Heresy, Inquisition and Life Cycle in Medieval Languedoc Chris Sparks, 2014 A fresh examination of the Cathar heresy using the records of inquisitorial tribunals to bring out new details of life at the time

Religion amongst ordinary men and women in Languedoc in the High Middle Ages is the subject of this book. Focusing on laypeople attached to the Cathar movement, it investigates the interplay between heresy and orthodoxy and between spiritual and secular concerns in people's lives, charting the ways in which these developed through life cycle, childhood, youth, marriage and death. This period was one of great upheaval in the region brought about by the Church's response to the perceived threat of heresy, and the book also explores the effects of the Albigensian Crusaders and the inquisitors who followed in their wake. It draws on a large range of evidence, including civic and ecclesiastical legislation, contemporary literature and chronicle, and broader scholarship on the region, but its principal sources are the records of inquisitorial tribunals that operated between 1190 and 1330, transcripts of interview and sentencing which represent the closest thing that exists to an oral history of the period. The author teases out the vibrant detail with which these archives document people's lives, developing and illustrating his argument through the recounting of their stories. Chris Sparks gained his doctorate from the University of York; he now works at Queen Mary University of London.

The Middle Ages in Popular Imagination Paul B. Sturtevant, 2019-08-22. It is often assumed that those outside of academia know very little about the Middle Ages. But the truth is not so simple. Non-specialists in fact learn a great deal from the myriad medievalisms, post-medieval imaginings of the medieval world that pervade our everyday culture. These like *Lord of the Rings* or *Game of Thrones* offer compelling if not necessarily accurate visions of the medieval world. And more, they have an impact on the popular imagination particularly since there are new medievalisms constantly being developed, synthesised and remade. But what does the public really know? How do the conflicting medievalisms they consume contribute to their knowledge? And why is this important? In this book the first evidence-based exploration of the wider public's understanding of the Middle Ages. Paul B. Sturtevant adapts sociological methods to answer these important questions. Based on extensive focus groups, the book details the ways both formal and informal that people learn about the medieval past and the many other ways that this informs and even distorts our present. In the process, Sturtevant also sheds light in more general terms onto the ways non-specialists learn about the past and why understanding this is so important. *The Middle Ages in Popular Imagination* will be of interest to anyone working on medieval studies, medievalism, memory studies, medieval film studies, informal learning or public history.

Gothic Travel through Haunted Landscapes Lucie Armitt, Scott Brewster, 2022-12-06 This book argues that the process and experience of travel in Gothic literature provides a unique and transformative perspective on the relationship between fear and recurring cultural preoccupations from the late eighteenth century to the present ranging from concerns about climate change or the presence of the unseen to the negotiation of cultural difference and the apprehension produced by various modes of modern transport and unknown unknowable terrain The book follows travellers who take many fictional forms tourists commuters walkers explorers as well

as the armchair tourist or reader as they encounter fascinating strange and often disconcerting weathers climates landscapes and topographies Gothic travel epitomises the wonder excitement suspicion or incomprehension that arises from journeys through familiar and unfamiliar terrain While exposure to the wild elemental or primitive could produce the elevation of the sublime in early Gothic increasingly the experience of travel raised unsettling questions about people places and environments that lay beyond established frames of knowledge Gothic travellers are haunted never alone and the experience of journeying through these landscapes provokes fears that may shadow them even after they have returned to home ground *Climates of Fear* reveals the persistent ways in which Gothic narratives of travel confront fears about the environment surveillance im migration and the foreign These abiding concerns speak loudly to the present time however when the encroachments on our immediate surroundings from climate change digital communication and geopolitical dislocation seem at once remote and intimate invisible yet urgent Thus the book also asks whether recent portrayals of Gothic journeys now pose different questions to the reader
