33 Questions Every It Decision Deserves:

A Guide to Assessing Needs Ryan Watkins, Maurya West Meiers, Yusra Visser, 2012-01-06 Making informed decisions is the essential beginning to any successful development project Before the project even begins you can use needs assessment approaches to guide your decisions This book is filled with practical strategies that can help you define the desired results and select the most appropriate activities for achieving them

Most Deserving of Death? Kenneth Williams, 2016-04-15 The role of capital punishment in America has been criticised by those for and against the death penalty by the judiciary academics the media and by prison personnel This book demonstrates that it is the inconsistent and often incoherent jurisprudence of the United States Supreme Court which accounts for a system so lacking in public confidence Using case studies Kenneth Williams examines issues such as jury selection ineffective assistance of counsel the role of race and claims of innocence which affect the Court's decisions and how these decisions are played out in the lower courts often an inmate's last recourse before execution Discussing international treaties and their lack of impact on capital punishment in America this book has international appeal and makes an important contribution to legal scholarship It also provides a unique understanding of the dynamics of an alarmingly problematic system and will be valuable to those interested in human rights and criminal justice

A Digest of Revised Laws and Decisions and Annotated Constitutions of the Right Worthy Grand Lodge of the Independent Order of Good Templars Independent Order of Good Templars. Right Worthy Grand Lodge, William P. Roberts, 1890

What Every Economics Student Needs to Know and Doesn't Get in the Usual Principles Text John Komlos, 2015-07-17 This short book explores a core group of 40 topics that tend to go unexplored in an Introductory Economics course Though not a replacement for an introductory text the work is intended as a supplement to provoke further thought and discussion by juxtaposing blackboard models of the economy with empirical observations Each chapter starts with a short refresher of standard neoclassical economic modelling before getting into real world economic life Komlos shows how misleading it can be to mechanically apply the perfect competition model in an oligopolistic environment where only an insignificant share of economic activity takes place in perfectly competitive conditions Most economics texts introduce the notion of oligopoly and differentiate it from the perfect competition model with its focus on price takers Komlos contends that oligopolies are price makers like monopolies and cause consumers and economies nearly as much harm Likewise most textbook authors eschew any distortions of market pricing by government but there is usually little discussion of the real impact of minimum wages which Komlos corrects The book is an affordable supplement for all basic economics courses or for anyone who wants to review the basic ideas of economics with clear eyes

What Every Employer Needs to Know about OSHA Recordkeeping United States. Bureau of Labor Statistics, 1978

Decisions Baruch Fischhoff, 2025-10-14 A lively authoritative insider's account of how we make decisions and how decision making research has developed over the last half century Decisions describes the evolution of decision science also called behavioral decision

research and related to behavioral economics through its application to challenging personal and public policy decisions since the inception of the field Baruch Fischhoff covers all major topics in basic research including how people create options determine what matters to them evaluate their chances of achieving those goals and engage their emotions He shows how those processes play out in an exceptionally wide variety of decisions regarding health safety the environment disasters and national security among other topics He also examines how decision making abilities vary across individuals and across the lifespan as well as the ethics and politics of how research is conducted and its results are shared and applied

Autonomy and Mental Disorder Lubomira Radoilska,2012-04-19 Autonomy is a fundamental though contested concept This book is the first exploration into the nature and scope of personal autonomy in mental disorder resulting in an important new contribution to the philosophy and psychiatry literature
