The Essential Haiku Versions Of Basho Buson And Issa By Robert Hass:

The Essential Haiku Robert Hass, 1995-08 American readers have been fascinated since their exposure to Japanese culture late in the nineteenth century with the brief Japanese poem called the hokku or haiku. The seventeen syllable form is rooted in a Japanese tradition of close observation of nature of making poetry from subtle suggestion. Infused by its great practitioners with the spirit of Zen Buddhism, the haiku has served as an example of the power of direct observation to the first generation of American modernist poets like Ezra Pound and William Carlos Williams and also as an example of spontaneity and Zen alertness to the new poets of the 1950s. This definitive collection brings together in fresh translations by an American poet the essential poems of the three greatest haiku masters: Matsuo Basho in the seventeenth century, Yosa Buson in the eighteenth century, and Kobayashi Issa in the early nineteenth century. Robert Hass has written a lively and informed introduction, provided brief examples by each poet of their work in the haibun or poetic prose form, and included informal notes to the poems. This is a useful and inspiring addition to the Essential Poets series. *Essential Haiku*

Reflexive Poetics Ethan Lewis, 2013-01-16 It is tremendously important that great poetry be written It makes no jot of difference who writes it Ezra Pound's remark makes some polemic but still more prescriptive sense as evaluative of our present situation Some great poetry never mind the far larger quantity of trash is emerging from countless coteries of devoted artists quite plausibly in your community This

anthology brings to press fifteen exemplary poets from Springfield Illinois and its environs Yet though endorsing their wider popularity this critical anthology advances an interpretative method We can garner much from reading the justly famed poets reflexively with those lesser known in our midst Any specific poem of the highest quality is informed by and informs through comparison with works of like caliber Indeed the test of an obscure gem inheres in critical comparison And relations never run one way One may well harbor keener appreciation of Wallace Stevens in light of certain works by Corrine Frisch just as Keats and Stevens mutually inform one another The central tenet of this text holds with Eliot and Frost a not so unlikely coupling as might be thought hence a perfect pair to introduce the author s modus operandi that we read relationally No artist has his meaning alone We read C the better to read D D the better to go back and get something more out of A Progress is not the aim but circulation to get among the poems where they hold each other apart in their places as the stars do
