern religions it simply refers to the law of cause and effect

Karma is not blind destiny or divine judgment but is the principle that describes the natural reverberation that emerges from every action whether that action is physical emotion mental or spiritual Suffering and pain are not punishment from a tyrant God nor are they normal or mere coincidence When we truly understand the law of action and consequence we can see that our lives are a result of our own moment to moment ignorance of the effects of our actions We create our own suffering therefore we can create our own happiness instead if we know how No matter what religion or background we come from through conscious action from moment to moment we can originate a new set of causes which in turn will generate a new set of results This is how we can revolutionize our life The power to change is in our hands
