**Cathedrals of Bone** John C. Waldmeir,2009-08-25 The metaphor of the Church as a body has shaped Catholic thinking since the Second Vatican Council Its influence on theological inquiries into Catholic nature and practice is well known less obvious is the way it has shaped a generation of Catholic imaginative writers *Cathedrals of Bone* is the first full length study of a cohort of Catholic authors whose art takes seriously the themes of the Council from novelists such as Mary Gordon Ron Hansen Louise Erdrich and J F Powers to poets such as Annie Dillard Mary Karr Lucia Perillo and Anne Carson to the Pulitzer

Prize winning playwright John Patrick Shanley Motivated by the inspirational yet thoroughly incarnational rhetoric of Vatican II each of these writers encourages readers to think about the human body as a site perhaps the most important site of interaction between God and human beings Although they represent the body in different ways these late twentieth century Catholic artists share a sense of its inherent value Moreover they use ideas and terminology from the rich tradition of Catholic sacramentality especially as it was articulated in the documents of Vatican II to describe that value In this way they challenge the Church to take its own tradition seriously and to reconsider its relationship to a relatively recent apologetics that has emphasized a narrow view of human reason and a rigid sense of orthodoxy **The Fine Delight** Nicholas

Ripatrzone,2013-04-09 Where are all the Catholic writers is a popular question these days In his beautifully realized new book *The Fine Delight* Nicholas Ripatrzone offers an answer they are among us writing With skill and care he explores the artistry of three superb writers Ron Hansen Paul Mariani and Andre Dubus as well as several other contemporary Catholic authors In the process he reveals how reading can be sacramental enabling us to discover God's presence in our modern world James Martin SJ author of *The Jesuit Guide to Almost Everything* *The Fine Delight* is a text of scholarship and personal consideration of American literature that is marked by and built from postconciliar Catholic thought Nicholas Ripatrzone has written a highly readable study of the work of writers whose beliefs vary widely but who share a living engagement with the Word This book itself is just such an engagement It will inspire more informed and curious reading Alice Elliott Dark author of *In the Gloaming* Stories Nicholas Ripatrzone offers an insightful interrogation into the theological and aesthetic strategies of contemporary Catholic writers novelists poets and essayists writing in the last fifty years Aware that the Catholic imagination is not static he suggests helpful ways to understand how post Vatican II writers situate their faith in light of their artistic vision A timely book Ripatrzone helps extend the critical and pastoral implications of a Catholic literary aesthetic Mark Bosco SJ author of *Graham Greene's Catholic Imagination* *Let Us Build Us a City* Tracy Daugherty,2017

Daugherty considers the principles of literary art in a series of essays that focus on the nature of artistic vision and the creative individual's relationship to the world The book reads like a master class on writing as practice *Between Human and Divine* Mary Reichardt,2010 An introduction to recent and emerging Catholic literary works and artists *Bodies Under Siege* Armando R. Favazza,1996-05-09 Although instances of deliberate skin cutting are recorded as far back as the old and New Testaments of the Bible the behavior has generally been regarded as a symptom of various mental disorders With the publication of *Bodies Under Siege* a book described in the New York Times Magazine July 17 1997 as the first to comprehensively explore self mutilation Dr Armando Favazza has pioneered the study of the behavior as significant and meaningful unto itself Drawing from the latest case studies from clinical psychiatry he broadens our understanding of self mutilation and body modification and explores their surprising connections to the elemental experiences of healing religions salvation and social balance Favazza makes sense out of seemingly senseless self mutilative behaviors by providing both a

useful classification and examination of the ways in which the behaviors provide effective but temporary relief from troublesome symptoms such as overwhelming anxiety racing thoughts and depersonalization He offers important new information on the psychology and biology of self mutilation the link between self mutilation and eating disorders and advances in treatment An epilogue by Fakir Musafar the father of the Modern Primitive movement describes his role in influencing a new generation to experiment with the previously forbidden body side of life through piercing blood rituals scarification and body sculpting in order to attain a state of grace The second edition of Bodies Under Siege is the major source of information about self mutilation a much misunderstood behavior that is now coming into public awareness
