Subcreation: Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams Stefanie Schult, 2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J.R.R. Tolkien's original term sub-creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader's willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader's acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader's immersion in the fictional world The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams's and Terry Pratchett's fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett's Discworld retains a feeling of Britishness that is not to be found in Williams's Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the success of an author's Subcreation by collecting empirical data Apart from literary works this field of studies may also include other media **Greater Magadha** Johannes Bronkhorst, 2013-01-01 Greater Magadha roughly the eastern part of the Gangetic plain of northern India has so far been looked upon as deeply indebted to Brahmanical culture Religions

such as Buddhism and Jainism are thought of as derived in one way or another from Vedic religion This belief is defective in various respects The book argues for the importance and independence of Greater Magadha as a cultural area until a date close to the beginning of the Common Era In order to correct the incorrect notions two types of questions are dealt with questions pertaining to cultural and religious dependencies and questions relating to chronology As a result a modified picture arises that also has a bearing on the further development of Indian culture The book is arranged in five parts Part I describes cultural features of Greater Magadha under which there are three chapters The Fundamental Spiritual Ideology Other Features and Conclusions Part II Brahmanism vis a vis Rebirth and Karmic Retribution has three sections Hesitantly Accepted Rebirth and Karmic Retribution Ignored or Rejected and Urban Brahmins Under section one there are chapters on Dharma Sutra a portion from the Mahabharata and the early Upanisads Section two features chapters on Rebirth and Karmic Retribution Ignored and Rebirth and Karmic Retribution Rejected Section three is on urban Brahmins Part III dwells on the chronological issues linguistic consideration the Vedic texts known to the early Sanskrit grammarians to the early Buddhists some indications in late Vedic literature urban versus rural culture etc Part IV is Conclusion while Part V has useful appendices The antiquity of the Vedanta philosophy a Carvaka in the Mahabharata Vedic texts known to Panini the form of the Rgveda known to Panini Vedic texts known to Patanjali Brahmins in the Buddhist canon Brahmanism in Gandhara and surrounding and Carvakas and the Sabarabhasya **Science Fact and Science Fiction** Brian M. Schmeink, Astrid Böger, 2012-05-29 Even though the fantastic in its most inclusive definition has been a part of our culture for as long as it exists it has not been a prominent feature of European academic interest With its inherent transgressive moment the fantastic allows for an ideal space of the cultural negotiation of political social and physical boundaries which should place it at the center of popular cultural research not as is the case at its periphery But the commencing boom of fantastic themes in contemporary media production has facilitated a paradigmatic change in research prompting a wide interest in the fantastic in all its forms from fantasy to horror from fairy tale to science fiction This volume addresses this growing interest by reviewing the status of research on the fantastic in Europe so far and by providing a necessary outlook for the future In the essays current trends such as the liminality debate as well as established discourses as for example on genre theory are brought together to show interested researchers a network of interdisciplinary from literary media and social studies approaches towards the fantastic
