Brown,Robert C. Davis,2014-09-25 This major new collection of essays by leading scholars of Renaissance Italy transforms many of our existing notions about Renaissance politics economy social life religion medicine and art All the essays are founded on original archival research and examine questions within a wide chronological and geographical framework in fact the pan Italian scope of the volume is one of the volume s many attractions Gender and Society in Renaissance Italy provides a broad comprehensive perspective on the central role that gender concepts played in Italian Renaissance society [The Women in the Gospel Of John: the Divine Feminine](#) , **The Bible and Feminism** Yvonne Sherwood,Anna Fisk,2017 This collection provides readers with a concise high level introduction to the field of feminist and gender biblical criticism It consists of 36 chapters which tackle a wide range of new theoretical and methodological movements *Art, Gender and Religious Devotion in Grand Ducal Tuscany* Alice E. Sanger,2017-03-02 Art Gender and Religious Devotion in Grand Ducal Tuscany

focuses on the intersection of the visual and the sacred at the Medici court of the later sixteenth to early seventeenth centuries in relation to issues of gender. Through a series of case studies carefully chosen to highlight key roles and key interventions of Medici women, this book embraces the diversity of their activities from their public appearances at the centre of processions such as the bridal entrance to the commissioning and collecting of art objects and the overseeing of architectural projects to an array of other activities to which these women applied themselves with particular force and vigour: regular and special devotions, visits to churches and convents, pilgrimages and relic collecting. Positioning Medici women's patronage as a network of devotional, entrepreneurial and cultural activities that depended on seeing and being seen, Alice E. Sanger examines the specific religious context in which the Medici grand duchesses operated, arguing that these patrons' cultural interests responded not only to aesthetic concerns and the demands of personal faith but also to dynastic interests, issues of leadership and authority and the needs of Catholic reform. By examining the religious dimensions of the grand duchesses' art patronage and collecting activities alongside their visually resonant devotional and public acts, Sanger adds a new dimension to the current scholarship on Medici women's patronage.

[Mary Magdalene in Medieval Culture](#) Peter Loewen, Robin Waugh, 2014-03-26 This innovative and multidisciplinary collection visits representations and interpretations of Mary Magdalene in the medieval and early modern periods, questioning major scholarly assumptions behind the examination of female saints and their depictions in medieval artworks, literature and music. Mary Magdalene's many and various characterizations from reformed prostitute to conversion figure to devotee of Christ to apostle to the apostles to spiritual advisor to the Prince of Marseilles to hermit in the desert to list just a few examples mean that the many conflicted representations of Mary Magdalene apply to a staggering variety of cultural material including art, liturgy, music, literature, theology, hagiography and the historical record. Furthermore, Mary Magdalene has grown into an extremely popular and controversial figure due to recent books and movies concerning her and due to a groundswell of general speculation concerning her relationship to Jesus: was she his acquaintance, follower, companion, wife, family member or lover? This volume employs a broad spectrum of theoretical methodologies in order to present poststructuralist, postcolonial, postmodernist, hagiographic and feminist readings of the figure of Mary Magdalene, addressing and interrogating her conflicting roles and the precise relationship between her sacred and secular representations.

Speech Acts in Literature Joseph Hillis Miller, 2001 This book demonstrates the presence of literature within speech act theory and the utility of speech act theory in reading literary works Though the founding text of speech act theory J L Austin's *How to Do Things with Words* repeatedly expels literature from the domain of felicitous speech acts literature is an indispensable presence within Austin's book It contains many literary references but also uses as essential tools literary devices of its own imaginary stories that serve as examples and imaginary dialogues that forestall potential objections *How to Do Things with Words* is not the triumphant establishment of a fully elaborated theory of speech acts but the story of a failure to do that the story of what Austin calls a bogging down After an introductory chapter that explores Austin's book in detail the two following chapters show how Jacques Derrida and Paul de Man in different ways challenge Austin's speech act theory generally and his expulsion of literature specifically Derrida shows that literature cannot be expelled from speech acts rather that what he calls iterability means that any speech act may be literature De Man asserts that speech act theory involves a radical dissociation between the cognitive and positing dimensions of language what Austin calls language's constative and performative aspects Both Derrida and de Man elaborate new speech act theories that form the basis of new notions of responsible and effective politico ethical decision and action The fourth chapter explores the role of strong emotion in effective speech acts through a discussion of passages in Derrida Wittgenstein and Austin The final chapter demonstrates through close readings of three passages in Proust the way speech act theory can be employed in an illuminating way in the accurate reading of literary works

Origins of the Magdalene Laundries Rebecca Lea McCarthy, 2010-03-08 The convents asylums and laundries that once comprised the Magdalene institutions are the subject of this work Though originally half way homes for prostitutes in the Middle Ages these homes often became forced labor institutions particularly in Ireland Examining the laundries within the context of a growing world capitalist economy the work argues that the process of colonization and of defining a national image determined the nature and longevity of the Magdalene Laundries This process developed differently in Ireland where the last laundry closed in 1996 The book focuses on the devolution of the significance of Mary Magdalene as a metaphor for the organization from an affluent strong supporter of Jesus to a simple fallen woman

Wounds of Love Frank Graziano, 2004 St Rose of Lima Isabel Flores y Oliva 1586 1617 was canonized in 1671 as the first saint of the New World and Patron of the Americas In this engrossing new biography

Frank Graziano offers the most comprehensive examination of the life of Rose to appear in any language. An obscure self-mortifying mystic, Rose seems a strange choice for the distinction of first American saint. Graziano argues that the cult that grew up around St. Rose during her life and greatly expanded after her death was seen by both Church and State as a challenge and even a threat to authority. For that reason, he contends, the Church acted quickly to render her harmless by bringing her into the fold. Graziano goes on to consider Rose's ascetic Christianity in its cultural context. He seeks to discover why the severe austerities and mortifications of female piety that today are regarded as psychopathological were lauded as exemplary means of worship in the seventeenth century. In fact, he shows, St. Rose's behavior and experiences were initially regarded as pathological by many significant observers within her own culture, but such assessments were gradually dismissed as her saintly image was constructed. Drawing on key archival sources and the insights offered by psychoanalytic theory, Graziano constructs a compelling portrait of one of the Catholic Church's most beloved saints.

BOOK JACKET

The Da Vinci Hoax Carl E. Olson, Sandra Miesel, 2004-01-01. The Da Vinci Code, Dan Brown's best-selling novel, purports to be more than fiction; it claims to be based on fact and scholarly research. Brown wants his readers to believe that he is revealing the long concealed truth about Jesus, Mary Magdalene, and early Christianity, a truth that he says has been suppressed by the malevolent and conspiratorial forces of the Catholic Church. The novel alleges that there has been throughout history a secret group of true followers of a Gnostic Jesus and his wife Mary Magdalene, the true Holy Grail. Almost everything most Christians and non-Christians think they know about Jesus, according to Dan Brown, is completely wrong, the result of Catholic propaganda designed to hide the truth from the world. But are The Da Vinci Code's claims fact or just plain fiction? Is the novel well researched as claimed? What is the truth about Jesus, Mary Magdalene, and the early Church? Has the Catholic Church distorted the real Jesus? Why is the novel so popular? What about the anti-Catholic, anti-Christian agenda behind the novel? Best-selling author Carl Olson and journalist Sandra Miesel answer these and other important questions. Their painstaking research into The Da Vinci Code and its sources reveals some surprising truths. No one who has read or heard about The Da Vinci Code should miss this provocative and illuminating book.
