Polaris is celebrating its 30th anniversary in the snowmobile business. The machine that David Johnson built 30 years ago in Roseau, Minn., is far different than the Polaris models of today. Yet, the six models in the '85 Polaris lineup continue the proud heritage that started that day long ago when business partner Edgar Hetteen told Johnson: "We sold one, let's build another."

clutching complete the power-to-the-track equation. Hauling the ponies in is a liquid-cooled, hydraulic disc brake.

All that power would be useless, however, without the trend-setting Indy IFS chassis. The independent front suspension and long-travel rear suspension give the 600 the ability to maintain ride and handling control at top speed. A set of wheels has been added to the rear suspension for improved marginal snow performance. This year's 600 gets new blue striping and graphics to highlight its mean black paint job.

Thirty years in the snowmobile business is something special. To commemorate the occasion, Polaris will offer the
