Something Old, Something New Wayne Glausser, 2018 *Something Old Something New Contemporary Entanglements of Religion and Secularity* offers a fresh perspective on debates surrounding religious and secular thinking In each chapter Wayne Glausser focuses on a topic of contemporary relevance in which something old the sacrament of extreme unction Greek rhetorical tropes scholastic theology entangles with something new psilocybin therapy for the dying the New Atheism cognitive science Glausser uses the term entanglement to describe his distinctive approach to the relationship between religion and secularity The concept of entanglement refers to a contentious but oddly intimate relationship in which secular ideas compete with corresponding religious convictions but neither side wins by displacing the other As traditional religious knowledge and values come into conflict with their secular counterparts the old ideas undergo stress and adaptation but the influence works in both directions Whether they do so consciously or unconsciously entangled secularists engage with and sometimes borrow from older paradigms they believe they have surpassed *Something Old Something New* takes an unusual approach to this popular debate and offers a new perspective in the conversation between believers and secularists This is a book that theists atheists agnostics and everyone still searching for the right label will find respectful but provocative

The Difference Nothing Makes Brian D. Robinette, 2023-02-15 This book explores the doctrinal social and spiritual significance of a central yet insufficiently understood tenet in Christian theology creation from nothing In this original study Brian D Robinette offers an extended meditation on the idea of creation out of nothing as it applies not only to the problem of God but also to questions of Christology soteriology and ecology His basic argument is that creatio ex nihilo is not a speculative doctrine referring to cosmic origins but rather a foundational insight into the very nature of the God world relation one whose implications extend throughout the full spectrum of Christian imagination and practice In this sense it serves a grammatical role it gives orientation and scope to all Christian speech about the God world relation In part 1 Robinette takes up several objections to creatio ex nihilo and defends the doctrine as providing crucial insights into the gifted character of creation Chapter 2 underscores the contemplative dimensions of a theological inquiry that proceeds by way of unknowing Part 2 draws from the field of mimetic theory in order to explore the creative and destructive potential of human desire Part 3 draws upon the Christian contemplative tradition to show how the dark night of faith is a spiritually patient and discerning way to engage the sense of divine absence that many experience in our post religious post secular age The final chapter highlights creatio ex nihilo as an expression of divine love God's love for finitude for manifestation for relationship Throughout Robinette engages with biblical patristic and contemporary theological and philosophical sources including among others Ren Girard Karl Rahner and Sergius Bulgakov

Crosby,2015-08-04 *Nature as Sacred Ground* explores a metaphysics for religious naturalism Donald A Crosby discusses major aspects of reality implicit in his ongoing explication of Religion of Nature a religious outlook that holds the natural world to be the only world one with no supernatural domains presences or powers behind it Nature as thus envisioned is far more than just a system of facts and factual relations It also has profoundly important valuative dimensions including what Crosby regards as nature s intrinsically sacred value The search for comprehensive metaphysical clarity and understanding is a substantial part of this work s undertaking Yet this endeavor also reminds us that while it is good to think deeply and systematically about major features of reality and their relations to one another we also need to reflect tirelessly about how to respond to metaphysical concepts that call for decision and action **Creation and Contingency in Early Patristic**

Thought Joseph Torchia, OP,2019-04-10 *Creation and Contingency in Early Patristic Thought* The Beginning of All Things explores the interface between philosophy and theology in the development of the seminal Christian doctrine of creation ex nihilo While its main focus lies in an analysis of first to third century patristic accounts of creation it is likewise attuned to their parallelism with Middle Platonic commentaries on Plato s theory of cosmological origins in the Timaeus Just as Christian thinkers sounded out the theological implications of Gn 1 1 2 the successors to Plato s Academy debated the significance of his teaching Tim 28b that the world came to be The fact that both Genesis and the Timaeus address the beginning of all things served as a means of bridging the conceptual gap between the Greek philosophical tradition and a Christian perspective rooted in scriptural teaching Plato s Timaeus and the doxographies it inspired thus provided early Fathers of the Church with the dialectical resources for explicating their distinctive understanding of creation as a bringing into being from nothing *Understanding Worship* Sam Storms,2025-09-09 Step into a deeper understanding of worship with *Understanding Worship* by pastor and scholar Sam Storms Storms challenges conventional perceptions of worship encouraging readers to approach God with a heart ready to receive all his goodness as we find our delight and satisfaction in God s love Through compelling biblical examples Storms demonstrates how worship can lead to a profound experience of freedom and joy as you better understand The demon defeating heart healing power of praise How to worship without insulting God The contrast between new covenant and old covenant worship The place of money in worship A Revelation
