,2008 *Disinventions* José Manuel Cortez,2025-09-09 US immigration policy along the southwestern border is deadly Since 1994 the US Border Patrol has implemented a federal immigration strategy known as prevention through deterrence which closed off many urban entry points along the US Mexico border and militarized urban border crossings This policy forced undocumented migrants to cross through dangerous terrain like the Sonoran Desert often with tragic results Immigrant advocates highlight migrant disappearances and deaths to expose the policy s human toll In *Disinventions* Jos Manuel Cortez argues this approach is unlikely to bring an end to such oppressive immigration practices *Disinventions* examines the cultural political and rhetorical effects of US deterrence practices exploring how discourse on immigration overlooks subjects who have always been a part of the borderlands but are rarely included in migration narratives He highlights the failings of decolonial methods and discourse to fully capture and represent marginalized voices including Black Central American and queer subjects And he develops an ethics of unconditional hospitality embracing undocumented migrants By drawing on the concept of atopias and what he calls sites of disinvention to unearth new forms of politics Cortez suggests we can transcend the limits of decolonization discourse and humanize undocumented immigrants This challenging and engaging work should appeal to scholars and students of rhetorical studies Latinx studies and American studies *Talking Book Topics* ,2014
